Agriculture.

KEEPING APPLES. NEW METHOD.

Mr. M. R. Thompson, of Mifflin co., Pa., in a letter to the American Agricul. play other people's follies than your own. turist, describes his method of keeping choice apples which appears to be worth noticing. He packs them in barrels or ery one talks of it, but few have ever large boxes, surrounding each apple with seen it. common dry ground gypsum (plaster of Paris.) This is readily done thus : Put into the bottom of the barrel, or box, an inch of plaster and then a layer of apples, keeping them from contact with each other and an inch from the side all round. Sift in more plaster to fill up the spaces and cover the whole nearly an inch. Then add another layer of apples and more plaster, night ?' and so on to the top. The plaster em-ployd is, we suppose, the common ground plaster for fertilizing-not the calcined used for making casts, models, etc. The plication to the field after being used du- commanders. The people where piling ring Winter for packing apples. The plan, the balls that the enemy had wasted, when is worthy of trial at least, for it would ap- the foe applied to them : pear reasonable that the fruit thus surrounded with a compact mass of dry powder, should keep almost as well as if hermetically sealed. Mr. T. says he keeps and we'll return your balls." pound pippins thus packed, in good order until the following June. We judge from a remark in his letter, that he does not named Gould, in the Utica Lunatic Asystore them in a cellar, but in any cool lum, talks very sensibly sometimes. One room of the dwelling or out-house. We day an Englishman visited the Asylum are not sure whether the dry plaster would be a sufficient non-conductor to keep frost "Pray, what are you detained here out, if exposed to savere cold-especially for ?" asked the Englishman. from the fruit near the outside of barrels.

A CHEAP CISTERN.

merican Agriculturist says ; " Two years they brought me here ; the majority must ago in November, I dug a hole for a cis- rule, you know !" tern, 9 feet deep-9 feet across at top, and 7 feet across two feet below the surface-this left a shoulder or breech into which I placed two timbers for beams, and on these, plank for a covering immediately over the cistern. A mason plastered it with Rosendale hydraulic cement, directly on the earth. It has never been dry since four weeks after it was finished, and according to my figures holds nearly 63 barrels. It is perfectly tight now except the the spout and man-hole. It has never leaked out nor in. No surface water can drain in and had I known how cheap, and with how little trouble it could be made, I should have had one long before.

The cost was as follows : 1 bbl. Rosendale cement, \$4.00 1 day plastering and board, 12 day in digging and board, 1.75 1 50 103 feet lumber, My time, nails, etc., 1.03 1.50

\$9.78 Total cost of Cistern, The sand was mixed with the comentonly as fast as used-2 parts of sand to 1 of cement. There are 60 feet of my gut- but the Bard of Avon, as if unwilling to May 18, 1800-12m. ter to my house."

An Accidental Shot.

Hon. Benjamin Franklin Wade and Hon. Joshua Reed Giddings, used to be constant competitors at the bar in old benighted Ashtabula, their present place of residence. In the early part of his practice, Wade was defending a man against an action for slander, and after having concluded a very effective speech to the 200 & 500 yds. White, Black, & Colored. jury, sat awkwardly leaning backward his feet on the counsel table, and facing Giddings, who was attempting to be elequent in behalf of his slandered client. Old Gid, as he was familiarly called, had a little smattering of Shakespeare, and now

determined to bring that great author to his aid. "Gentlemen of the jury," said he with much ardor :

"He that steals my purse steals trash : But he that robs me of my good name--Ahem !" At this point, to his great discomfiture, Shakespeare deserted him --

He repeated : "But he that rebs me of my good name -"

aid either him or his client, proved treacherous. Again he repeated.

"But he that rols me of my good name-" According to the Massachusetts Plough- Another pause. "Takes that I never had," man potato vines should be thrown into whispered Wade, as if prompting him, and heaps and burned for the most plausible so distinctly as to be heard by all in the theory in regard to the potato rot is, that room. Amidst the laughter and his own it is caused by a very minute insect, not confusion, Giddings brought his speech to visible to the naked oye. By burning the such a lame and impotent conclusion that vines, therefore, we may eatch millions of his client recovered six and a quarter cents

them and send them where they came from, for his lost character. for the vines are but very little value as

their stems buried in the soil. A very reasonable suppositoin in regard to the rot is, that it is caused by a poisonous lit-tle insect, too minute to be readily dis-eerned; yet numerous enough to cause destruction to that root which is almost the sole food of millions of of our race. If, as we conjecture, a small poisonous insect is the cause, we can out flank and subdue him by fire and water. Let the vines have the fire, and let the tubers, at the time of planting, be dipped into potash water, kill the little nits that adhere to them.

AYER'S

Compound Extract of Sarsaparilla.

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal maindy. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of this system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec-tions which arise from it, such as Exception and Saix Dissass, Sr. ANTHONY'S FIRS, Rosz, or EXPANDED BOARD, PUNCES, PUNCES, BLOICHES, BLAINS and BOAR, TOMORS, TETRE and SAIT RUBENS, SCALD HAAD, RUSSWORK,

BLOTCHES, BLAINS and BOILS, TUXORS, TETTER and SALT RINEWS, SCALD HEAD, RINGWORM, REFUSATION, SYMILITIC and MERCURIAL DE-EASES, DROPST, DISPERSIA, DEMILIT, and, indeed, ALL CONFLAINTS AREING FROM VITA-ten OR INFURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsape. Thila is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

are so composed that disease within the range of their action can rarely withstand or evade them

are so composed that disease within the range of their section can rurely within and or evade them Their penetrating projecties search, and cleanse, and invigorate every portion of the human organ-ism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with health or energy restored by a comedy at once so simple and inviting. Not only do ting cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almane, containing certificates of their cures and directions for their use in the following complaints. Costies-ness, Hearburn, Headache arising from discotine Stomach, Nausea, Indigustion, Pain in and Morbid Inaction of the Boccels, Fintulency, Loss of Apps-tile, Jaundise, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
