## BONES FOR GRAPE VINES.

EDS. GENESEE FARMER:—It is quite customary to bury whole bones in grape borders, and the effect, I believe, is generally beneficial. I have seen the fibrous roots cling to the bones, and penetrate into the pores as though there was something in the bones they were very fond of. Now, I suppose that it is the phosphate of lime of the bones that constitutes their chief value. Would it not seem probable, therefore, that superphosphate of lime (which contains *soluble* phosphate of lime) would be a very powerful manure for grape vines? I should be glad of your opinion on this subject.—*Philadelphia, Pa.* R. H.

The effect which our esteemed correspondent describes, we have witnessed ourselves. The chief value of *burnt* bones is undoubtedly owing to the phosphate of lime which they contain; but is fresh bones the gelatine is of at least equal value to the phosphates. Gelatine is very similar in composition to the flesh of animals; and it is well known that dead animals buried under grape vines produce, oftentimes, a very beneficial effect. One of the most productive vineyards in this State had a large number of the carcases of animals (killed in the vicinity by an accident on the railroad) buried beneath the vines before they were planted. Now, this animal matter, decaying in the soil, would furnish *ammonia* to the plants rather than phosphate of lime. And it is more than probable that the effect of whole bones placed beneath grape vines is to be ascribed to the ammonia formed by the decay of the gelatine of the bones rather than to their phosphates.

The bones of a bear and of a stag, which had been long buried in the soil, were analyzed by MARCHAUD, and they were found to have lost very little phosphate of lime, while the animal matter, or gelatine, had greatly diminished, especially in one of the bones, which had been buried more shallow than the rest.

It follows from this, that the phosphate of these whole bones, which remain undecomposed and insoluble in the soil, can have very effect on the plants. The fact, therefore, that whole bones buried beneath grape vines increase their growth and productiveness, is no proof that the soluble phosphate of lime in superphosphate would prove beneficial. We do not say that it will not, in fact we think it is quite likely that superphosphate may be an excellent manure for grapes; but the facts mentioned by our correspondent do not prove it.

"But doesn't the fact," we hear our correspondent ask, "that the effect of bones lasts for a great many years, prove that it is due to the phosphate of lime, and not to the gelatine? The latter decomposes more readily than the former, and would soon be consumed, while the phosphate would last for a long period. If the bones are beneficial after all the gelatine is decomposed and absorbed by the plants, it must be owing to the phosphate of lime still left in the bones." This would be true, if the gelatine was all consumed, but in the case of whole bones it would take many years to produce such a result. While the bones analyzed by MARCHAUD, which had laid in the ground for an unknown period, had lost a large proportion of their gelatine, they still contained a considerable quantity—that of the bear, which was buried deep, 16 per cent.; that buried shallow, 4 per cent., and that of the stag 7 per cent. It is stated that the soil of a district in Sweden, "which, from time immemorial, had grown excellent wheat, without manure," was analyzed by BERZELIUS, and found to contain minute fragments of bone, capable, upon boiling with water, of yielding a weak solution of gelatine. It was concluded, therefore, that the spot had been an ancient battle-field, and that its prolonged fertility was due to the bones of the old soldiers and their war-horses buried in it, and still, to some extent, undecomposed.—*Eds. Gen Far.*

## A DWARF BROOM CORN.

This is to us a novelty, and it has every appearance of being valuable. During the Winter Mr. E. B. Good, of York Co., Pa., sent us an account of it, and we desired him to forward some specimens of the entire stalk, including roots and brush, which he did, stating, that the samples were of about the average size, but not so fine as he could have furnished, had we applied earlier. We were so well pleased with them, that we suggested his advertising the seed, if enough could be got to make it worth while, and he has done so. (We have recently procured a moderate quantity of the seed, which will be offered as premiums only. See one of the closing pages of this paper.

The specimens before us have about two feet of stalk and two feet of brush, the latter being of very excellent quality. As this is not half the hight of the common variety, it may be grown much thicker on the ground. The upper leafsheath embraces the lower part of the brush, which, with its low growth, saves all necessity of breaking down the brush while ripening. As far as we can gather from the statements received, and from the specimens, we think it likely this may be decidedly superior to the kind generally cultivated. It is certainly worthy a trial, and for this purpose only we offer it for limited distribution. We shall test it the coming Summer, and we request reports from those who may receive the seed. Mr. G. states that it should be grown thickly in the rows,

The following works are sent to Subscribers in any part of the country, (upon receipt of retail price,) by mail or express prepaid:

THE NEW AMERICAN CYCLOPÆDIA: A popular Dictionary of General Knowledge. Edited by GEORGE RIPLEY and CHARLES A. DANA, aided by a numerous select corps of writers in all branches of Sciences, Art, and Literature. This work is being published in about 15 large octavo volumes, each containing 750 two column pages. Vols. one to nine, inclusive, are now ready, each containing near 2,500, original articles. An additional volume will be published once in about three months.

Price, in Cloth, $3; Sheep, $3 50; Half Mor., $4; Half Russia, $4 50 each.

The New American Cyclopædia is popular without being superficial, learned but not pedantic, comprehensive but sufficiently detailed, free from personal pique and party prejudice, full and yet accurate. It is a complete statement of all that is known upon every important topic with the scope of human intelligence.—Every important article in it has been specially written for its pages by men who are authorities upon the topics on which they speak. They are required to bring the subject up to the present moment, to state just how it stands now. All the statistical information is from the *latest* reports; the geographical accounts keep pace with the latest explorations; historical matters include the freshest just views; the biographical notices not only speak of the dead, but also of the living. It is a library of itself.

ABRIDGMENT OF THE DEBATE OF CONGRESS: Being a Political History of the United States, from the organization of the first Federal Congress in 1789 to 1856. Edited and compiled by Hon. THOMAS H. BENTON from the Official Records of Congress.

The work will be completed in 15 royal octavo volumes of 750 pages each 11 of which are now ready. An additional volume will be published once in three months.

**BALTIMORE LOCK HOSPITAL.**

**DR. JOHNSTON,**

THE founder of this Celebrated Institution, offers the most certain, speedy, and only effectual remedy in the world for effects for Ulcers, Strictures, Seminal weakness, Pains in the Loins, Constitutional Debility, Impotency, Weakness of the Back and Limbs, Affections of the Kidneys, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Disease of the Head, Throat, Nose or Skin, and all those serious and melancholy Disorders arising from the destructive habits of Youth, which destroys both body and mind. These secret and solitary practices, are more fatal to their victims than the sing of the Syrens to the mariners Ulysses, blighting their most brilliant hopes and anticipations, rendering marriage &c., impossible.

MARRIAGE.

Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., should immediately consult Dr. Johnston, and be restored to perfect health.

He who places himself under the care of Dr. Johnston, may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS

immediately cured and full vigor restored.

This disease is the penalty most frequently paid by those who have become the victim of improper indulgencies. Young persons are too apt to commit excess from not being aware of the dreadful consequence that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is not sooner by those falling into habits than by the prudent. Besides being deprived of the pleasure of healthy offsprings, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged; the physical and mental powers weakened, nervous debility, dyspepsia, palpitation of the heart, indigestion, a wasting of the frame, Cough, Symptoms of Consumption, &c.

*DR. JOHNSTON,*

Member of the Royal College of Surgeons, at London.—Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the first Hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at the sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill timed sense of shame or dread of discovery, deters him from applying to those who from education and respectability can alone befriend him, delaying till the constitutionary symptoms of this horrid disease makes their appearance, such as ulcerated sore throat, diseased nose, pustules, pains in the head and limbs, dimness of sight, deafness, nodes on the skin bones, and arms, blotches on the head, face and extremities, progressing with rapidity, till at last the palate of the mouth and bones of the nose fall in, and the victim of this destructive disease, a horrid object of commiseration till death puts a period to his dreadful sufferings, by sending him to "that bourne from whence no traveller returns." To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable secrecy, and from his extensive practice in the first Hospitals of Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgence.

Those are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pain in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, symptoms of Consumption, &c.

MENTALLY.—The fearful effects upon the mind are much to be dreaded. Loss of Memory, Confusion of Ideas Depression of the Spirits, Evil Forebodings, Aversion of Society, Timity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their failure in life, why they have no vigor, become weak, pale and emaciated, having singular appearance about the eyes, cough and symptoms of Consumption.

DR. JOHNSTON'S INVIGORATING REMEDY FOR

ORGANIC WEAKNESS.

By this great and wonderful remedy weakness of the organs are speedily cured, and full vigor restored.—Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved. All impediments to Marriage, Physical and Mental Disqualification, Nervous Irritability, Tremblings and Weakness or exhaustation of the most fearful kind, speedily cured by Doctor Johnston.

YOUNG MEN.

Who have injured themselves by a certain practice, indulged to when alone—a habit frequently learned from evil companions, or at school—the effects of which are nightly felt, even when the system is in full vigor and cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that young man, the hope of his country, and the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons before contemplating

MARRIAGE

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view; the mind becomes shadowed with despair & filled with the melancholy reflection that the happiness of another becomes blighted with our own.

YANKEE NOTIONS,

ever brought to this place, all of which please call and see and you must believe.

Having learned by sad experience that "long credits will not keep things moving," I have determined to

REDUCE PRICES,

to cash buyers, to make it an object to them as well as the seller, to deal on the cash principle, either money or ready trade.

Having served a regular apprenticeship at the drug and Apothecary business and also having carried it on for the last eighteen years, on my own hook, I flatter myself that I am able to do justice to all giving me a trial. Thankful to the public for past favors. I would ask a trial on the new principle, and will guarantee to all, that it will make long friends, and pay best in the end to pay cash and buy at reduced prices.

PHYSICIANS PRESCRIPTIONS

carefully compounded, and all orders correctly answered. All the medicines guaranteed as recommended. Store Room on Main Street, near Market, next door to the Post Office, Bloomsburg, Columbia county, Pa.

**HOSTETTER'S**

**STOMACH BITTERS.**

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any Bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

*For Persons in Advanced Years,* who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
