CURE OF FOOT ROT IN SHEEP.

I have repeatedly used the following treatment for foot rot in sheep with complete success. Prepare a solution of blue vitriol as atrong as it can be made, by pulverizing and dissolving in warm soft water. Each hoof should then be examined, thoroughly cleansed with a knife, and if too long, cut to the proper dimensions. If no infection be found, let two men t ke the sheep with a leg in each hand and dip every foot into the solution of vitriol. When an infected hoof is found, carefully pare it until every parsicle of the infection is exposed-avoid bleeding the foot if possible. Then thoroughly saturate the foot with spirits of turpentinefrom a viac with a quill'inserted in the cork ; pour on as much fine powder as you cao make adhere to the foot or the Prints, parts infected, and apply a lighted match to the same ; after which dip the foot in the solution as above directed. The sheep should then run on a clean floor until the remedies have had sufficient time to take

I have cured an entire flock with a single course of the above treatment. But to be safe, the same should be repeated in five or sexen days, and if any cases of infection be found, repeat again. Should an obstinate case be found where the rot has penetrated into the centre of the quick. yard by itself, and subjected every second for trust. day to the prescribed treatment. Thoroughness is the great secret of success in treating the foot-rot. The knife is the principal remedy, if sharp and skillful handled .- American Agriculturist.

WARM CLOTHING FOR INFANTS. The exposure of infants to a low temperature, whether from deficient or improper clothing, will prove injurious to them. It has been ascertained that out of one hundred children born in winter, six
ty-six die in the first month of life, but of one hundred born in summer only seven. one hundred born in summer, only sexenteen die during the first month. Also, that the mortality is greater among children born in Northern than in Southern climates. From these facts it is evident that insants should be furnished with a THE SAPONIFIER, greater amount of clothing than adults. -

Nothing is more common, however, than to see children with their arms, necks, and upper portious of the chest bare. When we reflect on the close sympathy between the skin and internel organs of the body, we may easily decide on the probable cause of diseases in the liver, lungs, stomach, bowels and brain, and hence croup, catarrh, fever, diarrhoa, cholera,

Rura I American

HOLES FOR NOSE RINGS. The Maine Farmer reccommends "boring the noses of all domestic animals of the ox tribe, cows, steers, or bull," and remarks : "It is very easily done, oceasions them but little trouble, and is often of great service when you wish to hand'e or control them, by putting your finger Got up expessly for their Spring Trade.
WINDOW PAPER OF EVERY GRADE, in, or a rope, or a ring. The best way to do this is to take a carpenter's gouge, about half an inch wide, with its edge passing up the sides a little ways, thus, D. Make it sharp. Take hold of the nose of the animal with the left hand, holding the lower part of the cartilage between the nostrils with the thumb and finger, and then place the gouge a little above, against the gristle, and with a little pressure turn the gouge around, and it wil cut a round

of a uniform type. In the same flock as well as in the same locality and neighborhood, will be found numerous varieties which the war and the razzias have tended to introduce, and the various crosses arising from these, tend still further to inerease this confusion. Generally their size is large, their shape good, except that their legs are long and their bodies thin and lank, and they are clothed with wool on the head, limbs, and belly. The greater number have two or four horns, and some six. In the province of Constantine we meet with many of the fat-tailed sheep. called these Barbary sheep. The weight of these tails is nine or ten pounds each and form a fut bon bouche which the Arabs eat with great zest. In certain of the cases of the South, the sheep of the Tell sre replaced by a breed with horns, called Demman, which have the skin speekled with white and black, and the hair short, like that of the gazelle. They are excessively fat; the owes yield an excellent milk in abundance, and their fiesh is eaten equally with that of the wethers. In the districts of the Sahara and the Tell the flooks of sheep are considerable, and constitute the most important wealth of the pastorol tribes.

Buy fair, sell fair and love the fair. By so doing, you will stand a fair chance of leading a fair than of the gazelle and a fair chance of leading a fair thing.

BLOOMSBURG SKYLIGHT,

THE GREAT REMEDY FOR THE

CONSTITUTION ONLY KNOWN REMEDY

DIABETES AND DISEASES OF THE

KIDNEYS AND BLADDER

These Dangerous and Troublesome Discases, which have thus for Resisted the best directed Treatment can be Completely Controlled by the REMEDY now before usl

properties of the medicine direct themselves to the or-gans of secretion, and by so aftering the condition of the stomach and liver that the starchy principle of the food is not enverted into sugar so long as the system is under the influence of the CONSTITUTION WATER,

which give those organs time to recover their kealthy tone and vigor. We are able to state that the Constitua, tion Water has cured every case of Diabetes in which it has been given.

STONE IN THE BLADDER, CALCULUS, GRAVEL BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING. Diseases occuring from one and the same cause will be entirely cared by the Constitution Water, if taked for any length of time. The dose should vary with the severity of the disease, from twenty drops to a tespoonful three times a day, in water. During the passage of the Calculus, the pain and argent symptom should be combated with the proper remedies, the followed up with the Constitution Water, as above disease.

TION, AND IN MENORRHAGIA OR PROPESE PLOWING,

Both diseases arising from a ladly accretion of the menstrual flaid in the one case belong the fulle, and accompanied by severe paint; and the other a temperature accompanied by severe paint; and the other a temperature secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp lacianting or shooting pains through the pairs, will, in all classes, be removed by the medicine.

There is another class of symptoms arising from IR-RITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases, out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Peet, Palpitation in the Heart, Impared Memory, Wakefolness, Flashes of Heat Languor, Lassitude, and Dimness of Vision.

SUPPRESSED MENSTRUATION.

Which in the unascried female is a constant recurring disease, and through neglect the seeds or more grave and dangerous maladdes are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chrosic, the parient gradually looses for appetite, the bowels are constipated, night sweats come on, and consumption feasily and have avert. LEUCORRGEA OR WHITES.

This disease depends upon an inflamation of mucous iming of the vagina and womb. It is in all cases accompanied by severe pairs in the back, accross the bowels and through the hips. A teaspoonful of the medicine may be taken three times a day, with an injection of a tablespoonful of the medicine, mixed with a half-pirt of soft water, moraling and evening.

IRRITATION OF THE NECK OF THE BLADDER. INFLAMATION OF THE KIDNEYS AND CA-TARRH OF THE BLADDER, STRANGURY

AND BURNING OR PAINFUL URINATING. For these diseases it is truly a sovoreign remedy, and too much cannot be said in its praise. A single does has been know to relive the most urgent syptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Constitution Water will relieve you like magic. FOR DYSPEPSIA,

It has no equal in relieving the Most distressing amptoms. Also, Headache, Hearthurn, Acid Stomach Von iting Food, &c. Take a teaspoonful after dinner. The dose in all cases may be increased if desired, but should be done gradually. PHYSICIANS

Have long since given up the use of buchu, cubebs and jumper in the treatment of these diseases, and only use them for want of a better remedy. Has proved itself equal to the task that has devolved upon it.

Read. Read. Read.

Dr. WM. H. Green-Date Sir: In February, 1861, 1 was afflicted with the sugar diabetes, and for five months was affliced with the sugar diabetes and for five months it passed more than two gallons of water in usently four hours. I was object to get up as often ten or twelve times during this night, and in five months [lost about fifty pounds in weigth. Durating the month of July, 1861, I procured two bottles of Constitution Water and in two days after using it I experienced relief, and after taking two bottles I was entirely cured, soon after regaining my usual good health. Yours truly, J. V. L. DE WITT.

Boston Corners, N. Y., Dec. 27, 1861. Boston Corners, N. Y., Dec. 27, 1861.

Wm. R. Greeg & Co.;

Gents:—I freely give you liberty to make use of the Gollowing 'irtificate of the value of Constitution Water, which I can recommend in the highest manner.

My wife, who was attacked with pain in the shoulders, whole length of the back, and in her limbs, with Palpitation of the heart, attended with Falling of the Womb. Dysmenorrhoen, and "Irritation of the Blad sier," I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could flud, who attended her nowths, and while she was under his care she did not suffer quite as much pain; he finally gave her up and said: "her case was incurable." For, said he, "she was such a combination of complaints, that medicine given for one operate-dgainst some other of her difficulties."—About this time she commenced to use 1008-11071. dose seemed to have the dsired effect, and she kept on improving rapidly u*der its treatment, and new super-intends entirely her domestic affairs. She has not taken any of the on Turios Waves for a pour four week, and we are happy to say that it has produced a perma

THESE ARE PACTS ENOUGH
There is no class of diseases that produce such exhausting effects upon the human constitution as Disbetes and diseases of the Krineys, illadder and Urica

To the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded in our efforts in pincing so valuable remedy in a form to meet the requirements of patient and physician,

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such
as Tumors, Ulcers, Sores, Eruptions,
Brimpies, Pustules, Blotches, Bells,
Histor, and all Skin Disease.

Orland, Ind. 6th June, 1852.

J. C. Ater & Co. Gents: I feel it my duty to no
knowledge what your Sarsaparilla has dend for he
Having inhorited a Scrofalous infection, I have saffeed
from it in various ways for years. Screetimes it buss,
out in Ulcers on my hands and arms; sometimes it
turned inward and distressed me at the stomech. Ton
years ago it broke out on my lead and covered my scale
and cars with one sere, which was painful and leadenines
leyond description. I tried many nedicines and several
physiciase, but without much relief from any thing. In
fact, the disorder gree worse. At length I was replaced
to read in the Gospol Messenger that you had proposed
an atterative (Sarsaparilla), for I knew from your reputs
that that any thing you made most be good. I sent to
Cincinnatiand got it, and used it till it cured me. I took
it, as you advise, in small doses of a tempocarial over a
month, and used almost three bottles. Now and healthy
skin soon began to form under the scale, which after a
while fell off. My skin is now clear, and I know by my
feelings that the sleease has gone from my system. Yen
can well believe that I feel what I am saying when I tell
you, that I hold you to be one of the apostee of the ago,

St. Anthony's Fire, Rose or Erraipelas,
Tetter and Salt Rheum, Seald Head,
Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Proble writes from Salem, N. Y., 1218
Sept., 1269, that he has cured an invaterate case of
Droppy, which threatened to terminate fatally, by the
persevering use of our Sarsaparilla, and also a uningerous
Malignant Erripicias by large does of the same; says
he curse the common Erripicions by it constantly. Zobulon Sloan of Prespect, Texas, writes: "Three bed ties of your Sersaparilla cured me from a Gaire —a hid-cons swelling on the neck, which I had suffered from over two years."

cons swelling on the neck, which I had suffored from over two years."

Leucorrheca or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Chaming, of Now York City, writes, "I most cheerfully comply with the request of your sugest he saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remody, but conscially in Famile Diseases of the Scrodious disthesse. I have award many investigate cases of Leucorrhous by it, and some where the complaint was caused by alteration of the foreign. The ulceration itself was soon cured. Nothing within my knowledge equals it for these famile derangaments."

Idward S. Marrow, of Newlury, Alm, writes, "A dam gerous secretar times on one of the females in my family, which had defied all the remedies we could empley, has at length been completely cured by your Extract of Sarsaparilla. Our physiclen thought nothing but extinged in could afford relief, but he advised the trial of your Sarsaparilla as the last resert before cutting, and it proved effectual. After taking your remosty eight weels no symptom of the disease remains."

New Onleans, 20th August, 1942

Dr. J. C. Atrant Sir, I cheerfully comply with the course of your agent, and report to you wasse of the etc. I have realized with your Sarsaparilla.

I have could with li, in my practice, most of the etc. I have could with it is recommended, and lave effects truly wonderful in the curs of Versical and lave effects truly wonderful in the curs of Versical and lave effects truly wonderful in the curs of Versical and lave effects truly wonderful in the curs of Versical and lave effects truly wonderful in the curs of Versical and lave effects truly wonderful in the curs of Versical and layer truly wonderful in the curs of Versical and in his throat, which were consuming his painte and it has to perform the month. Your Sarsaparilla, steadily takes cured him in five weeks. Another was attacked by so ondary symploms in his nose, and the discretistic last disorder would soon reach his brain and kill him. But yielded to my administration of your Sarsaparilla in some disfiguration to his face. A woman who have treated for the same disarder by mercury was authoring from this poison he her beness. They had become a constitive to the weather that on a damp day she suffered excruciating pain in her joints and house. She, to, was cured onlively by your Sarsaparilla in a few weeks. I know from its formella, which your agent pass in that this Preparation from your laboratory houst be a cremedy; consequently, these truly remarkable recommends with it have not surprised my.

Fraternally yours. G. V. LALIMER, M. D.
