

HOW TO MILK COWS.

Dr. Dadd, the well known Veterinary Surgeon, writes as follows on this sub-

The first process in the operation of milking, is to make the cow's acquaintance, and give her to understand that the milker approacher her with none other than friendly intentions; for if he swears, scolds or kicks her, she is likely to prove refractory, and may, possibly, give the pacouth and unfeeling milker the benefit of heels, which, in my opinion, he is justly entitled to.

Before commencing to milk the animal, she should be fed, or have some kind of fodder; in the enjoyment of the mastiention of the same, her attention is withdrawn from the milker's operartions, and the milk is not "held up," as the saying is, but is yielded freely.

The milker should not sit off at a dis tance, like a coward, but his left arm should come in contact with the leg of the cow, so that she can not kick. If she makes the attempt when the milker is in close proximity with the cow's body, the former get a kick instead of a blow.

Before commencing to milk, the teats are to be washed with cold water, in the in warm weather, and warm water in win ter. The object is to remove accumulated dirt, which otherwise would fall into the milk pail, to the disgust of persons who love pure milk, and hate uncleanliness .-Here is a chance for improvement.

The best milker is a merciful man.—
The udder teats are highly organized and very sensitive; and these tacts should be taken into consideration, especially when milking a young animal, for the teats are sometimes excessively tender, and the hard tugging and squeezing which many poor sensitive creatures have to endure, at the hands of some thoughtless, hard-fisted man, are really distressing to witness.

TINWARE & STOVE SHOP.

THE undersigned respectfully informs his old friend and customers, that he has purchased his brothers and customers, that he has purchased his brothers and customers, that he has purchased his brothers the same sensitive distribution, especially when milking a young animal, for the teats are sometimes excessively tender, and the hard tugging and squeezing which many poor sensitive creatures have to endure, at the hands of some thoughtless, hard-fisted man, are really distressing to witness. man, are really distressing to witness.

A better milker than even a merciful man, is a woman. The principal part of milking, in private establishments in foreign countries, is done by women; and in these United States there are thousands of capable women out of employment who might be advantageously employed, in private and dairy establishments, as milkmaids. Therefore, in view of improve- S. G. KENNEDY ment in the art of milking, I advise farm ers to learn their wives; daughters and female donestse, how to strip cows.

An indolent person-slow couchshould never be suffered 10 touch a cow's teat; the process, to say the least of it, is painful; therefore, the best milker is one who can abstract the milk in the quickest

the milk is the most valuable, yet Mr. and elegant designs of JEWELRY. Silver Ware, &c., Hurry-up can not spare time to attend to this matter, consequently he loses the best of the strippings, and actually ruins the

PRESERVING BOOTS AND SHOES, BRANDIES, WINES, WHISKEYS

It is a fact not generally known, I thing, but which every person, in these pinching times, would do well to remember, viz., that the "soles," as well as the "uppers" of boots and shoes should always be thoroughly greased. Hence whenever you are so fortunate as to find yourself possessed of a new pair, rub cold tallow over the "soles" and hold them by the fire until the grease has "struck in. Then give them another coat, and so pro ceed until the leather will take in no more. In doing this you fill the pores up and double their days. Be careful and not hold them so near the fire as to burn them and be careful also to wipe off the surplus grease that you may spare the good wife's patience by having a decent respect for the carpets. I fear I shall incur the pleasure of all the "Professors Pegs" in the country, by making this public; but, by way of compensation, they may be assured that although it may not greatly benefit them in a "worldly way," it will certainly be an excellent thing for their - soles.

A. B. C.

ROOTS OF TREES.

The roots extend for a far greater distance than is generally imagined. J. J. Thomas has made some experiments to determine this point, and says: "The roots of a tree extend nearly as far on above each side as the hight of the tree; and hence to dig it up by cutting a circle with a spade half a foot in diameter, cuts off more than nine-tenths of the roots; and TOBACCO DEALERS to spade a little circle about a young tree not one quarter as far as the roots extend and call it 'cultivation,' is like Falstaff's men claiming spurs and shirt collar for

DELICIOUS MILK LEMONADE .- Dissolve six ounces of loaf-sugar in a pint of boiling water, and mix with them a quarter pint of lemon-juice, and the same quantity per dozen. Over 600 different varieties selling from 75cts to \$175 of sherry; then add three quarters of a pint of cold milk, stir the whole well together, and pass through a jelly-bag till

a complete suit."

Bloomaburg, April 18, 1863.

THE FOUR ACTS OF DESPOTISM

A NEW AND IMPORTANT WORK.

Author of "The Prison of State."
Price 50 ets; in paper covers. Bound in muslin, 75 ets. This work contains full and official copies of four principal Acts of the last Congress, which will forever fix a stigma upon that body:

1. The Tax Bill, by which all the property and resources of the people are martgaged to the present

Administration.
The Fixance Bitt, which places all the currency of the country in the hands of the Secretary of the Treasury.

The Conseniption Rith, by which all the bodies o poor men who are not worth \$300, are placed in the hands of the Administration.

The Indemnity Act. (fitting climax.) which presumes to indemnify the President for all the wrongs he has committed in the past, or may commit in the future.

he has committed in the past, or may commit in the future.

These four acts are each preceded by a careful an alysis, by Mr. Mahony, and their unjust, oppressive unconstitutional and odious features pointes out. As a book for reference, it will be invaluable to the Farmer, the Mechanic, the Politician, the Laborer—in fact to every person, for these acts reach from the loftiest mansion to the humblest cabin is the land.

These four acts are not published together in any other form. They make a large octavo pamphtet of 100 pages, in good sized type, and are sold at the low price of Fifty Cents in paper, and Seventy-Five Cents in mushin binding.

In order to furnish those of our readars who may desire this important work, we have made arrangements

In order to furnish those of our readers who may de sire this important work, we have made arrangements with the publishers to supply it through our office, and all who wish cepies can order from us. We will furnish them at Publisher's rates.

17 Send on the orders at once.

Fifty Cents in paper binding.

Seventy-Pive Cents in muslin.

Friends and Relatives.

BRAVE SOLDIERS AND SAILORS.

HOLLOWAY'S PILLS. AND OINTMENT.

All who have Friends and Relatives in the Army or Navy should take especial care that they be amply supplied with these Fills and Ointment; and where the brave Boldjers and Ballors have neglected to pravide themselves with them, no better present can be sent them by their Friends. They have been proved to be Soldier's never failing friend in the hour of need, COUGHS AND COLDS AFFECTING TROOPS. Will be speedly relieved and effectually cured by using these admirable medicanes, and by paying proper attention to the Directions which are attached to each Pot or Box.

SICK HEADACHES AND WANT OF APPETITE, INCIDENTAL TO SOLDIERS.

INCIDENTAL TO SOLDIERS.

Those feeling which so sadden us usually arise from trouble or annoyances, obstructed porspiration, or eating and strinking whatever is unwholesome, thus disturbing the healthful action of the liver and atomach. These organs must be relieved, if you desire to be well The Pills, taken according to the printed instructions, will quickly produce a healthy action in both liver and atomach, and, as a natural consequence, a clear head and good appetite.

WEAKNESS OR DEPILITY INDUCED BY OVER FATIGUE

WEAKNESS OR DEPUTED.

PATIGUE

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange, that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach, and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system, however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bawe's so sure at this famous medicine.

Discourse occurring from one and the same cause will be entirely cured by the Constitution Water, if taken appoint three times a day, in water. During the passage of the Calculars, the pain an argent symptome follows at patient of the combisted with the proper remedies, the rollowed up with the Constitution Water, as above different will give tone and vigor to the whole organic system, however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bawe's so sure at this famous medicine.

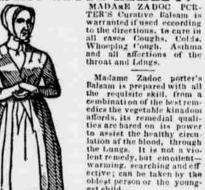

CAUTION!—None are genuine unless the words "Holloways, New York and London." are discernable as a Water-mark in every leaf of the book of directions around each pot or box; the same may plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
