FRUIT TERES .- Make a solution of 2 pounds of potash aud 10 gallons of water. Then take a brush and brush the bodies of your fruit trees with this mixture. In two weeks afterwards paint them with a mixture composed thus:- Fo each gallon of soft scap add I lb. of flour of sulphur and 1 pt. salt-mix the whole well together and paint the bodies of each tree from the ground up as far as you can reach. This done, whiten the soil under-neath the limbs of the tree with a compost made of seven parts line and I part salt. If the trees are south side of main strees. young the petash solution should only have half the strength-that is, but I lb. potash to 10 gallons water,

If your orchard has notbeen very recently manured, a bushel of compost comprised near main street. of lime, ashes, bone dust, mould, Marl, &c., should be placed around each tree and carefully dug in.

IMPLEMENTS AND TOOLS-If you did not attend to these last month, go at once and thoroughly examine every one yourself, and have those that need it repaired with- D. Stove manufactory, Main street, a few out delay. If there be any that are unfit for further use, replace them with new ones. LEONARD B. RUPERT, Merchant, first door The farmer who, attempts to add ones. The farmer who attempts to cultivate his starket. lands with insufficient implements and tools, consults anything but his own intorests.

LIMING .- If your lands are not already limed, be sure to begin your arrangements Golden stortar. to commence that necessary part of every farmer's duty. If you cannot spare the means to lime a large field entire, strain a point, and put as much lime as will do part of it-the ice once broken-a beginning once made in the purchase of the article, no matter how few hundred bushels if they are applied the liming of the residue of your farm will prove an easy business.

CURING OF CLOVER .- As you will have cut clover before we " ill ever have another | opportunity of addressing you, let us advise you to cut it when it first comes into bloom ; after letting it remain a few hours in swath, put it into cocks and complete your curing in that way.

LANES, ROADS &c .- If any of your roads tanes, &c., should be in a bad condition, have them repaired immediately,
