ALEM B. TATE, LOCAL EDITOR.

Bloomsburg, October 31, 1857.

## RELIGIOUS NOTICES.

Divine services will be held in Bloomsburg, to-morrow, (Sunday, Nov. 1st,) at the following Churches:

*Episcopal Church.*—Rev. H. Tullidge. Services at 10½ o'clock, A. M., and at early candle-light in the evening.

*Methodist Church.*—Service at 10 o'clock, A. M., in the Court House.

*German Reformed.*—Rev. W. Goodrich Service at 10 o'clock, A. M.

*Lutheran Church.*—Rev. R. A. Sharretts. Service at candle-light in the evening.

*Presbyterian Church.*—Rev. D. J. Waller.—Service at 10 o'clock, A. M.

☞ Rev. Henry Tullidge, pastor of the Episcopal Congregation of this place, preaches his farewell sermon, to-morrow evening at early candle-light.

☞ On last Sunday night, the Grocery Store, of Mr. Joseph W. Hendershot, situated near the new Furnace, was broken open and robbed of a large amount of Goods.

☞ On Friday night of last week, Mr. Robert Gilroy, of Berwick, while stoping at the Exchange Hotel in this place, had his pocket picked of a valuable gold watch.

☞ Frosts are said to possess the power of removing fevers. There is one fever, however, that prevails to a great extent in our town, which all the "great gun" blows and frosts in creation can't remove. We mean the *hoop* fever; and it still *spreads*.

☞ It commenced drizzling on Sunday morning last, and at 9 o'clock, the drizzle turned into a smart rain, which continued during the day. The rain is received with joy by all; it will replenish our sources of water for the winter, and millers, particularly, who depend upon water power, can keep their mills in motion during this period of the year. Last year the scarcity of water was severely felt, which it is believed will be remedied by the copious rains of the present fall.

☞ At writing, the marks of winter are visible—the leaves that have kept their verdant coloring until this late day in the season are drooped and fading. Remember the poor in this gloomy twilight of the year. The dark clouds of penury are lowering around them. Though you hear not their cries, heed the voice that speaks to your inmost soul in a whisper that is never overheard. Reader, we are speaking to you, not your neighbor.—Remember the poor.

☞ Looking alone at the gifts of a kind Providence, the present has been a year of unexampled prosperity. The prolific earth has yielded her treasures with a profusion and abundance never before known. Never was there such a yield of all the products of the earth necessary for the sustenance of man and beast, as during the present year. The granaries of the West, and indeed, of every section of our widely extended country, are groaning under the abundance which a bounteous and munificent Providence has showered upon the people of our beloved land. Never, in all our history, has the United States, so teemed with all the substantial elements of wealth as at this very moment. And yet, it is suffering under a crisis of almost unexampled extent and severity. Industry is paralyzed. Merchants are failing by hundreds and thousands. Manufacturing establishments are suspending operations. And thousands upon thousands of laboring men and women, upon the very brink of a severe winter, are thrown out of employment, with the certain prospect of want, privation, and starvation, staring them like grim spectres, in the face.

☞ "Suppose the silly nincompoop that has got to propounding "Arithmetical questions" in the *Democrat*, would try his hand at writing *common sense*, as well as "resume the publication of a *moral, literary* and family paper," which from his tacit acknowledgment it appears he has sadly neglected. We wish him success, for heaven knows that good morals and a sound literature are at a low ebb in certain quarters.—*Republican.*

We very good-naturedly transferred to our columns, the foregoing personal abuse, penned no doubt in a *passion*, by the Editor of the *Republican*, for the purpose of showing its spirit and administering a caution to the little peevish soul of the writer. From the tenor of the article, we would infer, that the late election, has settled very hard upon his mind, and he now retaliates by dealing out weak doses of his *malice* to the *Democrat*. We have always treated the Doctor, with the fairness and courtesy due a gentleman. We noticed in the spring, the project of establishing the *Republican* in Bloomsburg. When it appeared, we again spoke of it in terms of commendation. This is our position. But how has this little-soul Editor requited our kindness.—By adding insult to injury and that continually. We nevertheless, confess that we deplore his weakness of mind, in allowing the result of the election, so much to disturb his equanimity. Having already, excelled our intended limits, in considering *small affairs* we dismiss *Palemon* for the present, with this advice. Should the fool-killer come to town before our next issue, we would suggest to him the *importance* of making good his retreat.

☞ We are now, or ought to be, enjoying what is called the "harvest moon."—About the time of the autumnal equinox, the moon when near her full, rises about sunset a number of nights in succession.—This occasions a remarkable number of brilliant moonlight evenings. The sun being then, in Libra, and the moon, when full, being of course opposite to the sun, or in Aries, and moving eastward in or near the ecliptic at the rate of about thirteen degrees per day, would descend but a short distance below the horizon for four or six days in succession; that is, for two or three days before the full and the same number after; and consequently rise during all these evenings nearly at the same time, viz: a little before or a little after sunset, so as to afford a remarkable succession of moonlight evenings. As this generally occurs about the time of the Eastern harvest, it there got the name of the "harvest moon."

☞ The Lady's Home Magazine, edited by T. S Arthur and Virginia F. Townsend, is an excellent two dollar Magazine. The November number contains an excellent engraving entitled "Mathematical Abstraction," colored and plain fashion plates, and a variety of patterns useful to the Ladies. It is also well stored with reading matter. We do not hesitate to recommend it to our lady readers as worthy of their patronage.

Gen. V. Best, Editor of the *Intelligencer* of this place, we regret to announce is lying very ill, under the power of that insidious disease, Consumption. Mr. Best is one of the oldest Printers in the State, and in the private relations of life, has ever maintained a high character, and many warm and sympathising friends mark his decline, with painful solicitude.—*Danville American, of Tuesday last.*

☞ Our citizens seem now to be enjoying a "season of rest" for both mind and body which amounts almost to stagnation. Business is dull, profits light, and even criminality rests awhile from her nefarious pursuits.

☞ Chesnuts sold in Bloomsburg on Saturday morning at twelve cents a quart. The crop is said to be large, but as yet we have seen little evidence of it.

☞ The season for buckwheat cakes and sausage has arrived. We observe liberal supplies at the different stores. Fall to friends, and help yourselves.

## MARRIAGES.

## DEATHS.

In Bloomsburg, on Friday, October 23d, Mr. John McBride, aged 56 years, 2 weeks and 4 days.

In Bloomsburg, on Tuesday morning, 27th inst., Iddings Barkley, Esq., aged about 79 years.

[Mr. Barkley, was for many years a Justice of the Peace in Bloomsburg, and served one term as County Commissioner. He lived a christian's life and died a christian's death—and has now gone to reap the reward of his faithfulness. In the death of a christian the grave is robbed of its victory, and death of its sting.]

In Hemlock township, on last Friday, 23d inst., Mr. David Smith, aged 75 years, 6 months and 24 days.

[The deceased was well known to this community, as a good citizen, and an honest man. For many years, he has been a resident of Columbia County, and no one can say aught against him. Peace to his ashes!]

## Special Notice.

☞ READ! READ!! YE AFFLICTED, READ!! H. T. Helmbold offers to the afflicted his Genuine Preparation, Fluid Extract Buchu, which has accomplished the most extraordinary cures of all other similar remedies. Read the advertisement in another column, headed "Helmbold's Genuine Preparation."

☞ *The Five Per Cent. Saving Fund* of the National safety Company, Exchange street, southwest corner of Third street, Philadelphia, now has nearly One Million and a Half of Dollar all in Real Estate, Mortgage, Ground Rents, and other first class securities, to the benefit of depositors.

☞ THOMAS W. MATTSON, Receives the Prize Medal at the World's Fair in London, 1851, for TRUNKS, CARPET BAGS, Boots, shoes and Gaps.—Great inducements are now offered to purchasers of the above articles. This is much the largest stock of trunks, Carpet Bags, Valises &c., in Philadelphia very cheap, or cash. Manufactories: 130 Market Street, S. W. corner, and 128 Market street, S. E. corner of Fourth.

☞ HURLEY'S SARSAPARILLA.—For all diseases of the blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the liver and kidneys, strengthens the digestion, gives tone to the stomach, makes the skin clear and healthy, and restores the constitution, enfeebled by disease, or broken down by the excesses of youth, to its pristine vigor and strength. Every prudent person should use a few bottles, particularly during the spring and summer months.

*Wilmington Star.*

☞ A COOL REFLECTION.—"For every mile that we leave the surface of our earth, the temperature falls five degrees. At forty five miles' distance from the globe we get beyond the atmosphere, and enter strictly speaking, into the regions of space, where temperature is 225 degrees below zero, and here cold reigns in all parts." The gentleman who went beyond the atmosphere,' and held the thermometer in the 'regions of space,' has since his return declared that the next coolest thing is a suit of those light, elegant and graceful summer clothes, which have rendered the fashionable Emporium of Granville Stokes, No. 607 late 209 Chestnut street, famous on this terrtiorial lord.

☞ WHITE TEETH, PERFUMED BREATH AND BEAUTIFUL COMPLEXION—can be acquired by using the "*Balm of a Thousand Flowers.*" What lady or gentleman would remain under the curse of a disagreeable breath, when by using the "Balm of a Thousand Flowers" as a dentrifice, would not only render it sweet, but leave the teeth white as alabaster! Many persons do not know their breath is bad, and the subject is so delicate that their friends will never mention it. Beware of counterfeits. Be sure each bottle is signed

FETRIDGE & CO., N. Y.

☞ A MASTER-PIECE OUTDONE.—We have unitedly supposed Ayer's Cherry Pectoral was the Ultima Thule in its line, and that nothing had been or would be invented which could surpass it in its fine points of excellence as a medicine! But we are confidently assured by those competent to judge on the subject, that Dr. Ayer's new Pills excel in high medical artistry even that widely celebrated embodiment of his skill.—He has succeeded in making them not only pleasant to take but powerful to cure the large class of complaints which require a purgative remedy.—*Lancaster Argus, Ky.*

I deem it but justice to say thus much for the benefit of those who may be similarly afflicted

☞ A CARD TO THE LADIES.—Dr. Dodson's Golden French Pills *are infallible in removing stoppages or irregularities of the menses.*

These Pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousand ladies who have used them, to make the Pills public, for the alleviation of those suffering from any irregularities whatever, as well as a preventive to those ladies whose health will not permit an increase of family.

Pregnant females, or those supposing themselves so are cautioned against using these Pills, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any injury to health; otherwise, these Pills are recommended.

Directions accompany each box. Price $1. Sold wholesale and retail, by

GEORGE M. HAGENBUCH,

General Agent, Bloomsburg, Pa.

He will supply the trade at the proprietor's prices, and send the Pills to ladies (*confidentially*) by mail on receipt of $1 through the Bloomsburg Post Office.

ONE PRICE ONLY!

LIPPINCOTT & HUNTER'S Clothing Warehouse, South West corner of Fourth and Market streets, Philadelphia. *The only One Price Clothing Store in America*

Cash purchasers of Men's or boy's Clothing, at wholesale and retail, can here, make their selection from an immense stock of fashionably cut and well made clothing, got up with a view to give satisfaction to all, and at the very lowest possible selling price & marked in plain figures on every garment, all buy at the same price, and whether they are judges of goods or not, they cannot be deceived. One uniform low price to ask and take, suits everybody, with the usual mode of asking two prices, and taking all that can be got, suits nobody, and cheats three-fourths; for instance a man asks $15, for a coat, and afterwards agrees to take $10, and it is equally certain, that he would have taken $15, if he could have got it, and thus actually cheated his purchaser out of five dollars. To remedy this evil and establish confidence in the trade, LIPPINCOT & CO., 6 a uniform below prices on all their goods, (very much below the usual rates,) and will never vary one cent under any circumstances.

HOVER'S LIQUID HAIR DYE.

THIS HAIR DYE needs only a trial to satisfy all of its perfection as a Dye, and the following testimonial from that eminent Analytic Chemist Professor Booth, of the U. S. Mint, will fully confirm what thousands have previously borne testimony to.

"*Laboratory for Practical Chemistry,*
St. Stephen's Place, Philada."

Being well acquainted with the substances composing Hover's Liquid Hair Dye, I am satisfied that by following the simple directions given for its use, it will not injure the Hair or Skin, but will give a natural and durable color to the hair.

HOVER'S WRITING INKS,

INCLUDING HOVER'S FLUID and HOVER'S INDELIBLE INK, are too well known and introduced to require any additional testimony of their character. The sales have been increasing since their first introduction, giving evidence that the articles truly possess that intrinsic merit claimed as first for them by the manufacturer.

Orders addressed to the Manufactory, No. 116 Race street, above Fourth, (old No. 141,) Philadelphia, will receive prompt attention.

WHOLE TICKETS $10; HALVES $5; QUARTERS $2½.

*Plan of the Lottery.*

The Numbers from 1 to 50,000, corresponding with those Numbers on the Tickets printed on separate slips of paper, are encircled with small tin tubes and placed in one wheel.

The first 462 Prizes, similarly printed and encircled, are placed in another wheel.

The wheels are then revolved, and a number is drawn from the wheel of Numbers and at the same time a Prize is drawn from the other wheel. The Number and Prize drawn out are opened and exhibited to the audience, and registered by the Commissioners; the Prize being placed against the Number drawn. This operation is repeated until all the Prizes are drawn out.

*Approximation Prizes.*—The two preceding and the two succeeding Numbers to those drawing the first 7 Prizes will be entitled to the 50 Approximation Prizes. For example: If Ticket No. 11,250 draws the $60,000 Prize, those Tickets numbered 11,248, 11,249, 11,251, 11,252, will each be entitled to $400. If Ticket No. 550 draws the $25,000 Prize, those Tickets numbered 548, 549, 551, 552 will each be entitled to $300, and so on according to the above scheme.

The 5000 Prizes of $20 will be determined by the last figure of the Number that draws the $60,000 Prize. For example, if the Number drawing the $60,000 Prize ends with No. 1, then all the Tickets, where the Number ends, in 1, will be entitled to $20. If the Number ends with No 2 then all the Tickets where the Number ends in 2 will be entitled to $20, and so on to 0.
