AN RENORABLE ERROR .- In our paper of last week, by a derangement of the types, we were made to say "honorable," instead of security.

Improvements. - A walk round town will gratify and much astunish the observer at the unexampled progress of our local improvements. Buildings are everywhere going up. We repeat the opinion heretufore expressed, that Bloomsburg is improving with greater rapidity than any other vil-Jage in the North.

Mounary. - The Muncy Luminary, of last week, published by GEO. L. J. PAINTER, Esq., is clothed in the habilisments of mourning, over the decease of his excellent and amiable Lady, late a citizen of Bloomsburg, whose death we anmonneed a fortnight since.

#### The Militia Law, Again.

The public have already learned the features of old Company meetings, and Battalion Trainings midable looking thing. -which is all wrong and rendered nugatory-as General. In a word-there will be no more traintings of the un-uniformed Militia this year, nor hereafter, forever.

The Bill provides for the enroll ment of all ablehadied men between the ages of 21 and 45 years, and a fine of 50 cents a year is imposed upon all persons subject to perform military duty who do not attach themselves to a volunteer company, Officers and Privates who served in the War with Mexico are forever exempt from Militia Duty. To encourage Volunteers, each company of not less than 30 men is entitled to draw from the miletary fund \$50, and each Company of not less than 50 men, \$75, to be employed in defraying armory and other expenses. Brigade Inspectors to be elected by companies in uniform and regularly organized before the first Monday of June next, the commanding Officer of each Company superintending the election. The Major General to be voted for by all the Commissioned Officers of the Division on the first Monday of July next, and regularly every five years thereafter. Every person serving five years in a volunteer company under this act are exempt from further duty. Each county in the State to be a separate Brigade, exwent the city and county of Philadelphia, which is to form three Brigades. We congratulate the people upon the abolition of the militia trainings, and trust that a splendid array of Volunteer Companies will shortly be organized in accordance with the provisions of the Bill just passed.

Citizen-soldiers of this Brigade, now composed of Columbia county, what say you to the immediate formation of a Volunteer Company "In time of peace, prepare for War," was the maxim of the Father of his Country, whose precopts we love to respect as we desire to emulate his example. Duty requires that the public soicited and patriotic citizen-soldiers of Bloomsharg and vicinity, should at once take the matter in hand and effect a Company organization

#### The Second Washington.

We presume that no one of our numerous readers, has forgotten the oft repeated and never-tobe-forgotten assertion, that Taylor is a second "had nt said that last." For there was never more incongruous comparison. Taylor's course action. since his inauguration, has not been such as to redeem this pledge of his friends, nor to impress the people in his favor.

There is another point in the character of this man, our most Excellent pledge loving Chiet Magistrate, which strikes us as somewhat singular. They say that Taylor hates war. They asserted that he was opposed to the war with Mexico, and that he fought it through, because he was ordered to do so by President James K. Polk.

Now if this Mexican War was unjust, unboly, unrighteens and God abhorred; then it was wrong. If General Taylor thought thus, he should not have fought it, nay, he should have cut off his right hand, before he drew a sword in this accuraed

> Mister Fost Master General Collamer might ome up for a share of our most special and polite attention But, if the Post Master General has the approbation of his Chief in the wholesale decapitation of Democratic office-holders; then, the head of the Post Office Department is but little te blame in this matter; but this anti-ultra-whigno-party President, who had no friends to reward, and no enemies to punish; who had no party to build up; who would be the President of the people, and not of a party; must lie under the charge of having deliberately broken a deliberate pledge. In England the Ministry, (answering to our dea of Cabinet) is held responsible for all the measures propagated, and if the measure prove to be unpopular then the Ministry is dissolved, and a new Primier appointed. "These last few weeks have been marked by unusual scenes of horror, in the West. The details are absolutely sickening.
