

COVER YOUR VINES AND

The advice cannot be too often given to all who cultivate vines and plants, as to their protection, through the winter and early spring. We have found, a good many years of experience, that there is no mode of guarding all vines and plants not entirely hardy, against our occasionally severe winters, as laying them down and covering them with soil. Of course we mean those which can be so treated. The covering should not be more than two to four inches, according to the nature of the thing laid down. If too much earth is used, the buds, from the heat of the ground in March, may burst too early, and may be damaged by late frost when taken up which should rarely be done before the first of April. All young Grape-vines should be laid down, though, it will prove of great benefit, in our judgment, to all grape-vines, young or old, hardy or otherwise, to prune them and lay them down and cover them with a few inches of soil. All Raspberry canes should be pruned and laid down; so should Roses that are liable to damage from the frost. Strawing up roses and othor deciduous flowers and shrubbery, as it is usually done, that is, binding them as tightly almost as a pole, is far more injurious to them than no protection at all. Where strawing-up is resorted to, it should be applied only on the side exposed to the sun.

All flowers hards and laid down; and laid down; at how the from a target supply of medicanes at his rooms, which can be had at all times. Those wishing nivice or an examination of the Langs will do well to call on him as above. He makes no charge for advice, but for a therough examination with the Respirementer, his price is \$3.

Many persons are affected to have their lungs examinated better it would be to know their roodition at once, as by abundance of evidence. Dr. S. has shown sufficient certificates in this city that he has cared advanced stages of Consumption.

Dr. Schenck Frincipal Office is No. 39 North Sixth street, thistage the principal office is the sould be directed. canes should be pruned and laid down;

being very good for this purpose. In the spring the long stuff should be raked off, J. P. STER. and the rest forked in. It will not only NEW DRUG STORE, paotect the roots against injury during the winter, but the plants will appear in the spring greatly invigorated, and the flowers will be much more abundant and prove of much higher color and greater beauty .-Even leaves, straw, debris of any kind ; or, if there be nothing else, a slight covering of soil will be of good service.

We trust that no one who values the things about his premises here referred to. will neglect this brief advice-and now is the time to attend to it-at least not later than the first of this month.

Germantown Telegarph.

NEW WAY TO FATTEN HOGS.

During our visit at the East we were asked to look at some fatting hogs in the sty of Dr. Caleb Plaistridge, of Lebanon, N. H. They werevery fine ones, but not as good we are told as the doctor usually raised. His system is this: for twenty years past he has planted one-fourth acre of sweet corn and killed three hogs. The hogs have a good large, airy sty, with feeding trough so arranged that they cannot interfere with each other at feeding time, and free access to a large, dry yard. through which runs a spring of clear water. When his sweet corn is large enough to roast, he commences feeding it, stalks and all in the yard, giving them all the swill they will cat. This he continues until they refuse to cat the stalks, after which THE undersigned respectfully informs his old friend and customers, that he has purchased his brothers interest in the above establishment, and the concern will and the fatting process finished with corn meal. During the whole twenty years he has failed but twice of killing hogs of over five hundred pounds weight each, and he gives credit for most of the weight to the sweet corn. He says properly fed it adds at least two hundred pounds to each of his hogs. Until the frost kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the first kills it, they will eat the sweet corn state of the conducted by himself exclusively.

SUGAR FROM BEET-ROOT IN FRANCE.

According to an official return, the quantity of beet-root sugar made from the beginning of the "campaign" up to the end of August, was 173,677 tons, which was 27,262 tons more than last year: and the quantity remaining in bond at the end of the month was 9118 tons-5241 mere then at the samedate of 1892 .- [there is a large manufactory just gone into operation at Chatsworth, Illinois, to make beet sugar, by Genert Brothers, who have invested \$59,000 in the experiment. They are men of experience and have those in their imploy familiar with the business. The LIGHT STREET, Columbia county, Pa machinary has been imported from Germany, and is the mest used there in the manufacture of beet sugar. It is driven the indicator of public patronage.

This undersigned has located at the above named hotel, formerly occupied by Peter Schug, and solic its a share of public patronage.

The manufacture of beet sugar. It is driven been kind of liquors at the bar.

April 11 January 12 D. B. B.C.E. Proprietor. by two powerful steam engines. It is believed in ordinary times beet sugar of excellen quality can be made at four cents (1911) per pound .- Germantown Telegraph.

TAKE STAINS FROM MAHOGANY.

Put'a half ten spoonful oil of vitriol, into a large spoonful of water, and touch the soiled wood with a feather. Rub T O B A C C O D E A L E R S it quickly; repeat the application if the spots are not removed. Care must be taken not to discolor the mahogany in the operation.

CULTIVATE your own hearts aright: remembering that whatsoever a man soweth, that shall he also reap.

-RELY upon a simple promise, but distrust an oath.
