

It is objected that grain of any kind is too stimulating for young animals, and that they will grow up more hardy if kept on scanty feed. We regard this as an error-The usual food of an animal, including grain, is not "stimulating" in the same cense as the spices an I drugs used by man ; were that the case, there would be no question as to the impropriety of allowing grain | Weekly "Patriot & Union." to young horses or other animals. 'Grain contains more nutriment than the same bulk of straw or hay. If fed in large quantity to one not worked sufficiently to keep THE ONLY DEMOCRATIC PAPER PURDICHED AT THE SEAT OF GOVERNMENT! the digestive powers very active, the stomach and other organs will be impaired, and the health of the animal, will be injured But given judiciously grain promotes the growth and strength of horses either young or old. The proper way to barden an or old. The proper way to harden an animal, is, not to cramp the growth of its organs, but to develop them to the fullest organs, but to develop them to the fullest extent, and nutritious food is indispensible to this end. It is the practice of some of the best horsemen to allow a small quantity of oats or corn to colts, as soon as they will eat them, say from a quart to two quarts per day during the first Winter, and a more liberal allowance the following year, increasing the quantity gradually .-Oats are preferable, as sorn from its oily nature predisposes to infiammatory diseas.

Herbet says this treatment will amply

A state in which a club cannot be raised if the proper exertion be made, and surely there are few p aces in which one or more energetic men cannot be found who are in favor of the dissemination of sound Bemocratic dectrines, who would be willing to make the effort to raise a club. muscle which the animal will form, and in the increased size, beauty, and stamina, the increased size, beauty, and stamina, the increased size, beauty, and stamina, the increased with unusual interest, and every man should have the news. which will be his characteristics when he is growing toward maturity. He gives his will be, at two years old, the equal of any three year old, allowed to take his chance

his customary with many farmers to feed cows, immediately after calving, with warm raiops—a pail of bran or meal and warm the distance of the same and the public generally, that he has established a new Store, on Main Street, Economistry, in Market, vell salted; and a better diet is Mrs. Learock's Building, where he offers for sale, on moderate terms, a large assortment of commenced at once, in order to get as much milk as possible. This is objected the besome as contrary to nature, and very likely to induce caked-bag and milk fever; also, that the cow should have rest and quiet. It is an error to suppose that task.

PROSPECTUS OF THE

SEVENTEENTH YEAR.

VOLUME VL-NEW SERIES.

A new volume of this widely circulated paper con A new votume of the Wilsey Carchated paper commences on the 4th of January. Every number contains sixteen pages of useful information, and from five to ten original cogravings of new inventions and discoveries, all of which are prepared expressly for its column. The SCIENTIFIC AMERICAN is devoted to the inwhence to supply them — Boston Courier:

The SCIENTIFIC AMERICAN's devoted to the interests of Popular Science, the Mechanics Arts, Manufactures, Inventions and Agriculture, Commerce and the ladestrian Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory but also in the Househeld, the Library and the Reading Room.

To the Inventor ! The SCIENTIFIC AMERICAN is indispensable to The SCIENTIFIC AMERICAN is indisponable to every inventor, as it not only contains alloctrated descriptions of acarly all the best inventions as they come out but each number contains an Official List of the Clining of all the Patents issued from the United States Patent office auring the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving every week, the best selectific journals of Great Britain, France and Germany; thus placing in our gooses-ion all that is transpiring as mechanical set use and art in these old countries. We shall continue to transfer to our columns copious extract-from these journals of whatever we may deem of interest to our readers.

Those Laboring Under

MOFFAT'S LIFE PILLS

PHENIX BITTERS. These Medicines have now been before the public for a period of 30 years, and during that time have main ained a high character in almost every part of the

LIFE PILLS AND PHOENIX BITTERS.

LIFE PILLS AND PHOENIX BITTERS.

The Life Pills and Phoenix Bitters have always been signally successful in this class of diseases, and will eradicate all the effects of uncreary from the system, gomer than the most powerful preparations of sarsaparilla. They aid nature in casting from the system all poisonous matter, and by thus purifying the vital fluids, they restore the system to health.

Bilionis Complaints — A well regulated and proportionate quantity of bile upon the stomach is always requisite for the prometion of sound health—is stimulates digestion, and keeps the intestinal canal free from all obstructions. On the interior surface of the liver is a poculiar biadder in which the kild is first preserved, being formed by the liver from the blood. Thence it passes into the stomach and intestines, and regulates the digestion. Thus we see when there is a deficiency of hile, the body is constantly costive. On the other hand, an over abundance of bile causes frequent nauses on the stomach, and eften promotes very sweet altacks of diseases, which sometimes and in death.

LIFE MEDICINES. The Life Medicines should, if possible, he taken in the early stages of billious complaints; and if perse-cred in strictly according to directions will positively affect a cure. Their extensive use in this complaint in it parts of our continent, renders comment unnecessa-

vered in strictly according to directions will positively effect a cure. Their extensive use in this complaint in all parts of our continent, renders comment unnecessary—their virtues speak for them. Moffats hife Filis.—The use of these Fills, for a very short time, will affect an entire cure of Salt Rheum, and a striking improvement in the clearness of the skin.—Common Colds and Influenza wid always be cared by one dese, or by two even in the verse tases.

Files! Pars!!—The original proprietor of these Medicines was cured of Files of 35 years standing, by the use of the Life Medicine alone.

Liver Company,—An affection of the Liver may be known by a facing of tension or pain in the right side about the region of the liver, often pangent as in pleurisy, but sometimes dull; a difficulty in drawing a long breath; dry cough and inclination to vomit. This discusse may be produced by cold, by violent exercise, by intense summer licats, by long continued bilious fever or ague, and by various solid concretions in the substance of the liver. And to those producing causes, are derangement of the discustive organs, suppressed secretions, and mental solicitude, which are very frequent causes of obstructions and alone has few ions of the liver.

This discuss should be arrested in the commencement which can be done by a few ions of the life file.

When once the liver is aroused to the performance of its proper functions, little more is regulated than tecontinue a proper use of the meatistics, and a speedy recovery will unsee.

Faver as A Auge — For this scource of the Western-country, these medicines will be found a safe, speedy and certain remedy. Other me, it has been as a few to a series of an execution of the series of an execution of the series of the series.

country, these medicines will be found a soft, specify and certain remedy. Other medicines leave the system subject to a return of the discuss - a cure by these sted icines is permanent.

Schorela. The most hereinly cases of retofula, in which the face, bones and limbs of the victim had been

proved upon be the insattable decase, are proved, by undernable authority of the sufferers to marrives, to have been completely cares by these partly vegetable medicines, after all others has been found more than Indigestion and Dyspepsia.—If we were called upon Inagestion and dyspessa.—It we were called aport to specify one disease which more than any office is the bane, (while it is the offspring of envitzation) we should name Dyspepsia. It is generally attended, or rather productive, of about train of ills, such as Hearthorn. Flandency, a manying pain at the stomach when empty a sense of uncomfortable weight who in full, pains in the throat, side and pit of the stomach, costiveness, chilliness, languor, unwillingness to take exercise. See

MOFEAT'S LIFE MEDICINES. MOFFAT'S LIFE MEDICINES.

Moffat's Life Medicines are poculiarly adapted to the cure of this distressing complaint. They are upon the bowels in a very mild, and, at the same true, very effectual manner, and have never vertialed to cure this disease when used according to our directions.

General Debility.—The most common of all complaints is that of a general weakness of the whole sys-tem, unaccompanied by any particular disorder, or de-finate symptoms of disease. There is a little vital encan discompanion of disease. There is a little vital energy a loss of appetite, unwillingness and indeed inselfit to undergo equations. frequent headaches, indigestion, oftentimes sallowness and cryams of the skin, tendency to feverishness, unfilmess for society, in short all those symptoms of languor, disquicture, and weakness that give evidence of a failure in the vital powers, and a low, unhealthy and morbid condition of the system.

Life Pills and Phoenix Bitters.

The Life Pills and Phoenix Bitters are, perhaps, the best remedy for restoring strength to the body for, they act as a gentle cartantic, and, by their tonic qualities, strengthen the whole system

Moffait's Life Pills.—Persons of a plethoric habit, who are subject to fits, headache, giddlows, dimness of sight, or drawsiness, from too great a flow of blood to techead, should take these Pills frequently.

ADVICE TO FEMALES.—Pensales who value their health should never be without the late discingences as they purify the blood, remove obstructions, and give the skin a beautiful, clear, healthy and blooming appearance.

Mesers Econs & Watson: Gentlemen—It affords us The Life Pills and Phoenix Bitters are, perhaps, the

preserve their health, and keep off the infirmities of ago.

Pects for Mothers and Norses.—It is a fact, established by the annual bliss of mortality, that one half of the children borne are cut off before attaining seven years of age; and the finifal source of this mortality is found to exist in that foul state of the stomach and bowels which produced the generation of worms. As the safe restore of infantile health in this critical state the Life Medicines have long held a distinguished reputation, and for foulness of the stomach and bowels, and convetisions, although worms may not exist, it is allowed to be superior to any other.

Moffat's Fills and Bitters.—No medicines at present known have done so much good to mankind as these, within the last few years; and certainly none have been rewarded with more numerous and authentic testimentals of their invariable and extensive efficiency.

They require no dieting nor confinement, are perfectly mild and pleasant in their operation, but will powerfully restore health—that greatest of cartled by description.

Scrofula, or King's Evil is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease low living disease. caused by mercurial disease, low living dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children

unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, " will visit the iniquities of the fathers upon

their children." Its affects commonce by deposition from the Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, siver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; conscquently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise Such a medicine we supply in

Compound Extract of Sarsaparilla. the most effectual remedy which the medical

skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Experive and Skin Diseases, St. Anthony's Firm, ROSE, OF ERYSIPELAS, PIMPLES, POSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RERUM, SCALD HEAD, RINGWORK, RHEUMATISM, STPHILITIC and MERCURIAL DIS-RASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Saraapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Ayer's Cathartic Pills,

contaminated constitutions.

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanes, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or account restored by a rangely at ones so health or energy restored by a rumedy at once so

health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dengerous diseases. The agent below named is pleased to furnish gratis my American Almanas, containing certificates of their cures and directions for their use in the following complaints: Contineness, Heartburn, Headache arising from disordered Stonach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Fatulatesey, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or observation of its functions.
