EDITOR COL. DEMOCRAT.

COAL ASHES.

This article is often thrown away, where

Trees with coal askes around them are found to bear much better than those which have none. It also may be applied to other kinds of fruit trees with good effect. Coal askes is very good when put on low heavy land; it keeps the loose and light, and such fields are found a large, yet rather cross-grained carcass, to yield a larger crop of grass than those with a good proportion of lean, heavy which are always heavy, and the ground fleece of wool, and more hardy than the very much packed.

GOOD SMOKEHOUSES.

half built of brick, furnished with an iron lined door, and serving as an ash house been devoted, with the additional advanand prison for the fire. The upper part, about four feet high besides the ascent of the roof, was made of wood. It was sepa- cross has been styled the "Improved rated from the lower part by scantling Cotswold," and is bred chiefly in the joists, a space of two or three inches be- counties of Oxford and Gloucester, from tween them through which air and smoke the hills of which latter county they decould freely pass, but sufficient to catch rive their name. Acclimated on this eleany ham that might accidentaly fall, and vated part of the kingdom, and feeding thus save it from the fire. The upper on pastures far inferior to the rich herpart, as well as the lower, was entered by a door from the out side; this upper door habit of grazing, it is to be expected that may be kept locked, except when admit. they would be characterized by a dispositing or withdrawing hams; but the lower tion to improve when removed to finer may be left unlocked for the hired man to soils and fuller keep. I have known them build fires, without any danger of the con. wintered on the arable shores of Hamptents being stolen, as the thief cannot pass shire in the open air, with hay and turnips through the opening between the joists.

pork, remove the lean meat to be used for condition. sausages; it is hard and almost worthless when salted. Take out the bone, leaving only the clear side pork. Cut this in strips about six inches wide. Cover the bottom of the barrel with a layer of good to make west of multile, called the salt, one and a half inches thick, lay in the pork edgewise, crowding it as compactly as possible, and cover with a layer of salt , like the first, and so on until the whole is packed. Enough space should be left at ty conducted and his Stanting is ample and well stocked the top of the barrel to allow from four to and exatumes to mappy wait upon his friends and exatumes. six inches of brine above the ment .- Serine, March 22, 1861. When all is packed, lay a heavy weight upon it and pour over it a brine made of soft water, and sait as strong as possible, that is giving it all the sait the water will

TO PREVENT COWS FROM CON-TRACTING BAD HABITS WHILE MILKING.

Cows should always be treated with great gentleness, and soothed by mild usage, especially when young and ticklish, sage, especially when young and ticklish, or when the paps are tender, in which case the udder ought to be fomented with warm same, in order that they may be same. the udder ought to be fomented with warm water, before milking, and touched with the greatest gentleness, otherwise the cow will be in danger of contracting bad habits, becoming stubborn and unruly, and retaining her milk ever after. A cow TELEGRAPHIC DISPATCHES never lets down her milk pleasantly to the person she dreads or dislikes. The udder and paps whould always be washed with clean water before milking; but care should be taken that none of that water be admitted into the milking pail.

CARE OF HENS IN WINTER. The following plain rules for the winter tur care of poultry, should receive attention

from all our readers:

where they can have access to the sun, whenever it shines. Feed them regularly with a variety of food, such as corn, which may always be before them; barley, wheat, boiled potatoes, mashed and mixed with cob meal-that is, corn and cob ground together; and give them access to plenty of gravel, old plaster or broken oyster shells. The barley and wheat may be fed to them occasionally, if convenient. Add to these plenty of clear water, and pork or beef scraps, or bits of fresh meat, two or three times each week, and you will not fail to find your fowls profitable.

A PROFITABLE WAY OF FATTEN. ING PIGS.

in company; but if there are too many, they are apt to quarrel; feed them moderately the first week; and thrice during the second week, mix with their are during the second week, mix with the second week. the second week, mix with their barley es, and lewely, and all work warmted, wh. Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Samsparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Substitute And Schopulous Complaints, Bactrions and Empiric Diseases, Ulcans, Publish, Blochems, Tumons, Salt Rurew, Scald Head, Syphilis and Syphilitic Applications of the following complaints:

PEPSIA AND INDICESTION, ENVERPELAS, ROSE ON St. ANTHONY'S Fire, and indeed the whole class of complaints arising from IMPURITY OF

class of complaints arising from Intrustry or 1810 or vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sansaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing elso.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the wick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Honce, hitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself it justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the bead of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradiention from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY

DR. J. C. AYER & CO. LOWELL, MASS.
Price, \$1 per Bottle; Six Bottles for \$5. Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-ployed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do-

Aver's Cathartic Pills,

Ayer's Cathartic Pills,
