Editorial Circular.

We last week entered upon the third volume of the COLUMBIA DEMOCRAT, and according to custom, should have accompanied that issue with an Address, or Editorial Circular. Necessary absence from home, at the proper time, prevented the fulfillment of that task. We now improve the occasion to say a few words to our readers and patrons.

The business of conducting a public journal, onerous and responsible, is nevertheless, attended with some degree of pleasureable satisfaction. To hold weekly intercourse and friendly correspondence, with thousands of readers, annually, to form acquaintance with friends unseen and unknown-to enjoy their confidence and respeet, is a source of high gratification-is doubly enhanced by the consciousness of the fact, that an Editor's labors have been properly appreciated by those for whose edification and benefit he has catered, written and labored. We have not the vanity to believe, nor dare we affirm, that such has been the state of affairs, exactly, betwixt our respected patrons and ourselves. Through the various vicissitudes of our Editorial labors, during the past fifteen years, in which we have been the conductor of a Press, it has been our destiny-our duty and our and other articles of produce, are hourly passing pleasure, to exert our humble energies in support of regular democratic nominations. For this we claim no especial merit, as we have only performed our plain duty, without the expectation of political promotion or pecuniary emplument, whilst others around us, and some in our very midst, have been countenanced in their base, betrayal of the time honored usages of the democratic party, and even rewarded for their treachery by the bestowment of office and patronage-Sic transit gloria, &c. To you, kind friends and patrons, for your confidence and liberal support, we offer the homage of a grateful heart. ## Triumph of right over Might.

The riot cases in Pattsburg, which accured sometime in last August or September, have excited a large share of interest, and formed a fruitful theme for comment and discussion. It appears that the Factory operators of that City, a violation of the provisions of the "ten hour law," combined together for the purpose of coercing the people in their employ into the performance of twelve hours labor per day. This they refused to do.

The consequence was a turn-out-a riot,arest of the work-hands-a Court trial-and imprisonment of children! L' HABPER, Esq., the

relates to cotton mills in the city of Lancaster .--We do not intend to write a homily on the subject of Corporations, although the present occasion seems to court it, and the time is not inopportune. To these mills, particularly and to the above extract only, we wish to call attention. We all know the language of that champion of Democracy. Col. Frazer upon this very subject when he was among us during the late campaign. Himself a stock-holder in the old or first company, to which the Union refers he gave it as his deliberate opinion, that the company would, before that time, have gone to pieces had they been incorporated.
