Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarseparille, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarseparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROPULA AND SCROPULOUS COMPLAINES, EMPTIONS AND EMPTIVE DISEASES, ULGERS, PINCLES, BLOTCHES, TUMORS, SALT RIBEUM, SOLID HUMAN EXPENSES AND SYPHILITIC AP-

SCALD HEAD, SYPHILIS AND SYPHILITIC AP-PROTIONS, MERCURIAL DISEASE, DR. VST., NEU-RAIGIA OR TIC DOULOUMEUX, DEBLIATY, DES-PRESIA AND INDIGESTION, ENVIRONMAN, ROSE OR St. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY

This BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the time ly expulsion of them many rankling disorder that the blood Multitudes can by are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous seres, through which the system will strive to rid itself of corruptions, if not assisted to de this through the natural channels of the body by an alterative medicine. Cleanse out the by an alterative medicine. Cleanee out the vitiated blood whenever you find its impurities bursting through the skin in pimples, aruptions or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the

reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations. pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparille,

or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart
of Extract of Samaparilla for one dollar. Most
of these have been frauds upon the sick, for they not only contain little, if any, Sarsapa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparills, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to care. In order to accure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO. LOWELL, MASS. Price, \$1 per Bottle; Six Bottles for \$5. Ayer's Cherry Pectoral,

has won for itself such a renewn for the cure of every variety of Throat and Lang Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-ployed. As it has long been in consumt use throughout this section, we made not a more than oughout this section, we need not do more assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
