I do this the more readily in regard to Hoodand's German Bitters, prepared by Dr. C. M. Each for the removal of this prejudice by project tests, and for encouragement to try them, when sufferent from great and long continued debility. The use of three hottles of these Bitters, at the beginning of the present year, was followed by evident series and practical Accountants, who prepare young men for active basiness, at the least expense and shorter than the sessation to a degree of bodily and mental vigor which I had not felt for six months before, and had all most designated of regating. I therefore thank God and my friend for directing me to the use of them.
