COLUMBIA DEMOCRAT.

Local and Special,

John G. Freeze, Editor.

SATURDAY MORNING, APRIL 13, 1861.

☞ To-morrow is the Second Sunday after Easter.

April 15 1621 the May Flower returned to England.

Buffon the naturalist died April 16, 1788.

Benjamin Franklin died April 17, 1790.

April 18, 1785 occurred the great fire in Windsor forest.

Battle of Lexington was fought 19 April 1775.

The first colonial charter of Virginia was granted 20 April 1606.

☞ John Eubank died in Charlottesville, Va., on the 11th inst., aged 67 years. He was formerly a soldier in the British army, and when Napoleon was sent as a captive to St. Helena, was one of the troops detailed by the English Government to guard the Emperor in his lonely prison.—He remained there during Napoleon's life and for several years afterward, and then sailed for England. He was for many years a resident of Fredericksburg, Va.

☞ As this is the time of year in which grafting ought to be done, we desire to place before our readers a new mode of grafting, very much in use in France. It has some advantages over our method, inasmuch as it can be performed at any season of the year when the sound, matured buds can be had, whether the sap is in a flowing state or not. It is performed by removing a small piece of bark and wood, leaving a smooth and flat surface, to which a similar piece, containing the bud which is to form the future tree, is fitted, which is sealed over immediately with collodion. This forms a strong, impervious cuticle, which secures a free circulation of the sap or the approach of warm weather, and a perfect union of the parts.

:o:

☞ "It seems to require no pains to prove that the States ought not to prefer a national Constitution, which could only be kept in motion by the instrumentality of a large army, continually on foot to execute the ordinary requisitions or decrees of the Government And yet, this is the plain alternative involved by those who wish to deny it the power of extending its operations to individuals. Such a scheme, if practicable at all, would instantly degenerate into a military despotism; but it will be found in every light impracticable.—The resources of the Union would not be equal to the maintenance of an Army considerable enough to confine the larger States within the limits of their duty; nor would the means ever be furnished of forming such an army in the first instance. Whoever considers the populousness and strength of several of these States singly, at the present juncture, and looks forward to what they will become, even at the distance of half a century, *will at once dismiss, as vile and visionary, any scheme which aims at regulating their movements by laws to operate upon them in their collective capacities, and to be executed by a coercion applicable to them in the same capacities.* A project of this kind is little less romantic than the monster taming spirit attributed to the fabulous heroes and demi-gods of antiquity."
Alexander Hamilton—"Federalist," No. 16.

:o:

☞ We are glad to see that the law against fortune tellers victimizing the people has passed the Legislature. We understand there is one of the very worst of the class now operating on the unsuspecting in the upper end of this county. She professes to show the theif who stole your horse, the incendiary who fired your barn, she can look into you and describe the exact state of your liver; and knowing exactly what is wrong about your system, can of course prescribe with the utmost success. The Drs. are at a discount in her neighborhood and men, women and children take her prescriptions and believe in her clairvoyance. But this is not the worst of this species of juggling. How it may be in this case we know not, but generally these mountebanks claim that they can look into the mysterious future and discover coming events, and their victims are generally the weak and superstitious—pretty servant girls, who imagine that their charms are for a higher sphere than the kitchen. When such poor, deluded girls visit one of these professors of second sights, he can easily discern the condition of the simpletons, and at once hold out the lure of higher social rank and unbounded connubial love and felicity. These professors are almost always in league with the *rowes* of the town, who employ them to procure for them introductions, which almost always result in ruin to the unfortunate girls.

One method of exciting the curiosity of the misguided females is to place a daguerreotype of the future husband in a vessel of water, from which the veil is drawn for an instant, revealing to the victim's eyes her lover. She is so bewildered with the mystery that she does not detect the cheat, and finally believes in the illusion. She is delighted, and accepts the procuress' statement that if she will walk in a particular place, at some defined hour, she will meet with her lover. The *rowe* is informed that this poor dupe will be ready, and he meets her. The sequel will be to ruin her, almost to a certainty. This is only one of the tricks of these detestable swindlers, but the most frequently practiced upon silly girls.

IMPROVE YOUR STOCK.

THE Morgan Sampson Horse, YOUNG WASHINGTON, will be stationed the present season in this section. He can be seen at Remley's stable, Jerseytown; at Sheep's stable, Washingtonville; at Wagonseller's, Lewisburg, and at Wolf's stable, Dewart's station, Northumberland county, during the season.

Young Washington was bred in Wayne county, N.Y. by Peter Snyder, Esq., is seven years old, stands full 17 hands high, and weighs 1,000 pounds. He is considered the largest horse, the best blood, and finest breed ever introduced into the county of Columbia

For particulars see large bills.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proved by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND EXHAUSTION, EARTHWORMS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from an excruciating of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it when you feel it foul, and your feelings will tell you when. Even moderate particular disorder is felt, purify it for better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this corruption of life disordered, there can be no lasting health. Sooner or later something must give way, and the great machinery of life is destroyed or overthrown.

Sarsaparilla has and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.
LOWELL, MASS.
Price, $1 per Bottle; Six Bottles for $5.

Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Inflammation, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Tetter and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box; Five boxes for $1.00.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best and there is for them, and they should have it.

A Dialogue.

BETWEEN FARMER E. AND F.

Farmer E.—Good morning, friend F. The weather is so fine now I think of commencing to plough soon, and I thought I had better come and consult with you. I have a few questions to ask, if you will be so kind as to answer them.

Farmer F.—Oh! yes; friend, if I can be of any service to you I will answer all your questions.

Farmer E.—Well then how does it come your horses were kept in so much better order than mine last summer. You fed them no more than I did mine; you ploughed more ground, raised more corn per acre, and I know your land is no better than mine. There is a mystery somewhere.

Farmer F.—Why friend E., that is very easily accounted for. I used WILLIAM SCHUYLER'S IMPROVED PREMIUM PLOUGH, for breaking up my ground, and ploughed my corn with his Corn Plough. This is the secret, and now I expect a larger crop of grain than you will have, for I used his *Seeding Plough* last fall for seeding in my grain. You had better go and get one of each.

Farmer E.—I never dreamt of that being the reason, but I believe there is policy in what you say and am disposed to act after your advice; but I can hardly afford the Seeding Plough.

Farmer F.—Not afford the Seeding Plough! Why, it only costs ten dollars and does as much work as the Drill, then does it far better. You are saving twice their cost every summer by getting one of each.

Farmer E.—I will go home and order them made, for I am sure there is no use to go there for them they say he is selling from twenty to twenty-five per week, so it will be impossible for him to make them fast enough.

Farmer F.—Never fear, friend E., but go at once for them. He had his timber prepared last fall and winter, and it is now seasoned and ready for use, and I will warrant you he will get them ready as fast as they are wanted; and if you see any of your neighbors, advise them to go along and get of Schuyler's Ploughs, too, if they are not already supplied.

Farmer E.—Well, I believe I will go home and get ready to go to Orangeville, this very day; delay 'tis said is dangerous; but will Mr. Schuyler take grain for his ploughs.

Farmer F.—Oh! yes; he will take grain of any kind, old castings or any kind of produce and then he allows a very liberal percentage for cash. I suppose you are aware that Schuyler took the Premium at the County Fair last fall, against an almost overpowering opposition and had it not been that the Judges were good practical farmers he would undoubtedly have lost the premium.

Farmer E.—Yes, I know, and he was awarded a Diploma for his Seeding Plough too, but does he make anything else.

Farmer F.—Certainly—If you want a good Stove, a good Threshing Machine, or if you want mill gearing, you can get it there at very low prices. He also does repairing at very short notice. In short, he DEFIES COMPETITION, for he does good work and at lower prices than is done elsewhere.
