

EGGS.

The Egg was held in great veneration by the Egyptians, sometimes as symbolizing the regeneration of the world, and sometimes as an emblem of the world itself .-The ancient Persians regarded it in the latter point of view. Orosmasdes, the creative principle of good, after he had called mankind into existence, having mystically inclosed them in an egg; and the possession of this he maintained an incessant combat with Dhriman, the principle of malevolence or evil. Sir Robert Porter mentions a feast of ante Mohammedau origin which he saw celebrated in Persia at about the period of our Easter. During stekness can at suce relieve themselves from the thou sand mainted that does us into to it they will only the religious it was customary for friends. the rejoicings, it was customary for friends to interchange presents of eggs, typical as the Vegetable Life Medicines of Dr. Morrar. it was supposed, both of the creation and MOFFAT'S LIFE PILLS the delage. The mundane egg was also recognized in Brahminical theology; and if it be true that the Hellenic worship of Bacchus was derived from India, we can, in consequence and a second sec in consquence, understand how it was that eggs were carried in solomn precession when the foul atrocities of the Dyonesia were perpetrated. Stones, egg-shaped. have been found in the excavated chambers at Nimrod, as also the figure of a person richly appareled, who wears an egg shaped headdress. The ancient Egyptains appear to have set great store by the eggs, as well as the plumes of the estrich; both formed part of the tribute they exterted from conquered nations. To what exact use they put these eggs, we have no certain information; but the reverence they paid them, and the fact that they were hung up in the temples, is evidence that they were hung up in the temples, is evidence that they were in some way connected with the superstition of the country. The Coptic Christians, now-a days have estriches' eggs, pendent in their churches, as emblems of watch.

MOFFAT'S PHŒNIX BITTERS.

Moffat's Phoenix Bitters are so called, because they possess the power of restoring the expiring embers of possess the power of restoring the expiring embers of act that they possess the power of restoring the expiring embers of act that they possess the power of restoring the expiring embers of the powers as a suit to be realored to life from the electron day that the reperson the constitution.

Morfat's Phoenix Bitters are so called, because they possess the power of restoring the expiring embers of restoring the embers of restoring the embers of restoring the embers of restoring the ember in their churches, as emblems of watchfulness, and occasionally they are pierced, to enable the rope on which the lamp is hanging to pass through them, and thus prevent the rats from descending and getting at the oil. According to Christian inconographs, the egg has generally been understood to symbolize the Resurrection, and hence probably arose the custom, which once prevailed in the North of England, of giving infants, the first time after baptism they are sent abroad to visit the neighbors, an egg, some salt, and some fine neighbors, an egg, some salt, and some fine or manchet bread. Hence, also, arose the custom which still subsists in Russia, and obtained up to a very late period in many short time will affect an entire cure of that Rheum, and obtained up to a very late period in many short time will affect an entire cure of that Rheum, and a retailing and the clearness of the skin. parts of England, of friends on Easter day exchanging gifts of eggs—in England, these being always, or at least most usually, as of the Life Series and the clearness of the skin.—Common Coids and Indicata will always be cared by one dose, or by two even in the worst cases.

Fight Philad 1.—The original proprietor of these Medicines was cared of Philos of 35 years standing, by the set of the Life Series of the Life Series alone. being always, or at least most usually, dyed, or otherwise ornamented. In Mesopotamia, the native Christian children stain the eggs red, in commemoration of Obrist's blood. In Cumberland, a few jears ago, the beys were wont to entertain themselves by challenging each other to a trial of the strenth of their respective eggs, and these being boiled hard much sportensued. He whose egg survived the contest in which those of his competitors were in which those of his competitors were shattered, became entitled not only to the

WORTH A TRIAL. - In a conversation with an intelligent and reliable farmer from Ohio, a day or two since, the rot in potatoes came up. He informed us that fortunately for them a preventive had been found for the rot in stored crops. The discovery was purely accidental, which was this-a friend of his had a large lot of fine potatoes which he placed in barrels for storing away. Not having enough flour barrels he used two salt barrels, (such as the New York works pack salt in) and on opening the flour barrels he found that nearly all his potatoes had rotted whilst those packed in the sait barrel were sound and good. Not satisfied with the one accidental trial, he used more salt barrels the next season and found the result the same. He then made known the result to some of his friends and their trials proved the preventive properties of salt to their entire satisfaction. Our friend informs us that instead of using barrels he puts his potatoes in a cool cellar, in beds about nine inches thick on which he sprinkles one quart of salt to six busnels of potatoes. This, he says will effectually prevent rot. It is certainly worth a trial .-It has thus far prevented a serious loss and banished the disease in stored crops. .....

English Magazine,

Hor-House .-- In the hot house maintain 70 to 80 degrees of heat. If the snow falls, the roof should be cleaned to admit the light which the rapidly growing plants now require. Air must be given the plants frequently, but much care will be needed to prevent chilling drafts striking directly FOR SEWING MACHINES. upon the plants. Maintain a constantly moist air by sprinkling freely.

Those Laboring Under

PHENIX BITTERS.

# Moffat's Life Pills.

Moffet's Life Pills are indebted for their name to their nanifest and smaller action in puritying the springs and channels of life, and ensuing them with renewed one and vigor; and to the undoubted fact that at a very early part in their history, they had rescued authorers early part in their history, they had rescund authorise from the very verge of an untimely grave, perfectly securing to them that uniform enjoyment of health, without which life their is but a partial bireside. So great initied dual their efficacy invariably proved, that it was scarcely less than mirraculous to those who were unaqualisted with the beautiful philosophical principles upon which they were compounded, and upon which they consequently act.

as well as the plumes of the ostrich ; both MOFFAT'S PHENIX BITTERS.

The Life Pills and Phoenix Bitters have always been signally successful in this class of discuses, and will cradicate all the effects of mercary from the system, somer than the most powerful proparations of sarasparilla. They aid nature in casting from the system all poisonous marter, and by thus puritying the vital fluids, they restore the system to health.

Billoos Complaints.—A well regulated and proportionate quantity of bite upon the stomach is always requisite for the promotion of sound health—it stimulates digestion, and skeeps the intestinal canal free from all obstructions. On the interior surface of the fiver is a peculiar bindler in which the bite is first preserved, being forned by the liver from the blood. Thence it passes into the stomach and intestines, and regulates the digestion. Thus we see when there is a deficiency of bile, the body is constantly costive. On the other hand, an over annuance of bile causes frequent masses on the stomach, and often promotes very severe attacks of diseases, which sometimes and reglates.

LIFE MEDICINES.

### LIFE MEDICINES.

The Life Medicines should, if possible, he taken in covery will enso.

FRUER SED AGUE - For this scourge of the Western-country, these medicines will be found a safe, speedy and certain remedy. Other medicines have the system subject to a return of the disease—a care by these Medfragments by way of spoil, but to the digsinger to a retar of the assessed a currely these area-cines is permanent.

Schortza. The most boreible cases of Serofula, in right the face, bones and itabs of the victim had been reyed upon by the insatiable disease are proved, by scientists authority of the sufferers themsetves, to acceptate completely carrol by these purely vegential actiones, after all others had been found more than nified and coveted title of "Cock of Five or Six," or whatever the number of eggs might be which his ewn had discomfited. -

Indigestion and Dyspepsin -- If we were called upon

Indigeriou and Dyspensin—H we were called upon to specify one disease which sore that any other is the batte, (while it is the offspring of civilization) we should name Dyspensia. It is generally attended or rather productive, of a long train of alls, such as Heartbarn Flatulency, a gnawing pain at the stomach when cupty a sense of uncomfortable weight when full, pains in the figure, the and pit of the stomach, costiven see chilliness, languer, unwillingness to take exercise, &c.

MOFFAT'S LIFE MEDICINES.

MOFFAT'S LIFE MEDICINES.

Moffat's Lafe Medicines are populiarly adapted to the cure of the distressing compaint. They set upon the bowels in a very mild, and, at the same time, very effectual manner, and have never yet fatice to care this discuss when used according to our directions.

General Debitity. The most common of all compliants is that of a general weakness of the whoje system, unaccompanied by any particular disorder, or definite symptoms of disease. There is a little vital energy, a loss of appetite, upwillingness, and indeed insbifity to underzo eigertions. Trequent negatives, indication, offentimes sullowness and dispose of the skin, tendency to feverishness, unfiness for society, in short distributions of the set of a faiture in the vital powers and a low, unhealthy and morbid condition of the system.

Life Pills and Phoenix Bitters.

The Life Fills and Phoenix flitters are, perhaps, the best remaily for restoring strength to the hody for, they are as a gratte cartantic, and, by their tonic qualities, atrengthen the whole system.

Moffar's Life Fills—Persons of a pethoric habit, who are subject to fits, headache, giadiness, dinness of sight, or drowsings, from too great a flow of blood to too head, should take these Fills frequently. ADVICE TO FRMALES.—Femnies who value their calls should never be without the Life Medicines, as hey purify the blood, remove obstructions, and give the call by the blood, remove obstructions, and give the call by the blood of the blood of

To Elderly Persons.—Many heulthy aged insuvaluals who know the value of Moffat's Life Medicines, make it a rule to take them two or three times a week, by which they remove the causes that produce discusse preserve their health, and keep off the infirmities of

preserve their health, and keep off the infirmation of age.

Pacts for Methers and Nurses.—It is a fact, established by the annual blies of mortality, that one half of the children borne are cut off before attaining seven years of age; and the fufful source of this mortality is found to exist in that foul state of the stomach and howers which produced the generation of worms. As the safe restorer of infaultie health in this critical state its lais Medicines have long hed a distinguished reputation, and for foulness of the stomach and bowels, and convolutions, although worms may not exist, it is allowed to be superior to any other.

Monfair Fills and Filters.—No medicines at present known have done so much good to mankind as those within the last few years; and cortainly none have been rewarded with more numerous and authentic testimorials of their invariable and extensive efficacy.
They require no dicting nor confinement, are perfectly mild and phonoment in their operation, but will powerfully restore health—that greatest of earthly blessings—to the most exhausted and disapidated constitutions.

most exhausted and dispidated constituti

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injointies of the fathers upon will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

#### AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SRIN DISEASES, St. ANTHONY'S FIRE, ROSE, Or ENVSIPELAS, PIMPLES, PUSTULES, BLOTCHISS, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPBILITIC and MERCURIAL DIS-EASES, DROPST, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITTAran on Impurity of the blood" is founded in truth, for serofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

# Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties scarch, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing contificates of their cures and directions for their use in the following complaints: Costres-

containing continuates of their cures and directions for their use in the following complaints: Costicutes, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pasn in and Marbid Inaction of the Bonels, Flatulchey, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

#### Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

disease. So wide is the field of its usofulness and so numerous are the eases of its cures, that almost every section of country abounds in persons pub-licly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmenary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has point from has gained friends by every trial, conferred benefits on the afflicted they can never forget, and pro-duced cures too numerous and too remarkable to

Exer's Grove Mills, Pub. 8, 1802, and Recommendation of the Recomme

Ayer's Sarsaparilla

A compound remody, in which we have la-bored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumons complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment or many other ways. iment on many of the worst cases to be found

of the following complaints: - SCROPULA AND SCROPULOUS COMPLAINTS, ERUTIONS AND ERUTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT REELM, SCALD HEAD, STPRILIS AND SYPHILITIC AP-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALDIA OR TIC DOULDURBUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, KRYSIPELAS, ROSE OR St. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Impurity or

This compound will be found a great promoter of health, when taken in the spring, to expele the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

the bottle. PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS. Price, \$1 per Bottle; Six Bottles for \$5

Ayer's Cherry Pectoral, has won for itself such a renewn for the cure of every variety of Throat and Lung Complaint, that every variety of throat and Lung Companie, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do
