

Democratic State Nominations.

FOR GOVERNOR. GEN. WM. F. PACKER, Of Lycoming County.

FOR CANAL COMMISSIONER. NIMROD STRICKLAND, Of Chester county.

COLUMBIA COUNTY AGRICULTURAL SOCIETY. A SPECIAL MEETING of this Society will be held on SATURDAY, the 23rd inst., at 2 o'clock, P. M., at the Court House, Bloomsburg.

Our Government.

The architect of the Universe, and originator of the laws of nature for the regulation of the material things of earth, had no prototype for his guidance, no example to imitate, no chef-d'œuvre to exemplify perfection.

And as the origin and object of the Universe so sublimely accord with the laws of God—so with the science of Government, in its obedience to the wisdom of man.

The regulations of the Universe flowed from the fountain head of truth, purity and omniscience. And as the latter are immaculate, unalterable, and inseparable from the economy of nature—ordinances of the Deity for the prosecution and perfection of the plans of Providence in all things pertaining to the matter; so are the former an approximation to them—as near as the creature can approach his Creator—for the guidance of the mind of man.

As the one is the result of the greatness and goodness of God, so is the other in origin and in object, attributable to the honesty and wisdom of man.

We need no analysis of the science of government, no delicate and difficult comparison between the claims of one set of men and another, to establish the theory that our government is the delect of all that is good in the human mind.

Under absolute Government, men are mere mechanical implements in the hands of the despot. In milder monarchies, the subjects rise higher in the scale of humanity, exercising intellect in some degree towards the conduct, as well as physical and numerical strength for the support and preservation of the country.

The variety of character forming the features of human nature, and the opposing opinions and conflicting claims of even a few individuals, would seem to argue the impracticability of controlling millions by the same system of laws.

Our own country exhibits a completeness of governmental mechanism as admirable in construction as it is unparalleled in the performance of its functions.

one separate sovereign State confederated under the provisions of a Constitution covering the interests of all impartially; with a Congress and President representing the rights of them all, and elected by the voice of the nation, it would seem at first view that the United States constitute a vast consolidated republic, with only geographical distinctions of territory.

With elements of ruinous revolution we have controlling counterpoises; with republicanism ready to run rampant and riot, we have conservative safe-guards and restraints; with steam to drive the ship on, we have safety valves and regulators.

SALE OF THE MAIN LINE.

The Legislature of our State have finally passed the Bill for the sale of the Main Line of our Public Improvements. It passed the Senate on last Monday, the amendments were concurred in by the House, and it is now in the hands of Gov. Pollock for his signature.

This powerful moneyed monopoly, will make "a nice thing" out of the Main Line Bill. In the first place, the Rail Road Company, nominally, give one and a half millions more for the Public Works, in paper bonds than any other purchaser, but in lieu of this, they are forever exonerated from taxation and have nothing to pay on the purchase until 1860, a credit of thirty-three years, when the present generation will have passed away and the powerful wealth of this Company, through their successors in office, can relinquish the work, or have an Act passed to evade payment.

We regard the passage of this bill, under existing circumstances, as the most stupendous fraud that has ever been perpetrated upon the people of Pennsylvania. The Act of 1832-'33, incorporating the Bank of the United States, with a capital of \$35,000,000, and for a period of thirty years, was impotent of harm compared to the dangerous powers conferred by this bill upon that great soulless chartered monopoly, the Pennsylvania Rail Road Company.

Mr. EXT, our Representative, and Mr. STEELE, our Senator, we take pleasure in saying, opposed the nefarious swindle throughout.

Wm. Elwell, Esq; Hon. Wm. Elwell, of Towanda, is favorably named for the Supreme Judgeship of Pennsylvania. We have known Mr. Elwell, intimately, for many years, and it affords us pleasure to say that he is one of the most estimable gentlemen, ablest Lawyers and soundest Democrats, within the limits of our acquaintance.

THE BLAIR CO. MURDER. Close of the Trial of D. S. McKim, for the Murder of Samuel T. Norcross.

HOLLIDAYSBURG, May 8.—Yesterday morning Thaddeus Banks, Esq., opened for the defence, commencing at the opening of the Court, and ending at a little after ten o'clock. The arguments of Mr. Banks were characterized by shrewd reasoning, and at times he became quite eloquent in behalf of the prisoner.

W. A. Stokes, Esq., for the Commonwealth, commenced at the close of Mr. Banks' plea. He opened with a beautiful exordium, and then reviewed the history of the case, beginning with McKim's residence at Dunith, and going over the whole ground connected with the fearful tragedy.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as safe and perfectly safe in its operation. This has been prepared to meet that demand, and an extra trial of its virtues has conclusively shown what success it accomplishes in the purpose designed. It is easy to make a physical pill, but not easy to make the best of all physical pills—one which should have none of the objections, but all the advantages, of every other. This has been accomplished, and with what success we would respectfully submit to the public decision. It has been unforgotten for the past thirty years, that almost every artificial medicine is artful and irritating in its nature. This is not the case with Ayer's Pills. They are not only safe, but they are also effective. They produce no irritation or pain, unless it arise from a previously existing obstruction in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been specifically cured by their use, we may mention: Liver Complaint, in its various forms of Jaundice, Indigestion, Langour and Loss of Appetite, Headache, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Lungs, Dropsy, Rheumatism, and all the consequences of disordered action in the liver. As an aperient they afford prompt and sure relief in Constipation, and in all cases of indigestion, flatulence, and Sourness, Colic with sickness of the body, Ulcers and impurity of the Blood, Irregularities in the Menstrual system, and in all cases of general debility, and in every case where a purgative is required. They have been used with singularly successful results in Rheumatism, Gout, Dropsy, Gravel, Piles, Palpitation of the Heart, Pain in the Back, Stomach, and Bowels, and in all cases of general debility in the spring of the year, in purify the blood and prepare the system for the change of seasons. An occasional use of these pills will restore the bowels to healthy action, and restore the appetite and vigor. They purify the blood, and by their stimulant action on the circulation, they restore the vitality of the system, and give tone to the whole organism. Hence an occasional dose is indispensable, even though the system is not diseased, and for the necessary dosing should never be omitted. For an ever-purgative medicine reduces the strength, when taken to excess, and the system is not to be overdone. Being sugar-coated, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions, see wrapper on the box.

PREPARED BY DR. JAMES C. AYER, Lowell, Mass. Price 25 Cents per Box. Five Boxes for \$1.
