From the Norridgework (Me.) Journal.

We publish the following, as among the many evidences which we are constantly receiving of the increasing popularity of Dr. Jayne's Expectorant. We have no interest in "puffing" it—any further than we have a desire to promote the health and happiness of our fellow-creatures, who are wasting away with those complaints, for which this medicine is an absolute remedy. And in calling the attention of the public to it, we feel that we are in the faithful discharge of our duty.

New Portland, Nov. 4, 1842

Mr. Pratt.—Sir: I wish you to send me 3 bottles of Jayne's Expectorant, and in this connection, I would say, that I deem it an invaluable medicine, and an article that no family should be without for a single day. I have used it for two years in my family, and have always found it a quick and efficient remedy for tightness of the lungs, produced by long protracted colds, which produce the short hacking cough, the prominent symptom of Consumption, in which it so frequently terminates in this climate. It properly and reasonably administered, it will effectually break up the most violent fevers, so frequently consequent upon them. I would most cheerfully recommend this medicine to the public in all cases of that nature, as invaluable.

JOHN H. WEBSTER.

CHOLIC and FRETTING of IN FATS,

Every mother should have Jayne's Carmine. It is the very thing they need for their children, as it immediately cures the cholice, and allays all irritation of the stomach and bowels.
