Scrofula, or King's Evil,

SCroiula, or king's kvil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, diserdered or unhealthy food, impatre air, fifth and filthy habits, the depressing vices, and, above ell, by the venereal infection. Whatser be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the red of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is terrned tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scroulous constitutions not only suffer from scrofulous constitutions, but they have far less power to withestand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To clearse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scredula, but also those other affections which arise from it, such as Enurrive and Skin Diseases, St. Anthony's Fires, Ross, or Envirelas, St. Anthony's Fires, Blotches, Blains and Boils, Tumons, Tetter and Sale Ribers, Scald Head, Riscowons, Resembles, Developed Head, Riscowons, Resembles, Developed Head, Riscowons, Chemistry, Dyspersia, Debility, and, indeed, all Complaints anising from Viriated on Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to pusify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions. Compound Extract of Sarsaparilla,

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIO,

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costireness, Hearthurn, Headache avising from disordered Stomach, Naussea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appatite, Janualice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are medicat to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

MOFFATS LIFE MEDICINES.

Mediat's Life Medicines are peculiarly adapted to the cure of this distensing completed. They act upon the bowels in a very mild, and, at the same time, very effectual minner, and have never pet failed to cure this disease when used according to our directions.

General Debility.—The most common of all compliants is that of a general weakness of the whole aystem, unaccompanies by any particular descriptor, or definant symptoms of disease. There is a little vital energy, a loss of apprint, unwillingness, and indeed inability to susterile equitions, frequent hondarloss, indigestion, oftenings sallowness and dryness of the skin, tendency to fever shows, unfiness for accessly, in short all those symptoms of language, disquested, and weakness that rive evidence of a failure in the vital powers, and a low, unleastly and morbid condition of the system.
