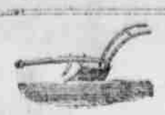
Agriculture.



"WASTE NOT, WANT NOT."

This was a Franklin motto. Apply it to the farm, and its bank deposits. Manure heaps are the sub-treasuries of the farming interest. Waste of manure is waste of wealth Every miner who digs for gold must dig in the dirt. But the farmer first deposites the gold in the ground, and afterwards digs it out with increase — The gold he plants, he gathers from the sources of consumption and decay, where carelessness may leave a loss.

Wisdom is wealth; time is money; and equally so manure is money, to the farmer. Where shall we dig for riches? Where shall we go and gather up wealth? "Go to the ant, thou sluggard;" go to the squirrel, thou spendthrift; go to the manure-composter,; thou foolish farmer, who hast nursed poverty, by working a hungry soil, and getting nothing, because you gave nothing as a basis of production.

Gather it at the stable. Mix well the solid droppings of the cow with twice its bulk of meadow muck; money in mud.—Loam will serve a good warpose, if nothing better can be had. Pine leaves are almost priceless in the compost. And be very sure, if no great loss would be allowed, to put enough dry peat, old rotten straw, or other substance suited to the purpose, to take up all the liquid that she voids.—Take like care, also, of the voiding of the ox and younger cattle. The noble horse, well fed, well used, furnishes much material to mix with muck; three times the measure of his solid excrements, with dry peat, sawdust or old straw, spinkled with old brine, plaster, refuse salt, to save the urine—money from many things made into manure.

Gather a pile from the pig pen. Piggy does not appropriate much for muscle, from the fat of his feeding, but pours out big bottles of ammoniacal liquor to magnify the manure heap. The gift is a great one, and never to be dispised by the man of a flourishing farm. Pile the pine scrapings into his pen, with old leaves, loads of loam, and let him make his mark as a manufacturer; and he will do it in defiance of war or tariffs. Piggy's first work in the world is to provide for the corn crop, and when that comes in, in lusty loads, he will consent to be put into pork, for the benefit of princes or paupers.

Gather gold from the hen-house. Pile the peat under the hen-rost; scatter ashes lightly over, or old lime, and saturate it with slops from the chamber, and repeat the same often, layer, upon layer, mixing it all well before each fresh addition of muck or peat. It will be cheaper than poudrette from Lodi, and as rich as a California quarts gold mine.

Gather gold from the sink drain. The suds and grease that go away there, contain gold; gather it up for the garden grounds; mix it with muck, or carry it to the currant bushes, on almost anywhere to feed the growing corps, and gold will grow out of it.

Save the suds from the wash room.—There are wonders of wealth in such mineral waters. They are good for sickly cabbages, melons, pears, squashes and tomatoes. They make all growing things to glisten in the glory of their growth.

Save the slops from chambers. Waste is as wicked there as anywhere. Man need not pride himself above producing his portion of the food of plants; he was made of earthly matter, air and water, and wastes these daily from himself, in substance for the food of vegetation. "Waste not, want not."

Gather from the privy. There is no use, boys, in snuffing. This turning up the nose is of no more value in a young man than it is in a bloomin miss. Pride is peevish, and always out of place among the working world's nobility. Pile in the muck, or loam, with a mixture of plaster, much old rotten chip dirt, red drive away unpleasant odors by putting on new layers often; and carry away a great pile to the corn field. You may bring it back in gold.

Gather all the ashes. They will answer for their application almost anywhere, in "words fitly spoken—like apples of gold in pictures of silver."

"Waste not, want not." Gather manure from the mill, scrape around the shop, take care of cotton waste, waste not old woolens, tax the tanner for his refuse truck, make the merchant a fair offer for old brines, call upon the collier for his charcoal dust, and tax all trades that the farmer feeds; buy when and what you connot save, if it will bring back the gold; but, man of the muck heap, remember, "waste not, want not."—[Cor. New England Farmer.

MORE TRUTH THAN POETRY.—We heard it remarkd a day or so ago, says the Wheeling *Press*, that it seemed inauspicious to set four millions of blacks free, with the hope that they would succeed in freedom, when thirty millions of white American citizens, with all their superior advantages, had so signally failed in self government. This idea, struck us with consicerable force, and we put it on

THE PENNSYLVANIA TELEGRAPH
FOR THE
LEGISLATIVE SESSION.

The publisher of the PENNSYLVANIA TELEGRAPH has made the most ample and complete arrangements, by the engagement of an experienced corps of reporters, to give the public a complete synopsis of the proceedings of the Legislature, embracing all legislation that will be of a general character and such private business as may have an effect or influence on the public interest. Added to these reports, with the reports of the Heads of Departments, the debates will all be published when they are of a character involving questions in which the people are interested. These features regularly and carefully conducted and supervised by experienced reporters, our reports of the proceedings of Congress at the approaching session, the current events in the progress of the war, together with such domestic and foreign news as shall daily occur and come within our reach, will make the PENNSYLVANIA TELEGRAPH one of the most valuable and interesting newspapers in the country.

TERMS.

The DAILY will be published during the session of the Legislature for $1.00 per copy.

The SEMI-WEEKLY will also be published at the low rate of $1.00 for the session.

The WEEKLY is printed on a very large sheet at the low rate of $1.00 per year.

Address,

GEORGE BERGNER,
Harrisburg, Penn'a.

Dec. 28, 1861

DISSOLUTION OF PARTNERSHIP.

NOTICE is hereby given that the co-partnership heretofore existing between the undersigned, trading under the firm of Maritz & Ent, at Light street is this day, (Nov. 25, 1861) dissolved by mutual consent of the parties. The books, accounts &c., remain in the hands of Peter Ent one of the members of the late firm, by whom all claims against the said firm will be paid; and those indebted to said firm will please call and make payment of the same.

GEORGE MARTZ,
PETER ENT.

Light Street, Nov. 30, 1861.

NEW JEWELRY STORE.

THE undersigned, respectfully informs the citizens of Bloomsburg, and the public generally, that he has established a new Store, on Main Street, Bloomsburg, in Mrs. Leacock's Building, where he offers for sale, on moderate terms, a large assortment of—

CLOCKS, WATCHES & JEWELRY,

Of every sort and size and description. His stock of Jewelry is complete, including every variety of Ladies and Gentlemen's Medallions, Chains, Lockets, Breastpins, Finger-rings, etc., to the examination of which he invites the public generally.

☞ Strict attention given to repairing Clocks, Watches, and Jewelry, and all work Warranted.

WM. B. DRAKE.

Bloomsburg, May 4, 1861—tf.

THE
Weekly "Patriot & Union."
THE CHEAPEST PAPER PUBLISHED IN PENNSYLVANIA!
AND
THE ONLY DEMOCRATIC PAPER PUBLISHED AT THE SEAT OF GOVERNMENT!

FORTY-FOUR COLUMNS OF READING MATTER EACH WEEK!
AT THE LOW PRICE OF ONE DOLLAR!
WHEN
SUBSCRIBED FOR IN CLUBS OF NOT LESS THAN TEN COPIES TO ONE ADDRESS!

The period for which many of our subscribers have paid for their paper being on the eve of expiring, we take the liberty of issuing this notice, reminding them of the same, in order that they may

RENEW THEIR CLUBS.

We shall also take it as an especial favor if our present subscribers will urge upon their neighbors the fact that the PATRIOT AND UNION is the only Democratic paper printed in Harrisburg, and considering the large amount of reading matter, embracing all the current news of the day, and

TELEGRAPHIC DISPATCHES

From everywhere up to the moment the paper goes to press; political, miscellaneous, general and local news, market reports, is decidedly the

CHEAPEST NEWSPAPER PUBLISHED IN THE STATE!

There is scarcely a village or town in the State in which a club cannot be raised if the proper exertion be made, and surely there are few places in which one or more energetic men cannot be found who are in favor of the dissemination of sound Democratic doctrines, who would be willing to make the effort to raise a club.

DEMOCRATS OF THE INTERIOR!

Let us hear from you. The existing war, and the approaching sessions of Congress and the State Legislature, are invested with unusual interest, and every man should have the news.

TERMS.

DAILY PATRIOT AND UNION.

Single copy for one year, in advance.....$4 00
Single copy during the session of the Legislature..1 00

WEEKLY PATRIOT AED UNION,

Published every Thursday.

Single copy one year in advance.....$2 00
Ten copies to one address.....10 00

Subscriptions may commence at any time. *Pay always in advance.* Any person sending us a club of fifty subscribers to the Weekly will be entitled to a copy for his services. The price is so low that we cannot offer greater inducements than this. Additions may be made at any time to a club of subscribers by remitting $1 for each additional name. It is not necessary to send us the names of those constituting a club, as we cannot undertake to address each paper to club subscribers separately. Specimen copies of the weekly will be sent to all who desire it.

O HARRETT & CO., Harrisburg, Pa.

PROSPECTUS
OF THE
SCIENTIFIC AMERICAN.
THE BEST MECHANICAL PAPER IN THE WORLD
SEVENTEENTH YEAR.
VOLUME VI.—NEW SERIES.

A new volume of this widely circulated paper commences on the 4th of January. Every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

The SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions and Agriculture, Commerce and the Industrial Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory but also in the Household, the Library and the Reading Room.

To the Mechanic and Manufacturer!

No persons engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision.

To the Inventor!

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers

Chemists, Architects, Millwrights and Farmers!

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the recent inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found published in the Scientific American which information they cannot possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Two Dollars a Year, or One Dollar for six months. One Dollar pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the first of JANUARY and JULY.

CLUB RATES.

Five Copies, for Six Months.....$4
Ten Copies, for Six Months.....$8
Ten Copies, for Twelve Months.....$15
Fifteen Copies, for Twelve Months.....$22
Twenty Copies, for Twelve Months.....$28

For all clubs of Twenty and over, the yearly subscription is only $1.40. Names can be sent in at different times and from different Post-offices. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post-offices stamps taken at par for subscriptions. Canadian subscribers will please to remit 25 cents extra on each year's subscription to pre-pay postage.

IMPORTANT NATIONAL WORKS.
PUBLISHED BY D. APPLETO & CO.
443 *and* 445 *Broadway, New York.*

The following works are sent to subscribers in any part of the country, (upon receipt of retail price) by mail or express prepaid.

THE NEW AMERICAN CYCLOPÆDIA: A popular Dictionary of General Knowledge. Edited by GEORGE RIPLEY and CHARLES A. DANA, aided by a numerous select corps of writers in all branches of Sciences, Art and Literature. This work is being published in about 15 large octavo volumes, each containing 750 two column pages. Vols. I to XIII inclusive, are now ready each containing near 2,000, original articles. An additional volume will be published once in about three months

Price, in Cloth, $3; Sheep, $3 50; Half Mor., $4; Half Russia, $4 50 each.

The New American Cyclopædia is popular without seeking superficial, learned but not pedanic, comprehensive but sufficiently detailed, free from personal pique and party prejudice, fresh and yet accurate. It is a complete statement of all that is known upon every important topic with the scope of human intelligence. Every important article in it has been specially written for its pages by men who are authorities upon the topics on which they speak. They are required to bring the subject up to the present moment to date just how it stands now. The most recent statistical information is from the *latest* reports; the geographical accounts keep pace with the latest explorations; historical matters include the freshest just views the biographical notices not only speak of the dead, but also of the living. It is a library of itself.

ABRIDGMENT OF THE DEBATE OF CONGRESS: Being a political history of the United States, from the organization of the first Federal Congress in 1789 to 1856. Edited and compiled by Hon. THOMAS H. BENTON from the Official Records of Congress.

This work will be compiled in 15 royal octavo volumes of 750 pages each 11 of which are now ready. An additional volume will be published once in three months.

Cloth, $3; Law Sheep, $3 50; Half Mor., $4; Half Calf $4 50 each.

A WAY OF PROCURING THE CYCLOPÆDIA, OR DEBATES.

Form a club of four, and send the price of four books, and five copies will be sent at the reuitter's expense for carriage or for ten subscribers eleven copies will be sent at our expense for carriage.

TO AGENTS.

No other works will offer to rally around the exertions of Agents. Address as above. Write to us for circulars. Terms made known on application to the Publishers.

Bloomsburg, Oct. 26, 1861.

These Laboring Under

sickness can at once relieve themselves from the thousand maladies that flesh is heir to, if they will only follow the counsels of nature, and take the medicine which best assists her in her operations. That medicine is the Vegetable Life Medicines of Dr. MOFFAT, known as

MOFFAT'S LIFE PILLS
and
PHŒNIX BITTERS

These Medicines have now been before the public for a period of 30 years, and during that time have maintained a high character in almost every part of the globe for the extraordinary curative properties which they possess.

Moffat's Life Pills.

Moffat's Life Pills are indebted for their name to their manifest and sensible action in purifying the system and cleansing the fountains of life, and giving them vigor tone and vigor; and to the unquestioned fact that in every early part in their history, they had rescued sufferers from the very verge of an untimely grave, perfectly restoring to them that uniform enjoyment of health, without which life itself is but a partial blessing. The great and beneficial results which are invariably proved, that it was scarcely less than miraculous to those who were unacquainted with the beautiful philosophical principles upon which they were compounded, and upon which they consequently act.

MOFFAT'S PHŒNIX BITTERS.

Moffat's Phœnix Bitters are so called, because they possess the power of restoring the expiring embers of health to a glowing vigor throughout the constitution, as the Phœnix is said to be restored to life from the ashes of its own dissolution.

Mercurial Diseases.—There is probably no one article given as a medicine, the injurious use of which has caused such wide spread and terrible mischief to the human system as mercury. Its poison sinks deep into the system, penetrating to substances of the bones, and producing a long train of painful diseases. It is well known that many affections of the throat, of the face, of the nose, and malignant sores, which have been attributed to syphilis, are so often caused by the injudicious use of mercury, so that the remedy has proved worse than the disease.

LIFE PILLS AND PHŒNIX BITTERS.

The Life Pills and Phœnix Bitters have always been signally successful in this class of diseases, and will eradicate all the effects of mercury from the system, sooner than the most powerful preparations of sarsaparilla. They aid nature in casting from the system all poisonous matter, and by thus purifying the vital fluids, they restore the system to health.

Dilious Complaints.—A well regulated and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion, and keeps the intestinal canal free from all obstructions. On the interior surface of the liver is a peculiar bladder in which the bile is first prepared. Being formed by the liver from the blood. Thence it passes into the stomach and intestines, and regulates the digestion. Thus we see when there is a deficiency of bile, the body is constantly restless. On the other hand, an excess produces bilious fevers, with all the tendency to overshadows, unfitness for society, in short all those symptoms of languor, of quietude, and weakness that give evidence of a failure in the vital powers, and a low, unhealthy and morbid condition of the system.

LIFE MEDICINES.

The Life Medicines should, if possible, be taken in the early [illegible] when the first symptoms of [illegible] appear, and if persevered in for a few days, will [illegible] in all cases of [illegible]

Moffat's Life Pills.—Persons of a plethoric habit, who are subject to fits, headache, giddiness, dimness of sight, or drowsiness, arising from too great a flow of blood to the head, should take these Pills frequently.

ADVICE TO FEMALES.—Females who value their health should never be without the Life Medicines, as they purify the blood, remove obstructions, and give the skin a beautiful, clear, healthy and blooming appearance.

To Elderly Persons.—Many healthy aged individuals who know the value of Moffat's Life Medicines, make it a rule to take them two or three times a week, by which they remove the causes that produce disease, preserve their health, and keep off the infirmities of age.

Facts for Mothers and Nurses.—It is a fact, established by the annual bliss of mortality, that one half of the children born are cut off before attaining seven years of age; and the fruitful source of this mortality is found to exist in that foul state of the stomach and bowels which produced the generation of worms. As the safe removal of infantile health and their relief state of the Life Medicines have long held a distinguished reputation, and for fouliness of the stomach and bowels, and convulsions, although worms may not exist, it is allowed to be superior to any other.

Moffat's Life Pills and Bitters.—No medicines at present known have done so much good to mankind as these, within the last few years; and certainly none have been rewarded with more numerous and authentic testimonials of their invariable and extensive efficacy.

They require no dieting nor confinement, are perfectly mild and pleasant in their operation, but will powerfully restore health—that greatest of earthly blessings—to the most exhausted and dilapidated constitutions.

THE GREAT
INDIAN HERBAL TEA!
FOR FEMALES.
DR ENGLISH'S
INDIAN VEGETABLE EMMENAGOGUE.

This Celebrated Female Medicine possesses virtues unknown of anything else of the kind, and proving effectual after all other remedies have failed, is prepared from an "Indian Herb" found in the northern Mountains of Texas, and is used in the Native Villages among the mountaineers with unfailing success. It is safe for both married and single ladies, and is the very best thing known for the purpose as it will remove all obstructions after other remedies have been tried in vain. It is a pleasant tea, containing no poisonous ingredients to injure and a cure to be relied upon in all cases.

Prolapsus Uteri, or fallen of the Womb; Fluxes Albus, or Whites; Chronic inflamation, or Ulceration of the Womb; Incidental hemorrages or Flooding, and diseases of the Spine.

☞ Ladies in the early stage of pregnancy are cautioned against the use of this tea, as it will produce miscarriage.

AND FOR THE SPEEDY CURE OF
Nervous Prostration, General Debility, Asthma, Dyspepsia, Scrofula, Rheumatism, Paralysis, Chronic Bronchitis, Anæmia, Chlorosis, and all Disorders of the Blood System.

DO YOU KNOW IT?

CONSUMPTION IS THE MOST FATAL SCOURGE OF MANKIND. It has been truly regarded as AN INCURABLE MALADY—for ever surviving its attack. "*One sixth of the whole human race,*" says Dr. Curtis, "and MORE THAN ONE HALF OF ALL THE ADULT POPULATION of most civilized communities PERISH BY THIS DISEASE." What a sad commentary on the boasted efficacy of the Healing Art!

The brilliant Discovery of Dr. Churchill, made to the Imperial Academy of Medicine, of Paris, has proved an *insurmountable bar*rier to the world. By the use of this new and *powerful remedial agent*, known to Chemistry as

THE HYPOPHOSPHITES,

"The CURE of CONSUMPTION, even in the Second and Third Stages (at a period, therefore, when there can be no doubt as to the nature of the Disease) is the RULE, while DEATH IS THE EXCEPTION." * * * "I KNOW," says Dr. C., "that they will prove not only as SURE A REMEDY in CONSUMPTION as Quinine is in Intermittent Fever, but also as effectual a PREVENTATIVE as Vaccination in Small Pox."

Let no sufferer, who values health and life, delay an hour to try this remedy. Remember that "prevention is better than cure." Beware of self-deception, or the soothing assurance of friends that "*It is only a little cold!*" Fatal error to myriads who now fill premature graves! Give, I entreat you, prompt attention to the

EARLIEST SIGNS OF CONSUMPTION.

"ASK THESE SIGNS what follow what."—*Macb.* "The *earliest* symptom of tubercular disease is anæmia. It *precedes the cough*, and it is earlier, in point of time, than the uræmic. It is first manifested in the *face and hands*. The muscular tissues waste; hence poverty: there is a sense of something wrong—a *feeling* that the vital powers are failing. The veins of the living machine is more active than its *regulator*."—*Dr. Pollock.*

"If, *without any apparent cause*, or under the influence of causes which induce weakness and exhaustion; such as *mental grief, overwork, excess, pregnancy, child-bearing, nursing, rapid growth, or those recovery from disease*, a person begins to lose his flesh, strength, color, or appetite; if he suffers from *shortness of breath, or palpitations*, and experiences a general feeling of *languor and depression*, THERE IS REASON TO FEAR that *he is already precipitated to the complaint*. If to these symptoms be added cough, however slight, particularly if it has come on slowly, or during the late season, THE PROBABILITY IS GREATER STILL."—*Churchill.*

EFFECT OF THE REMEDY.

"If, on the earliest appearance of these signs of Consumption, the patient takes daily about ten grains of the HYPOPHOSPHITES, he will usually see them all disappear in a period varying from a few weeks to a few months; and by continuing the occasional use of the Remedy, HE WILL SPEEDILY FIND HIMSELF IN THE FULL ENJOYMENT OF SUCH HEALTH AS HE, PERHAPS, HAD NEVER KNOWN IN HIS LIFE BEFORE."

"Winchester's Genuine Preparation"
IS THE ONLY RELIABLE

Form of Dr. Churchill's Remedy. [Made from the original Formula.] The action of the Hypophosphites is two-fold and specific: *increasing the principle which* CONSTITUTES NERVOUS FORCE, and they are the most POWERFUL BLOOD-CREATING AGENTS known. The effect upon the tubercular condition is IMMEDIATE, ALL THE GENERAL SYMPTOMS DISAPPEARING WITH A RAPIDITY WHICH IS REALLY MARVELOUS. They relieve the cough, diminish expectoration, improve the appetite, arrest diarrhœa; the night sweats, chills, and fever cease; the bowels become regular, and the MIND CALM AND PROFOUND.

A FAIR TRIAL IS A CERTAIN CURE!

☞ BEWARE of *Bogus Formulas* advertised as Dr. Churchill's, and all other SWINDLING DEVICES to rob sufferers of their means, *less precious time*, and hasten a FATAL RESULT. Write to me for CIRCULARS, and for

Dr. Churchill's Treatise on Consumption,

which contain the *only authentic information* in regard to this NEW TREATMENT. Sent free to all inquirers.

PRICE: In 7 and 10-oz. Bottles, $1 and $2 each.—Three large, or six small for $5. My facsimile is on both the Label and Outside Wrapper.

NO OTHER IS GENUINE.

☞ Do not confound this Remedy with the so-called "Chemical Food;" and particularly avoid all preparations containing iron, which is poisonous, and God-fearful, which has no curative property whatever.

☞ Sold by the most respectable Druggists throughout the United States and British Provinces, and Wholesale and Retail at the General Depot in the United States, by

J. WINCHESTER, 36 John Street, N. Y.
