immediately cured and full vigor restored.
This Distressing Affection—which renders life miserable and marriage impossible—is the penalty part by the victims of improper indulgences. Young persons are too apt to commit excess from not being aware of the decadful consequence that inny ensue, Now, who that understands the subject will pretent to deny that the power of procreation is lost secure by those falling late improper habits than by the pendent. Besides being deprived of the pleasare of healthy offsprings, the most serious and destructive symptoms to both body and mind arise. The system becomes decauged; the physical and mental functions weakened, loss of procreative power, nervous irritability. By spepsia palpitation of the heart, indigestion, constitutional debility, a wasting of the Frame, Cough, Consumption, decay and death.
