Agriculture.

HOW TO RAISE HOGS.

A. G. Mullins of Kentucky, in a communication to the *Genesee Farmer*, offers the following hints on the raising of hogs:

Say we have a good stock to begin with, a stock that matures early and fattens well. The pigs should come from the middle of March to May. There is a great advantage in pigs coming at this time, as we can graze them through two summers, and have them to keep only through one winter. They come to be of fine size by the second fall or winter. Hogs may be pushed into market younger, but at more expense in grain, and they will be smaller at fattening time, which is a great disadvantage.

The greatest profit in hogs is in grazing them, and turning them upon grain fields, where they can gather for themselves; and having them large and in good condition at fattening time. The sows and pigs should be kept in good growing condition by feeding them on Indian corn, or corn meal made into slop. As soon as the clover begins to blossom, or a little before, turn them upon it. Sows and pigs should still be given some grain while in the clover.

THE IMPORTANCE OF CURRYING ANIMALS.—It is well known that every hair, whether long or short, is covered with numerous little barbs, like the barbs of fish-hooks, and, therefore, when a number of hairs are brought in contact with each other, and moved back and forth, they will work in among each other, and often form a mass so tangled—like the mane of a colt, which our ancestors have often taught us to believe were the stirrups of witches, which were accustomed to ride them in the dark nights—that it is difficult to disentangle them. The only mean that cattle have of scratching themselves many time, is to apply their tongues; and when the hair comes off, as it many times does, by the handful, more or less of it will adhere to their tongues, and many times finds its way into their stomachs; and the reciprocating motion of the stomachs of animals which chew the cud would soon form a bunch of hair into a pellet; and, as more hair was taken into the stomach from day to day, it would be very sure to all collect in one mass. Now, when an animal begins to shed its coat of hair, there always appears to be more or less irritation of the skin, and if the card or curry-comb is not used pretty freely the tongue must be applied; and if an animal is well curried every day, when it is shedding its coat, it will be far less liable to collect hair in its stomach. A ball of hair—being indigestible—in the stomach would be very likely to injure its energies so as to produce disease, and eventually premature death.

CHICKEN SALAD.—A friend who tried a chicken salad with us the other day, asked a minute description in the *Agriculturist* for the benefit of his better half and others. The recipe is a common one, for ought we know—perhaps it was used with special skill in the instance when our friend was so well pleased. Written minutely it read thus: Mince finely the white parts of one chicken previously well boiled. Take blanched, crisp celery and chop very fine. With 1 measure of the minced chicken, mix 1½ measure of the chopped celery.—Boil hard one large or two small eggs, roll the yolk fine, and mixing in a teaspoonful of mustard, and nearly as much salt, with ½ tea-cupful of vinegar, pour this over the chicken. Cut the boiled whites of the eggs in rings and lay on the top, garnishing also with the smaller leaves of the celery.—Usually the celery is not chopped half fine enough.

CURE FOR DEAFNESS.—A new discovery which is declared by the medical faculty in Paris, to be a certain cure for deafness, is sulphuric ether poured directly into the ear in a dose of four or six or eight drops a day. Usually this agent produces only a slight degree of sensibility or pain. After it has been used fifteen or twenty days, the operator may suspend its use for several days, to retain its energy better, and then resume its use. The application may be continued, if not indefinitely, at least for a long period of time. It is said that this remedy has never yet failed in any of the numerous cases to which it has been applied.

"SHALL WE CULDIVATE CORN OR CATTLE"—Such is the subject of an article in the Mark Lane *Express*. It advises English farmers, in view of the immense importations of grain from this country, to raise more stock. This advice is equally applicable to this county. To keep up the fertility of the soil it is necessary to feed more cattle.

DIPTHERIA IN HOGS.—The Zanesville (Ohio) Courier is informed by an intelligent gentleman that the disease thought to be hog cholera, which has prevailed in various localities in that country for some time past, proves to be nothing more or less than the diptheria. A post-mortem examination reveals such to be the fact.

THE PENNSYLVANIA TELEGRAPH
FOR THE
LEGISLATIVE SESSION.

The publisher of the PENNSYLVANIA TELEGRAPH has made the most ample and complete arrangements, by the engagement of an experienced corps of reporters, to give the public a complete synopsis of the proceedings of the Legislature, embracing all legislation that will be of a general character and such private business as may have an effect or influence on the public interest. Added to these reports, with the reports of the Heads of Departments, the debates will all be published when they are of a character involving questions in which the people are interested. These features regularly and carefully conducted and supervised by experienced reporters, our reports of the proceedings of Congress at the approaching session, the current events in the progress of the war, together with such domestic and foreign news as will probably occur and come within our reach, will make the PENNSYLVANIA TELEGRAPH one of the most valuable and interesting newspapers in the country.

TERMS,

THE DAILY will be published during the session of the Legislature for $1.00 per copy.

THE SEMI-WEEKLY will also be published at the low rate of $1.00 for the session.

THE WEEKLY is printed on a very large sheet at the low rate of $1.00 per year.

Address,
GEORGE BERGNER,
Harrisburg, Penn'a.

Dec. 28, 1861

DISSOLUTION OF PARTNERSHIP.

NOTICE is hereby given, that the co-partnership heretofore existing between the undersigned, trading under the firm of Marts & Ent, at Light Street, is this day (Nov. 25, 1861) dissolved by mutual consent of the parties. The books, accounts &c., remain in the hands of Peter Ent one of the members of the late firm, by whom all claims against the said firm will be paid; and those indebted to said firm will please call and make payment of the same.

GEORGE MARTZ,
PETER ENT.

Light Street, Nov. 30, 1861.

NEW JEWELRY STORE.

THE undersigned, respectfully informs the citizens of Bloomsburg, and the public generally, that he has established a store and shop on Main Street, Bloomsburg, in Mrs. Leonard's Building, where he offers for sale, on moderate terms, a large assortment of—

CLOCKS, WATCHES & JEWELRY,

Of every sort, and size and description. His stock of Jewelry is complete, including every variety of ladies and gents gold wedding rings, Curtain Lockets, Sleeve Buttons, Finger-rings, etc., to the examination of which he invites the public generally.

☞ Strict attention given to repairing Clocks, Watches, and Jewelry, and all work warranted.

WM. B. DRAKE.

Bloomsburg, May 4, 1861—tf.

THE
Weekly "Patriot & Union."
THE CHEAPEST PAPER PUBLISHED IN PENNSYLVANIA!
AND
THE ONLY DEMOCRATIC PAPER PUBLISHED AT THE SEAT OF GOVERNMENT!
FORTY-FOUR COLUMNS OF READING MATTER EACH WEEK!
AT THE LOW PRICE OF ONE DOLLAR!
WHEN
SUBSCRIBED FOR IN CLUBS OF NOT LESS THAN TEN COPIES TO ONE ADDRESS!

The period for which many of our subscribers have paid for their paper being on the eve of expiring, we take this early opportunity to call their attention to the same, in order that they may

RENEW THEIR CLUBS.

We shall also take it as an especial favor if our present subscribers will urge upon their neighbors the fact that the PATRIOT AND UNION is the only Democratic paper printed in Harrisburg; and considering the large amount of reading matter, embracing all the current news of the day, and

TELEGRAPHIC DISPATCHES

From everywhere up to the moment the paper goes to press, political, miscellaneous, general and local news, market reports, is decidedly the

CHEAPEST NEWSPAPER PUBLISHED IN THE STATE!

There is scarcely a village or town in the State in which a club cannot be raised if the proper exertion be made, and surely there are few places in which one or more energetic men cannot be found who are in favor of the dissemination of sound Democratic doctrine, who would be willing to make the effort to raise a club.

DEMOCRATS OF THE INTERIOR!

Let us hear from you. The existing war, and the approaching sessions of Congress and the State Legislature, are invested with unusual interest, and every man should have the news.

TERMS.
DAILY PATRIOT AND UNION.

Single copy for one year, in advance $4 00
Single copy during the session of the Legislature.. 1 00

WEEKLY PATRIOT AND UNION,
Published every Thursday.

Single copy one year in advance..... $2 00
Ten copies to one address 15 00
Subscriptions may commence at any time. Any postmaster is authorized to act as agent. Any person sending us a club of fifty subscribers to the Weekly will be entitled to a copy for his services. The price is so low that we cannot offer greater inducement than this. Additions may be made at any time to a club of subscribers by remitting $1 for each additional copy. Specimen copies will be sent free to any person who may send us the names of those constituting a club. As we cannot undertake to address each paper to club subscribers separately, specimen copies of the weekly will be sent to all who desire it.

☞ BARRETT & CO., Harrisburg, Pa.

PROSPECTUS
OF THE
SCIENTIFIC AMERICAN,
THE BEST MECHANICAL PAPER IN THE WORLD.
SEVENTEENTH YEAR.
VOLUME VI.—NEW SERIES.

A new volume of this widely circulated paper commences on the 11th of January. Every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

THE SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce and the Industrial Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory but also in the Household, the Library and the Reading Room.

To the Mechanic and Manufacturer!

No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule of the publishers to insert all new and original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision.

To the Inventor!

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the new inventions as they come out at the Patent Office, but an official list of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving every week, the best scientific papers from all parts of Europe, and transferring to mechanical science and art its rarest old countries. We shall continue to transfer to our columns copious extracts from the best journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights and Farmers!

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of Chemistry as applied to the various arts and manufactures, and the latest developments in Architecture and Carpentering will be found in the new inventions and discoveries appertaining to those pursuits being published from week to week. Useful and practical information relating to the interests of millowners and millwrights will be found in the list of patents issued from the Patent Office, which will contain every patent granted during the week; also, in the Scientific American, which information they cannot possibly obtain from any other source. Subscribers and farmers are furnished with the latest improvements in agricultural implements being introduced in the country.

TERMS.

To mail subscribers.—Two Dollars a Year, or One Dollar for six months. One Dollar pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the first of JANUARY and JULY.

CLUB RATES.

Five Copies, for Six Months $4
Ten Copies, for Six Months $8
Ten Copies, for Twelve Months $15
Fifteen Copies, for Twelve Months $22
Twenty Copies, for Twelve Months $28

For all clubs of Twenty and over, the yearly subscription is only $1.40. Names can be sent in at different times and from different Post-offices. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post office stamps taken at par for subscriptions. Canadian subscribers will please to remit 24 cents extra on each year's subscription to pre-pay postage.

Bloomsburg, Pa., August 3, 1861.

IMPORTANT NATIONAL WORKS.
PUBLISHED BY D. APPLETON & CO.
443 *and* 445 *Broadway, New York.*

The following workers sent to sub cribers in any part of the country, upon receipt of retail price, by mail or express, prepaid:

THE NEW AMERICAN CYCLOPÆDIA. A popular Dictionary of General Knowledge. Edited by GEORGE RIPLEY and CHARLES A. DANA, aided by a numerous corps of writers in all branches of Science, Art and Literature. This work is being published in 15 large octavo volumes, each containing 750 two column pages. Vols. I to XIII inclusive, are now ready, each containing over 2,500 original articles. An additional volume will be published once in about three months.

Price, in Cloth, $3; Sheep, $3 50; Half Mor., $4; Half Russia, $4 50 each.

The New American Cyclopædia is popular without ceasing superficial, learned but not pedantic, comprehensive but sufficiently detailed, free from personal piques and party prejudices, fresh and yet reliable. It is a complete statement of all that is known upon every important topic with the range of human intelligence. Every important article in it has been especially written for its pages by men who are authorities upon the topics on which they speak. They are required to bring the subject up to the present moment to date; for how it stands now. All the statistical information is from the latest reports; the geographical accounts keep pace with the latest explorations; historical matters include the freshest just views; the biographical notices not only speak of the dead, but also of the living. It is a library of itself.

AMERICANS OF 1861. The Decade of Commons: Being a political history of the United States, from the organization of the first Federal Congress in 1789 to 1850. Edited and compiled by Hon. THOMAS H. BENTON from the Official Records of Congress.

This work will be published in 15 royal octavo volumes of 750 pages each if of which are now ready. An additional volume will be published once in three months.

Cloth, $3; Law Sheep, $3 50; Half Mor., $4; Half Calf $4 50 each.

A WAY OF PROCURING THE CYCLOPÆDIA, OR DEBATES.

Form a club of four, and remit the price of four books, and five copies will be sent at the remitter's expense for carriage, or for ten subscribers eleven copies will be sent at our expense for carriage.

TO AGENTS.

No other works will so liberally reward the exertions of Agents. An AGENT WANTED IN THIS COUNTY.—Terms made known on application to the Publishers.

These Laboring Under
sickness and suffering from the effects of Impure Blood and wish to be cured, should follow the example of those who have been cured, and take the only remedy known to the world that will positively cleanse the blood, which is

MOFFAT'S LIFE PILLS
and
PHŒNIX BITTERS

These Medicines have now been before the public for a period of 20 years, and during that time have maintained a high character in almost every part of the globe for the extraordinary curative properties which they possess.

Moffat's Life Pills.

Moffat's Life Pills are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and restoring them with renewed tone and vigor; and to the unbounded fact that at a very early part in their history, they had exceed sufferers from the very verge of an untimely grave, perfectly securing to them that uniform enjoyment of health, without which life itself is but a partial blessing. So great indeed had their efficacy invariably proved, that it was scarcely less than miraculous to those who were unacquainted with the beautiful philosophical principles upon which they were compounded, and upon which they consequently act.

MOFFAT'S PHŒNIX BITTERS.

Moffat's Phœnix Bitters are so called, because they possess the power of restoring the expiring embers of health to a glowing vigor throughout the constitution, as the Phœnix is said to be restored to life from the ashes of its own dissolution.

Mercurial Diseases.—There is probably no one article spread such wide-spread and terrible mischief to the human system as mercury. Its poisoned fluke deep into the veins, penetrating the substance of the bones, and producing a long train of painful diseases. It is well known that many affections of the skin, many of the most malignant scrofula, which have even attributed to syphilis, are so often caused by the injudicious use of mercury, so that the remedy has proved worse than the disease.

LIFE PILLS AND PHŒNIX BITTERS.

The Life Pills and Phœnix Bitters have always been signally successful in this class of cases, and will eradicate all the effects of mercury from the system sooner than the most powerful preparations of sarsaparilla. They and nature in casting from the system all poisonous matter, and by thus purifying the vital fluids, they restore the system to health.

Bilious Complaints.—A well regulated and proportionate quantity of bile upon the stomach is always requisite for the preservation of good health—it stimulates the digestive organs into healthful action, and gives the skin a beautiful, clear, healthy and blooming appearance.

To Elderly Persons.—Many healthy aged individuals do not know the value of Moffat's Life Medicines, make it a rule to take them two or three times a week, by which they remove the causes that produce pain, and preserve their health, and keep off the infirmities of age.

Facts for Mothers and Nurses.—It is a fact, established by the annual bills of mortality, that one half of all children born in the world die before attaining seven years of age; and the fruitful cause of so much death is found to exist in that foul state of the stomach and bowels which produced the generation of worms. As the safe restorer of infantile health to this critical state the Life Medicines have long held a distinguished reputation, and for colics of the stomach and bowels, and convulsions, although worms may not exist, it is allowed to be superior to any other.

Moffat's Pills and Bitters.—No medicines at present known have done so much good to mankind as these, within the last few years; and certainly none have been rewarded with more numerous and authentic testimonials of their invariable and extensive efficacy.

They require no dieting nor confinement, are perfectly mild and pleasant in their operation, but will powerfully restore health—that greatest of earthly blessings—to the most exhausted and dilapidated constitutions.

DR. ENGLISH'S
INDIAN VEGETABLE EMMENAGOGUE.

This Celebrated Female Medicine possesses virtues unknown of anything else of the kind, and proving effectual after all others have failed; it is prepared from an "Indian Herb" peculiar to Northern Mexico and Texas, and is used by the Natives in producing the monthly courses. It is designed for both married and single ladies, and in the very letting known for the purpose as it will remove all obstructions after other powerful drugs have been tried in vain. It is a pleasant tea, containing nothing injurious to health, and a cure to be relied upon in all cases.

Prolapsus Uteri, or falling of the Womb; Fluor Albus or Whites; Chronic Inflammation, or Ulceration of the Womb; Incidental Hemorage of Flooding, and disease of the Spine.

☞ Ladies in the early stage of pregnancy are cautioned against the use of this tea, as it will produce miscarriage.

PREPARED AND SOLD BY
DR. G. W. ENGLISH, No. 216 SOUTH SECOND ST.

AND FOR THE SPEEDY CURE OF
Nervous Prostration, General Debility, Asthma, Dyspepsia, Scrofula, Marasmus, Paralysis, Chronic Bronchitis, Anæmia, Chlorosis, and all Disorders of the Blood System.

DO YOU KNOW IT?

CONSUMPTION IS THE ONLY FATAL FORM OF MALADY. It has been truly regarded as an INCURABLE DISEASE—for every remedy it attacks. "*Consult of the whole human race,*" says DR. CHURCHILL, "and HOPE CHANGES HALF OF ALL THE MISFORTUNATION of mortal kind into tranquillity." What a sad commentary on the boasted efficacy of the healing Art!

The brilliant discovery of Dr. Churchill, made to the Imperial Academy of Medicine, of Paris, has proved an *Antidote* to the world. By the use of this new and *powerful remedial agent*, known to chemistry as

THE HYPOPHOSPHITES,

"THE CURE OF CONSUMPTION, even in the Second and Third Stages (at a period, therefore, when there can be no doubt as to the nature of the Disease) is the RULE, while DEATH IS THE EXCEPTION." * * * "I KNOW," says Dr. C., "that they will prove not only as SURE A REMEDY in CONSUMPTION as Quinine is in Intermittent Fever, but also as effectual a PRESERVATIVE as Vaccination in Small Pox."

Let no sufferer, who values health and life, delay an hour to try this remedy. Remember that "*prevention is better than cure.*" Many of the victims of Consumption, by the soothing assurance of friends that "*it is only a little cold*," or "*Fatal cure to injure who now fill premature graves!* Give, I entreat you, prompt attention to the

EARLIEST SIGNS OF CONSUMPTION.

"AND THESE SIGNS SHALL FOLLOW THOSE."—*Mark*

"The early symptom of tubercular disease is WASTING. It precedes the cough, and it is earlier, in point of time, than the fever. It is first manifested in the *feet and hands*. The muscular tissue wastes; hence debility; there is a sense of something wrong—a *failing* that saps vital powers and flesh. The tone of the living machine is more active than its *repair*."—*Dr. Churchill.*

"If, without any apparent cause, or under the influence of causes which have usually produced no such result, *you find you are losing flesh*, your breathing is affected, you have a cough, *especially if dry*, or a tickling, or slight irritation in the throat, you are in danger. Delay not, but consult a physician without loss of time."—*Dr. Hall.*

EFFECT OF THE REMEDY.

"If, on the earliest appearance of these signs of Consumption, the patient takes daily about ten grains of the HYPOPHOSPHITES, he will usually see them all disappear in a period ranging from a few weeks to a few months; and by continuing the occasional use of the Remedy, HE WILL SPEEDILY FIND HIMSELF IN THE ENJOYMENT OF SUCH HEALTH AS HE, PERHAPS, HAD NEVER KNOWN IN HIS LIFE BEFORE."

"Winchester's Genuine Preparation"
IS THE ONLY RELIABLE

Form of Dr. Churchill's Remedy. Plainly from the original formula. The science of the Hypophosphites is well-known and specific action upon the nervous centres is proven, and they are the most powerful tonic-restorative ever discovered. The effect upon the nervous condition is IMMEDIATE, all the general symptoms disappearing with a promptness which is truly marvellous. They *increase the appetite*, relieve expectoration, improve the digestive organs, *allay nervousness*, and *promote sleep*; the bowels become regular, and the skin calm and perspire.

A FAIR TRIAL IS A CERTAIN CURE!

☞ BEWARE of *Bogus Preparations* represented as Dr. Churchill's, and all other WORTHLESS IMITATIONS sold on the reputation of the genuine, *Imported Hypophosphites*, and known as FATAL NOSTRUMS. Visit no more GHOST LAND, and for

Dr. Churchill's Treatise on Consumption,

which contains the only authentic information in regard to the NEW TREATMENT. Sent free to all inquirers.

PRICE: In 7 and 16oz. Bottles, $1 and $2 each.—Three large, or six small for $5. *Fac-similes* to be on both the Label and Outside Wrapper.

NO OTHER IS GENUINE.

☞ Do not confound this Remedy with the so-called "Canton Food," and particularly avoid all preparations containing iron, which is poisonous, and destroys the teeth, which has no curative properties whatever.

Sold by the most respectable druggists throughout the United States and British Provinces, and Wholesale and Retail at the General Depot in the United States, by

J. WINCHESTER, 36 John Street, N. Y.

March 9, 1861.

EVANS & WATSON—
SALAMANDER SAFES.
REMOVED to 304 *Chestnut Street*, above *third, Philadelphia*, have on hand a large assortment of Fire Proof Safes of the most approved construction, from doors, for banks and stores, iron shutters from sash, all makes of locks equal to any made in the United States.

Five Safes is one Fire. All came out right; with contents in good condition.

The Salamander Safes of Philadelphia against the world.

EVANS & WATSON,

have had the surest demonstration in the following certificate that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them as rendering an undoubted security against the terrific element.

Philadelphia April 12, 1856.

Messrs Evans & Watson—Gentlemen: It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Salamander safes which we purchased of you some five month since we saved a large portion of jewelry, and all our books, &c., exposed to the enormous fire in Banstead place on the morning of the 11th inst.

When we had at that time safes were located in the fourth story of the building we occupied and that they fell subsequently into a heap of burning ruins, where the vast concentration of heat caused the brass plate to melt, we consider the preservation of their valuable contents as most convincing proof of the great security afforded by your safes.

We shall take great pleasure in recommending them to men of business as a sure reliance against fire.

GEORGE W. SIMMONS & BRO., *Jewellers.*

☞ They have since purchased six large Safes.

MANHOOD.
HOW LOST, HOW RESTORED.
Just Published, in a Seal Envelope:

A Lecture on the nature, treatment, and radical cure of Spermatorrhœa, or Seminal Weakness, Sexual Debility, Nervousness and involuntary emissions producing impotency, Consumption and Mental & Physical Debility.

By ROBT. J. CULVERWELL, M. D.

The important fact that the awful consequences of self abuse may be effectually removed without internal medicines or the dangerous applications of caustics, instruments, medicated bougies, and other empirical devices, is here clearly demonstrated, and the entire new and highly successful treatment, as adopted by the celebrated author fully explained, by means of which every one is enabled to cure himself perfectly, and at the least possible cost, the nature of which will be found set forth in the advertisement of the day. This lecture
