

Population of the United States.—Estimating the increase at three per cent per annum on the the census of 1840, the population of the United States will amount to 20,140,379, on the 1st of June, 1847.

It has been discovered by Professor Morse, that the Magnetic Telegraph can now be worked without the use of batteries. Several experiments have been made, all of which proved highly satisfactory. The discovery will be the means of saving much trouble and expense.

The Steamship Calcutta brought the largest mail ever received at the Boston post office, consisting of 113 bags of letters and papers. In less than 3 hours, a mail containing over 36,000 letters, was sorted and despatched by the clerks of the Boston post office.

What Next.—A person in New Haven has invented and offers for sale, an article called the Gam Elastic Baby-Jumper.

A Dreadful deed.—We copy the following inhuman deed from the last number of the Springfield (Mo.) Democrat.—Ex.

A murder has been committed in our very midst that makes one's blood chill to relate. On Friday last, George Young, living about 10 miles west of this, struck his little daughter, 8 or 9 years old, with a hoe, splitting her skull, following the first blow, with others, beating her head, and cutting her neck. The cries of the child brought the mother to the horrid scene. She took up her dead child and started to the house. Young followed, tore the child from his wife, and cut out its entrails! He then put a log chair round his wife's neck and was only prevented from killing her by the timely arrival of some neighbors. Doubts are entertained of Young's insanity.

A TOUCHING INCIDENT.

The steamboat Powhatan runs on the Potomac river, and it is the custom of the Captain to ring the bell as the boat passes Mount Vernon, in honor of the illustrious dead whose mortal remains are entombed there. On a recent occasion the "Harmone" an Singers were on board, and as they slowly passed the great man's tomb they sang in a most pathetic style the melody of "Washington's Grave." Tears, it is said, glistened in the eyes of most of the passengers, and they remained standing uncovered until the sacred spot receded from their vision.

We neglected to mention in our last, that the contract for the rebuilding of Catawissa Bridge had been awarded to Messrs. Frick, Harmon and Board, and that they have already commenced operations with a determination to have it ready for crossing early in the fall.

The North Branch Canal is to be ready for Navigation on or before the 7th inst. So says *Alex. M. M.* through the Danville Democrat.

SPRING.

Has now fairly opened upon us. Every thing looks bright and cheering around us, and the grain crops never looked better this early, with every prospect of rendering a large reward to the husbandman for his toil and labor.

The Boston Times states that nine years ago the city tax gatherer went through East Boston with seven tax bills—eight years ago he collected eight tax bills. Last year the number was about twelve hundred, and we learn that the present year there are upwards of three thousand. A rapid increase surely.

There are 23 blast furnaces in Scioto and Lawrence counties, Ohio, which will make 37,450 tons of pig, which at \$30 per ton, the current market price, amounts to \$1,123,500. Each furnace employs on an average 100 hands.

The bill authorizing the construction of an cut-lock at Wells' Falls, on the Delaware Division of the Pennsylvania Canal, has received the signature of the Governor, and become a law. This water power created by this improvement will be very great—it is allowed that it will be about 22 feet fall at Bristol, and will be worth \$200,000 to the State.

The Paris papers inform the curious in such matters that there is now to be seen in a Jeweller's shop on the Boulevard, the diamond of precious stones to be worn by the Princess Olga, of Russia, on her wedding day. The diadem is worth 10,000,000. The large central diamond is estimated at 1,000,000. This diadem is to be presented to the bride by her Imperial father.

The Mormon publications at Nauvoo have all been discontinued. The archives and trappings of the Church have been removed and are now on the way to California.

A suit for Breach of Promise in the Massachusetts Supreme Court has resulted in a verdict of \$2500.

700 acres of wood and timber land, were burnt over in Fairfield, Connecticut, a few days since.

A large number of copies of the *Courier* of New York, containing a report of the discussion in the Senate, in regard to the purchase or annexation of Cuba, have been burned at Havana, by order of the Captain General.

FEMALE BEAUTY—CULPABLE NEGLECT.

It has been observed by visitors from all other countries, as well as by persons of the best cultivated taste in this, that in no country is there a large class of female beauty and excellence, than in this city. Yet, while the shoe-maker, dress-maker, and milliner engaged in adorning nature's best gift to man, one part appears almost totally neglected—The Hair. How often do the ravages of disease lay waste the delicate form of the fair, and beautiful, and though restored to health again, yet those flowing locks, which once adorned their heads fall off, and never again return to their original beauty. It is inexcusable how any person, more especially a lady, can neglect so much neglect on this point, when a "never failing remedy" can be obtained at No. 8 South Third street and asking for Dr. RUPERT'S Hair Tonic, which will perfectly restore this only neglected part of female beauty.

What is a dollar or two to complete the crowning point of female beauty?

YET ANOTHER.

From the Susquehanna Register.
Although the public have been often imposed upon by patent medicines yet occasionally a really useful and beneficial medicine is discovered, neglected merely because found in bad company. I am led to these remarks by a conversation with a friend a few days since. She had been afflicted for several years with a disease of the heart, which had apparently brought her near the grave one of our most skillful physicians was called who pronounced her disease incurable. An advertisement of Dr. Jayne's Experiment in the Register caught the eye of her friends and a bottle of it was immediately procured at Bendy & Mitchell's in Haverhill. Before she had taken it two days, there was an apparent improvement. She had not taken two bottles as yet, but her health has been nearly restored.
I have no personal motive for recommending this medicine, but merely state the fact hoping that it may meet the eyes of some who are laboring under similar diseases that they may likewise partake of its benefits.
A FRIEND TO HUMANITY,
