

The Alexandria Gazette states that last week the steamer S. S. Coleman went up from the river on the Alexandria canal to Georgetown making the trip in excellent time, and causing very little or no abrasion to the banks of the canal.

**A Common Case**—Mr. Brient late one of the editors of the Louisville Courier, says he has 'scuffled with poverty from his youth up, and were he now relieved from it it would be sort of deprivation.' His case is not a singular one.

The Counterfeiters arrested in this place a few weeks since and committed to jail in Danville, made their escape on last Wednesday night. The next morning they were pursued by Sheriff Derr, and overtaken in Nescopeck township, Luzerne county, quietly eating dinner. They returned through this place Thursday evening en route to their old quarters.

The contemplated withdrawal of the rates of duty in England has created great excitement in Canada, and petitions were being prepared to send to Parliament protesting against the measure as injurious to the Colonial interest.

### A WORD TO MOTHERS

Health is one of the best gifts of parents to their children; and without it, all the advantages of fortune are but evils in disguise. Nature always admonishes the parent when aid is required. If a young child cries much, it must be ill; for it is incapable of being affected by any ideas, but those of bodily pain or pleasure. At such times mothers are apt to give their infants cordials, containing intoxicating or stupefying properties, and though they may answer their immediate purpose, what is the result? The child either dies in convulsions, or in a miserably and unwholesome, pined in their growth, with debilitated sensations, and pained nerves. The food designed by nature for children is so clearly pointed out, that it is marvellous how any person can be mistaken the breast of the mother, or bread and milk for infants; it is so clearly adapted to the delicate state of their stomach, that nothing can be substituted equally nutritious and wholesome. It is at the critical period of 'teething' or when the infant is withdrawn from its mother's breast, in order to substitute a stronger diet, that those fatal diseases arise, which sweep off so many tens of thousands of infants annually. Who can estimate the ravages made by Cholera Infantum? And yet there is a specific for it, which has never been known to fail, when applied by the directions. 'JAYNE'S CARMINATIVE BALSAM' is a remedy that has restored many a languishing babe to the arms of the delighted mother, restoring vigour to the system, at the same time that it eradicates the disease. As men are but children of a large growth, the same remedy will be found equally efficacious in Cholera Morbus, Nervous or Sick Headache, and in all diseases that arise from a disordered state of the stomach and bowels.

This above Medicine are all for sale at the store of JOHN R. MOYER, Bloomsburg.
