DEMOCRAT

ALEM B. TATE, LOCAL EDITOR.

Saturday Morning, Aug. 1, 1857.

☞ IRON DALE FURNACE.—The Iron Dale Furnace, near Bloomsburg, has lately underwent some valuable improvements, and is now propelled by Steam.

☞ A new Post office has been established in the southern end of Locust township, called Rhoadstown, and Mr. ISAAC RHODES appointed postmaster.

☞ COLUMBIA COUNTY.—A quicksand slide of a portion of the hill ranging along what is known as the "three mile level," pushed about fifty feet of the Lackawanna & Bloomsburg railroad wall into the canal on the 14th ult., The obstruction to navigation was at once removed.

BY

☞ The ther, during the early part of the week was very warm, the ther mometer ranging from 90 to 93 deg, Sunday and Monday. Two or three showers, however, had the tendency to cool the atmosphere, advance vegetation, and lay the dust.

☞ MR. SAMUEL P. BITTON, last week, worked off, in *four hours*, the large edition (1250) of the *Columbia Democrat*. Mr. Bitton is a first-rate Compositor and excellent Press-man. We think it would be difficult to find his superior, as a Practical Printer, within the bounds of Pennsylvania.

☞ DULL.—Our town for the last week has been unusually dull, owing to the fact that our Farmers are busily engaged in harvesting. Nothing has transpired to create the wonder and admiration of a single individual, other than the mosquito, which our devil says, "presents quite a stinging rebuke." He is, also, in love, but we cannot say that his appetite has failed him.

☞ THE MONUMENT TO MR. ROAT'S MEMORY.—*William Neal, Esq*, the Executor of the last will and testament of WESLEY ROAT, Esq, late of Hemlock township, in this county, has—in pursuance of the instructions contained in that article—commenced the erection of Mr. Roat's Monument. Messrs, S. JACOBY & E. ARMSTRONG, are the contractors, and from their ability as Sculptors, we have no doubt, it will be a creditable job, and as the bequest of the tastator was very large for that purpose—some $7,000—it ought to "show far at a distance." Mr. Roat's remains now repose in the Episcopal Burial Ground, where the Monument will be erected.

☞ CAUTIONARY.—About these days, as the almanac would say, look out for sickness. Too great care in regard to diet, cleanliness and exertion cannot be used. Anything like filth, decayed animal or vegetable matter, or collections of stagnant liquids about buildings or premises should be quickly removed, as they are sure generators of miasma and pestilence. Unripe fruits or vegetables, alcoholic drinks, and all stimulating beverages should be sedulously eschewed. By rigidly practicing moderation, prudence and cleanliness, there will be little to apprehend during the prevalence of a "heated term."

☞ The country in Summer-time!—what speaks so eloquently of God, of his goodness, of the world to come? Where are men the strongest, women the prettiest, Nature the loveliest, if not in the broad and open country? There are great gardens here, filled with all manner of bright and excellent things—we have orchards on whose ripening boughs are clusters of golden fruit, soon to be enjoyed; and fields crowded with sheaves, and vocal with the song of the reaper; and brooks, guarded by hazlenut and willow bushes, and woods glorious in the garniture of Summer, solemn in the attire of winter, and homes over all whose casements the honeysuckle may clamber, and at whose doors health and contentment look out with rosy faces. The country is truly God's cathedral, and all who wander in its aisles, are cup-bearers in the feast He is ever spreading.

THE WEATHER.—Never in July have we seen such visitations of rain. The season has been remarkable in many respects.—It was preceded by a severe winter, and larger accumulations of ice and snow within ten degrees of latitude to the north of us were reported early in the spring, than had ever before been known. The month of June was as remarkable for its profuse rains as May had been for its unseasonable cold and dry weather. Now while the harvests are ripening all over the country, the clear air and warm sun is only needed. The greatest anxiety is felt by overbody lest the rain may endanger the prospect of a good corn crop. The harvesters are also very likely to be troubled by the sprouting of the wheat in the shock and the impossibility of getting it under shelter in a country where barns are never equal to both hay and grain crops. We have had enough rain, we think, but we may be mistaken. We bow to the powers that be, in the administration of all such matters.

☞ HELMBOLD'S UNIVERSALLY APPROVED REMEDY.—Compound Extract Buchu cures Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, &c. Read the advertisement in another column, headed "Helmbold's Genuine Preparation."

☞ LIVER COMPLAINT AND DYSPEPSIA.—PHILADELPHIA, January 19, 1853.—Dr. C. M. Jackson—Dear Sir—I have used your Hoofland's German Bitters in my family for the past four years, for Liver Diseases and Dyspepsia, and am pleased to acknowledge that we have received the greatest benefit from its use. I have recommended it to a great many afflicted with similar diseases, with the same good result.

I have no hesitation in saying that it is an invaluable medicine, and hope you will be able to introduce it into every family in the Union.

Yours, truly, WM. HUGHES.
No. 171 Wood street.

BE WISE IN TIME.—How many are there who' afflicted with disease in an incipient stage, delay from time to time having recourse to some remedial agent, which would effectually arrest the further progress of disease, and render the system impregnable to its insidious attacks It is unfortunately too true—there are thousands who sink into an early grave—whereas at a trifling expense they might have lived to a good old age. If there be reliance to be placed in medicine, and thousands of well attested cases establish beyond the possibility of a doubt, the curative properties of any one particular remedy, then Hurley's Sarsaparilla is unquestionably the greatest medicine ever introduced to an afflicted community. Hesitate not, therefore, to use it, if suffering from any of the ills which flesh is heir to.—*Herald (Galveston Texas)*

☞ $1,000 REWARD WILL BE PAID FOR ANY Medicine that will excel PRATT & BUTCHER'S MAGIC OIL for the following diseases:—Rheumatism, Neuralgia, Spinal Affections, Contracted Joints, Cholic Pains, Pains in the Side or Back, Headache, Toothache, Sprains Sore Throat, Cuts, Bruises, Burns, and all diseases of the Skin, Muscles and the Glands. None genuine without the signature of "Pratt & Butcher" attached to each label. Principal office, 205 Washington street, Brooklyn, New York. Sold by G. M. HAGENBUCH, Druggist, Bloomsburg.

☞ This is to certify that I have made but one application of the Magic Oil on my fingers which have been drawn from contraction of the cords, brought on by rheumatism It was of seventeen months standing, and I am now entirely cured. I cheerfully recommend it to all afflicted likewise.

☞ *The Five Per Cent. Saving Fund* of the National safety Company, Walnut street, south-west corner of Third street, Philadelphia, now has nearly One Million and a Half of Dollar all in Real Estate, Mortgages, Ground Rents, and other first class securities, to the benefit of depositors.

☞ THOMAS W. MATTSON, Receives the Prize Medal at the World's Fair in London, 1851, for TRUNKS, CARPET BAGS, Boots, shoes and Gums.—Great inducements are now offered to purchasers of the above articles. This is much the largest stock of trunks, Carpet Bags, Valises, &c., in Philadelphia very cheap, for cash. Manufactories: 139 Market Street, S. W. corner, and 124 Market street, S. E. corner of Fourth.

HURLEY'S SARSAPARILLA.—The wonderful in vigorating properties of this medicine, its specific action in cleansing and thoroughly removing all impurities from the blood, place it foremost among the remedies of the day. At this season of the year its use is attended with marked benefit, and will be found the best restorative for that depressed condition of the system so frequent at this period of the year.—*Ledger (Brenham) Texas.*

☞ THE THOUSANDS whose constitutions have been ruin, and heir systems poisoned by the use of Mercury, should give the following their earnest attention:—Dr. GILES, Newton Hamilton, Pa., May 1851, said—"I have used, myself, half a dozen bottles of Hoofland's German Bitters for Liver Complaint and diseases of a nervous character, resulting from the use of Mercury. I was poisoned, and afflicted with spasms from the use of this latter article. The German Bitters is the first article from which I obtained any relief. I have also given the article to many dyspeptics, with the most salutary result. I think as many more bottles will cure me.

See advertisement.

☞ THE DEMOCRATIC NOMINEE FOR GOVERNOR.—A correspondent writes that as soon as Gen Packer heard that he had been nominated for Governor by the Democratic Convention at Harrisburg, he declared himself overjoyed, and avowed his determination to take the stump at an early day in an irresistible suit of clothing from the magnificent establishment of GRANVILLE STOKES, No. 607 (late 209) Chestnut street above 6th, Philadelphia.

☞ WHITE TEETH, PERFUMED BREATH AND BEAUTIFUL COMPLEXION—can be acquired by using the "*Balm of a Thousand Flowers.*" What lady or gentleman would remain under the curse of a disagreeable breath, when by using the "BALM OF A THOUSAND FLOWERS" as a dentrifice, would not only render it sweet, but leave the teeth white as alaster! Many persons do not know their breath is bad, and the subject is so delicate that their friends will never mention it. Beware of counterfeits. Be sure each bottle is signed

FETRIDGE & CO., N Y.

☞ THE REIGN OF ART.—In this wonderful age, Art lays her master touches on almost everything.—The ceilings over us and the carpets we tread on, are hallowed by Art Art winds the railway through the mountains and the mud makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the intelledge of a boy Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction, has just fallen under our notice, in the shape of a CATHARTIC PILL, from the Laboratory of that world renowned Chemist, Dr. J. C. AYER.

If we understand the subject, he has carried but article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consummate skill extracted the virtues of the medicine to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a sperical pill which is wrapped in an envelope of gelatine, for protection from the effects of weather or time, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all this labored perfection they are offered to the public at less than one cent each. However humble the department, we think this may be safely characterized as the consummation of Art in its line.—*Morning News Bal.*

TO THOSE WHO WANT FARMS.

A FARM WITHIN THE REACH OF EVERY MAN.

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle, or purchase a home can do so.

The Farms subsist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now touring. The property is located in Elk county, Pennsylvania, in the midst of a thriving population of some 30,000. The climate is perfectly healthy, and the terrible plague of the west ever is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from $3 to $20 per acre, payable by trifling instalments, to be located at the time of purchasing, or a share of 25 acres entitling to locate the same for $200, payable $5 per month, or 12½ acres payable $3 per month. Discount for every sum of $100 and under, paid in advance, a discount of 5 per cent. will be allowed, and for over $100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First—The soil is a rich limestone, capable of raising the heaviest crops owing to which this settlement has attained its present great prosperity.

Second—It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veins of the best Bituminous Coal, amounting in the aggregate to over 24 feet, which makes 22,000 tons of coal under every acre. This will make the land of inestimable value.

The eminent state geologist, Dr. Charles T Jackson, of Boston, has made a geological survey of the land, and analyzed the coal, the iron ore, and the limestone. This report, together with maps, will be furnished to inquirers.

Three railroads are laid out through this property. The Sunbury and Erie Railroad gives us a market for our coal to the lakes—it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the west; a direction, the means for the completion of which has been raised—it will soon be finished. The Allegheny Valley Railroad connects us with New York, Boston and Pittsburg. The Venango Road connects us with the West.

There are already good Turnpike Roads running through this property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever over having been known to occur in this settlement. It is not like going to the backwoods of the West, among perhaps an intolerant people, where Mails are scarcely carried, or schools, where the price of land is high, and where the emigrant, after being used to the healthiest climate in the world, has to end his sickness and pain, and perhaps mine his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, factories, stores, saw mills, grist mills, and everything desired. There is a ready market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will become still more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made.

Persons should make early application, call on or write to E. JEFFERIES, Secretary, No 135 Walnut street, below Fifth, Philadelphia Letters carefully answered, giving full information.

Shares in parcels of ten acres or bought or secured by letter enclosing the first instalment of five dollars, when the subscriber will be furnished with books, maps, &c. Warranted Deeds given. Persons can also purchase from our Agents.

Route from Philadelphia to Tyrone on the Pennsylvania Central Railroad, and thence by stage to the land This is a delightful season to visit St. Mary's—the best hotel accommodation is afforded. Enquire for E. C. Shultz, Esq., the Agent for the property at St. Mary's.

NEW AND USEFUL.

OLEUM LIQUOR.

A Substitute for Linseed Oil.

[PATENT APPLIED FOR.]

THE undersigned offer to the public their Oleum Liquor as an efficient substitute for Linseed Oil, as a thinner for all sorts of Paints ground in Oil, except Venetian Red.

When thinned with the Oleum the Paint will cover better, dry quicker and will be more durable, and when varnished, the paint will have and retain the most glossy appearance; and the elasticity of the thinner will cause the paint to avoid cracking varnish, and the cracking and scaling off, so common in ordinary varnished or painted work, is entirely avoided.

For painting Tin Roofs its equal cannot be found.

The Oleum can be used by itself, or in common with Linseed Oil, Varnish, Gum or Turpentine at the option of the Painter.

Its cost is about one-half of that of Linseed Oil, thus considerably reducing the expense of painting.

We fattfully recommend it for all purposes in dirated and warrant it to give satisfaction. A liberal discount to the trade.

DIRECTIONS.—Thin the paint with the Oleum Liquor and work it well until it flows freely from the brush.

The brush must be free from all moisture and invariably ought to be soaked well with the Oleum Liquor, previous to painting.

Instead of plating the brushes in water over night, as per usual, they are to be put in the Oleum Liquor, which will greatly accelerate the work.

The paint mixed with the Oleum Liquor will work better if it be allowed to stand from 12 to 24 hours previous to its being used, and then stirred to such a consistency as a brush load will carry under the brush.

For 1 gallon of paint, 3 to 4 gills of the Oleum will be found sufficient.

100 pounds of Paint thinned with the Oleum Liquor, will cover a larger surface than 10 pounds thinned with Linseed Oil.

The Oleum Liquor is not to be used with Venetian Red, but with Paint containing any proportion of it.

OLEUM LIQUOR.

CERTIFICATE.

WE, the undersigned House Painters, hereby certify that we have given the newly invented Oleum Liquor, manufactured by Brenig, Gaitman & Brenig, in Philadelphia, an impartial trial, and have found it an efficient substitute for Linseed Oil—far superior to it in every respect, at cost of only about half as much. thus considerably reducing the expense of painting. We would therefore recommend the public to its general use, and after it has been tried its superiority over Linseed Oil will be attested to by all.

Plan of the Lottery.

The Numbers from 1 to 30,000, corresponding with those Numbers on the Tickets printed on separate slips of paper, are encircled with small tin tubes and placed in one wheel.

The first 202 Prizes, similarly printed and encircled, are placed in another wheel.

The wheels are then revolved, and a number is drawn from the wheel of Numbers and at the same time a Prize is drawn from the other wheel The Number and Prize drawn out are opened and exhibited to the audience, and registered by the Commissioners; the Prize being placed against the Number drawn. This operation is repeated until all the Prizes are drawn out.

Approximation Prizes—The two preceding and the two succeeding Numbers to those drawing the first 20 Prizes will be entitled to the 20 Approximation Prizes. For example: if Ticket No. 11249 draws the $60,000 Prize, those Tickets numbered 11,248, 11,249, 11,251, 11,252, will each be entitled to $200. If Ticket No. 550 draws the $20,000 Prize, those Tickets numbered 548, 549, 551, 552 will each be entitled to $200, and so on according to the above scheme.

The $3000 Prizes of $20 will be determined by the last figure of the Number drawing the $60,000 Prize. For example, if the Number drawing the $60 000 Prize ends with No. 1, then all the Tickets, where the Number ends in 1, will be entitled to $20. If the Number ends with No. 2, then all the Tickets where the Number ends in 2 will be entitled to $20, and so on to 0.

SALAMANDER FIRE AND THIEF PROOF SAFES.

THE LARGEST ASSORTMENT in the United States.—Warranted to be equal to any now made, and will be sold on as good terms, as can be obtained from any other house in the country, at

EVANS & WATSON'S,
268 4th st., Philadelphia.

TRUTH IS MIGHTY AND WILL PREVAIL!

Report of the Committee, appointed to superintend the Burning of the Iron safes, at Reading, February 27, 1857.

The undersigned, members of the committee, do respectfully report, that we saw the two safes, originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 2½ o'clock, A. M., and kept up until four cords of green hickory, two cords city oak and half a cord of pine wood were consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, as erwards they were opened, and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, and found by the Committee—That the books and papers taken from the Safe, manufactured by Farrels & Herrings were, in our judgment, damaged fully fifteen per cent., more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both Safes.

ALEXANDER H. DYSART,
DANIEL S. HUNTER.

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.
