Godey's Lady's Book For 1863.

Great Literary and Pictorial Year 1

The publisher of Godey's Lady's Book, thankful to that public which has enabled him to publish a magazine for the last thirty-three years of a larger circulation than any in America, has made an arrangement with the most popular authoress in this country-Marion Harland, Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and Miriam," who will furnish a story for every number of the Lady's Book for 1863. This alone will place the Lady's Book in a literary point of view far ahead of any other magazine. Marion Harland writes for no other publication .-Our other favorite writers will all continue to furnish articles throughout the year.

The best Lady's Magazine in the World, and the Cheapest .- The Literature is of that kind that can be read aloud in the family circle, and the clergy in immense numpers are subscribers for the Book.

The Music is all original, and would ost 25 cents (the price of the Book) in the music stores; but most of it is copyrighted, and cannot be obtained except in "Godey."

Our Steel Engravings. All efforts to stand alone in this department, giving as we do, many more and infinitely better engravings than are published in any other

Godey's immense double sheet fashion plates containing from five to seven full ength Colored Fashions on each pirte. Other magazines give only two. Far ahead of any Fashions in Europe or America .-Godey's is the only work in the world that gives these immense plates, and they are such as to have excited the wonder of publishers and the public. The publication of these plates cost \$10,000 More than fashion plates of the old style, and nothing but our wonderfully large circulation enables us to give them. Other magazines cannot afford it. We never spare money when

the public can be benefited. These fashions may be relied on. Dresses may be made after them, and the wearer will not subject herself to ridicule as would be the case if she visited the large cities dressed after the style of the plates given in some of our so called fash.

ion magazines. Our wood Engranings, of which we give twice or three times as many as any other magazine, are often mistaken for steel .--They are so far superior to any others.

Imitation. Beware of them. Remember that the Lady's Book is the original publication and the cheapest. If you take Godey, you want no other magazine. Everything that is usefu'l or ornamental

in a house can be found in Godey. Drawing lessons. No other magazine gives them, and we have given enough to

fill several large volumes. Our receiepts are such as can be found nowhere else. Cooking in all its variety -Confectionery-the Nursery-the Toilet -the Laundry-the Kitchen. Receipts upon all subjects are to be found in the pages of the Lady's Book. We originally started this department, and have peculiar facilities for making it most perfect. This department alone is worth the price of the

Ladies work table. This department comprises engravings and description of every article that a lady wears.

Model Cottages. No other magazine has this department.

[From the True Citizen (New Britain, Conn.)]

Some time or ten months since we dike a large portion of our follow sitizens, received our duly newe of the movements of our armies from the New-York papers of the non to Richmond' class, but we become so dispated with the senseless ouery—which taken up for a time by nearly the weels nation, proved so terribly effective in driving our enemy on to the defeat of Bull Run and also at the persistant fault finding with and chose of President Lugdin and the leading Generals of the army, that we took up as we then supposed, with their slower and more respectable riyal. The World. We have read this paper daily experience, and heve found, I at we not only had a readable and scholarly journal thoroughly loyal and government sustaining. But that tewns fully up to the times, in its supply of everything with was reliable in the way of current hows. In fact, who only miss in its columnone classes of news, viz. that which is to be contradicted to-morrow. With these hasty remarks we desire curricularly to recommend to our readers the New-York World as one of the best, if not the sery best daily journal in the country.
