THE FARMER.

He that by the plough would thrive,
Himself must either hold or drive.

Golden Rules for Gardeners.

Never waste animal or vegetable refuse. The very soap-suds from the laundry are rich manure.

Have all flower-pots washed, dried, and put away as soon as they are empty.

Never fill a pot so full of soil but that it may hold water enough to go through it; every pot should have half an inch of vacancy above the compost.

Never grow a bad variety of any thing, if you can help it. It takes the same room and wants the same attention as a good one.

Never buy cheap seed. It is only by getting good prices that a seedsman can supply articles to be depended on.

Cover all seeds with at least their own thickness of soil; but as some of it gets washed off you must allow for it.

Gather fruit in dry weather, and with the sun shining, and place them as carefully in the basket as if they were glass.—The smallest bruise commences a decay.

Never subject a plant to a rapid change of temperature. Sudden checks or sudden excitement are equally injurious.

Never grow the same crop, nor crops of the same family twice on the same spot without an intervening crop of a different nature.

Never transplant shrubs and trees in a growing state. However carefully it may be done, the check is dangerous, if not fatal.

Keep all kinds of plants under glass as close as possible to the light.

Never tie up lettuces or endives, or earth up celery, except when perfectly dry. They are sure to spoil if you do.

Keep your plants clean. Dust and dirt on leaves make the plant unhealthy, and it spoils the plant to a certainty.

Never train or support a plant unnaturally. Climbers will not do hanging about. Trailers will not do climbing.

Never sweep a gravel walk with an old broom. It not only tears the edging, but it also scrapes up the walk itself.

Mow lawns before the dew is off the grass, unless you have a machine, which cuts it best when dry.

Rapid growth makes a mild flavor, slow growth a strong one. Therefore grow vegetables quick, and fruit moderately.

The Esthetics of the Sty.

A pig, when he first enters upon existence, is not without beauty. Childhood admires his gambols, his ejaculations of surprise wilth pricked-up ears, his sleek white sides, as he hangs upon the breast. But beauty soon fades in the little porker, as in higher life. He is neglected, soils his fair skin, and becomes a loafer. Pigs should not thus be suffered to fall away from this original attractiveness. They are grunters by nature, and should never be suffered to squeal. They should live the aldermen of the farmer's stock, in easy circumstances. They are too often far otherwise in cold, wet weather. Kept in small filthy pens, with imperfect shelter, and very poorly supplied with straw, it is painful to see them wallowing through the accumulated snow and mud, and squealing their discomfort in tones that drown the wintsw blast. But the esthetics of the sty are not to be named, in comparison with the economy of this carelessness and filth. The pig should be kept as a gentleman in winter; he needs not the puddle or any of its appliances for ridding himself of vermin. He will not thrive without a snug warm bed to sleep in. He should have a saug board floor beneath him, as well as a board roof above him, water-tight. The frozen earth, even with a straw covering, conducts away the heat of his body very rapidly.—He wants under him the non-conducting wood to retain the heat. This greatly economizes food. Many farmers seem to think they have done their duty when they have protected their pigs from the droppings of the skies. But it is quite as important to protect them from the frost beneath. A warm bed upon a floor, we are persuaded, will make a difference of twenty per cent in the fattening of swine. Now is a time of leisure, and these little items of farm economy should be attended to. If you have not a snug warm lodging-house for pigs, let one be built immediately. It will pay a large interest on the labor and capital invested in it, as long as you continue to use it.

Pruning may be attended to this month, and what cannot be done now should be adjourned over to June. Remove all dead limbs from the orchard. Young apple trees should have their superbundant wood thinned out. Limbs that cross each other should be removed. The head of a tree may be trained to almost any desirable shape, by early pruning. A low head, formed in the shape of an inverted umbrella, is on the whole the best, to give the growing fruit the most air and sunlight.

Lord Kinnard's experiments show conclusively, that manure produced and kept under cover, is much more effective than that produced and kept in the open air; and they show, just as we should expect from accurately conducted experiments, that the advantage is quite as decided on the second year's crop as on the first.

BALTIMORE LOCK HOSPITAL.
DOCTOR JOHNSTON.

THE founder of this Celebrated Institution, offers the most certain, speedy, and only effectual remedy in the world for effects for Gleets, Strictures, Seminal weakness, Pains in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Disease of the Head, Throat, Nose or Skin, and all those serious and melancholy Disorders arising from the destructive habits of Youth, which destroys both body and mind. Those secret and solitary practices, are more fatal to their victims than the song of the Syrens to the mariners Ulysses, blighting their most brilliant hopes of anticipations, rendering marriage, &c., impossible.

Young Men.

especially, who have become the victims of solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to extacies the lyre, may call with all confidence.

Marriage.

Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., should immediately consult Dr Johnston, and be restored to perfect health.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a gentleman, and confidently rely upon his skill as ephysician.

Organic Weakness

immediately cured and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victim of improper indulgencies. Young persons are too apt to commit excess from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived of the pleasure of having offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged; the physical and mnetal powers weakened nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, cough, symptoms of consumption &c.'

☞ Office No. 7 South Frederick Street, seven doors from Baltimore street, East side, up the steps. Be particular in observing the NAME and NUMBER, or you will mistake the place.

☞ *Cure Warranted, or no Charge Made, in from One to Two Days.*

NO MERCURY OR NAUSEOUS DRUGS USED.

Dr. Johnston,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears will to sleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill timed sense o shame, or dread of discovery, deters him from applying to those who from education and respectability can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and bones, blotches on the face, nodes on the skin bones, and arms, blotches on the head face, and extremeties, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that bourne from whence no traveler returns." To such therefore Dr. Johnston pledges himself to preserve the most inviolable secrecy, and from his extensive practice in the first Hospitals of Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

Take particular Notice.

Dr. J. addresses all those who have injured themselves by private and improper indulgences.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pain in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, symptoms of Consumption, &c.

MENTALLY—The fearful effects upon the mind are much to be dreaded, Loss of Memory, Confusion of Ideas, Depression of the Spirits, Evil Forebodings, Aversion of Society, Timity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health. Loosing their vigor, becoming weak, pale and emaciated, have a singular appearance about the eyes, cough and symptoms of Consumption.

Dr. Johnston's Invigorating Remedy for Organic Weakness.

By this great and important remedy, weakness of the organs are speedily cured, and full vigor restored. Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved. All impediments to Marriage, Physical and Mental Disqualification, Nervous Irritability, Tremblings and Weakness, or exhaustion of the most fearful kind, speedily cured by Doctor Johnston.

Young Men

Who have injured themselves by a certain practice, indulged in when alone—a habit frequently learned from evil companions, or at school—the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately

What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoymetits of life, by the consequences of deviating from the path of nature, and indulging in acertain secret habit. Such persons before contemplating

Marriage

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

To Strangers.

The many thousands cured at this institution within the last 15 years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the papers and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

Take Notice.

N. B.—There are so many ignorant and worthless Quacks advertising themselves Physicians, ruining the health of the already afflicted, that Dr. Johnston deems it necessary to say, especially to those unacquainted with his reputation, that his credentials and diplomas always hang in his office.

STATE SAVING FUND
OFFICE---Next door to the Post Office.

No. 83 Dock Street, Philadelphia.—1854.—*INTEREST FIVE PER CENT.*

ALL SUMS OF MONEY RETURNED ON DEMAND.

THE STATE SAVINGS FUND, No. 83 Dock Street, next door to Third Street, and adjoining the Post Office, receives money on deposit daily from 9 in the morning until 3 in the afternoon; also Monday evening, from 7 to 9 o'clock. Interest is allowed on deposits at the rate of FIVE PER CENT per annum. Deposits will be returned in whole or in part on demand without notice.

The popularity of this office with all classes of the community, within town and country, and its consequent success, may be ascribed, in part, to the following substantial reasons:

1st, It offers a convenient, responsible and profitable Depository to Executors, Administrators, Assignees Collectors, Agents, and all public officers—to Attorneys, Trustees, Societies and Associations, whether incorporated or otherwise—to married or single ladies—to Students, Merchants Clerks, and business men generally—to Mechanics, Farmers, Minors of either sex and all who have funds, much or little to deposit, where they may be had any time with five per cent interest added.

2d. Depositors receive Books with an abstract of the By Laws and regulations, in which is entered their deposits which books serve as vouchers. They may designate, in case of sickness, death or absence, who will receive their deposits, without the intervention of Executors or Administrators. Any one or more persons may deposit in his her or their name or for any other person or persons.

3d. A Report is made each year to the Legislature and Council of the City.

4th. The Officers are sworn before they enter upon their duties in addition to giving Bonds with sureties.

5th. The State Savings Fund is a real Savings Fund—not an Insurance and Trust Company. Our large list of Depositors and the Philadelphia public have been careful to observe that the charter avoids the business and risk of insurance.

6th. Interest in this company does not cease fourteen days previous to the withdrawals of the money.

7th. It is order to afford every accessible facility to Depositors who reside at a distance from the office, their deposits are permitted to be withdrawn by check, after the manner customary with the Banks, Check Books will be furnished to depositors without charge.

The popular patronage bestewed upon the office by a proverbially cautious and discriminating community, and where the character of the institution is best known, is a gratifying fact to which the Trustees desire to call attention.

Holloway's Ointment.
A MEDICAL REVOLUTION.
The World Unanimous!
THE GREAT COUNTER IRRITANT!!

THE virus of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflammation, promptly and invariably subdues it, whether located in the kidneys, the liver, the lungs or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin in summer rain passes into the fevered earth, diffusing to cool and regenerating influence.

SKIN DISEASES AND GLANDULAR SWELLINGS.

Every species of cutaneous eruption is quickly reduced by the anti inflammatory action of this Ointment.—Angry Eruptions, such as Salt Rheum, Erysipelas, Tetter, Ringworm, Scald Head, Nettle Rash, Scabies, (or Itch) &c., die out, to return no more, under, its application. Hospital experience in all parts of the world proves its unrivalled efficacy in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORE & TUMORS

The effect of this unrivalled external remedy upon Scorbutic, and other virulent ulcers and sores is almost miraculous. It first discharges the poison which produces and perpetuates the disease, and thus the cure is effected by the most natural process. Whether it acts by healing properties afterward complete are safe as well as permanent.

WOUNDS, BRUISES, BURNS, AND SCALDS.

In cases of the fracture of the bones, injuries caused by steam explosions, Bruises, Burns, Scalds, Rheumatism, Stiffness of the Joints, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The medical staff of the French and English armies in the Crimea, have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun shot wounds. It is also used by the Surgeons of the Allied Navies.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Fistes,	Sore Heads,	
Burns	Rheumatism,	Sore Throats,	
Chapped Hands,	Rings	ores of all kinds	
Chilblains,	Sk	neum,	ls,
Fistula,	Scalds,	St	Joints,
Gout,	Skin Diseases,	Tet	
Lumbago,	Swelled Glands'	Ulce	
Mercurial	Erup	Sore Legs,	Ven
tions,		Sore Breasts,	Wounds, all kind

*** Sold at the manufactories of professor Holloway 80 Maiden Lane, New York, and 244 Strand, London by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world in pots at 25 cents, 62 cents, and $1 each. There is a considerable saving in the large sizes.
