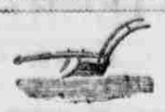
AGRICULTURAL.



GATHERING POTATOES.

There is a time which is the fittest and best in which to perform any kind of work where the elements, and seasons of nature, have anything to do with it. Gathering potatoes is one of that kind. When should this be done? Manifestly as soon as they are ripe, and ordinarily this will be in about four months and a half from the time the seed is covered in the ground. After the potato is ripe, there is no reason why it should remain in the ground, and certainly since it cannot increase their size or goodness by deferring gathering, the sooner it is harvested the less danger will arise from heavy rains; and while the soil is dry the more easily it can be taken from the earth. But there is an important consideration connected with this,—The earlier the potato is dug, the better opportunity there is to destroy the rank weeds that have sprung up since the last hoeing. In digging, care should be taken to destroy all the weeds; and in doing this an eye should be had for the next season. The potato tops and all the weeds should be buried as you pass along in digging. Dig a hill of potatoes, leaving the hill open to receive the top weeds: then take earth from the next hill back to cover the tops and weeds thus deposited. In this way you destroy at least one-half of the seeds of weeds before they mature, and are adding to your ground a valuable manuring for the coming season. And when your lot is dug over in this way it looks clean and farm-like, and you have done as good service to the lot as one good ploughing would be, and better. This mode of harvesting would suggest the earliest practicable planting of the potato, that its harvesting may be made earlier. And the earlier it is harvested, we feel satisfied the better for the health and cleanliness of the soil and the more profit to the farmer.

KEEP DOWN THE WEEDS.

During the months of July and August is the proper time to attack the weeds—Many of the most pericious ripen their seeds during these months, not merely exhausting the soil, but laying the foundation for future crops of these pests. The fence corners should be kept clean with bill hook and scythe, and as soon as the weeds are cut off, they should be thrown in heaps and burned. It is only helping on the cause of weed growing to cart them to the dung heaps. Every prudent farmer will improve these hints, by employing his own and the leisure hours of his help, in making a complete riddance of every thing in the shape of a weed. No work of the farm pays better, in a pecuniary point of view, leaving out of the question the satisfaction with which a farmer surveys his premises when entirely clear of every intruder.

TO PRESERVE CUCUMBERS FOR PICKLING.

Cut the cucumbers from off the vines without bruising the stems; lay them carefully in a basket; take them to the cellar; sort them and pack them in barrels, putting different sizes in seperate barrels; spread a layer of salt between each layer of cucumbers; there should be sufficient salt to entirely cover the pickles between the layers. Continue to pack the cucumbers daily as they are picked, never using any but fine cucumbers, discarding all that are crooked or of slow growth. Keep boards over the pickles, and weight to press them under the brine, which will be formed without the addition of water, with the juice extracted from the fruit by the salt.—Pickles packed in this manner may be preserved for years, if there are no impurities in the salt; but if the salt is mixed with lime, they will soon soften and spoil.

TOMATOES.

The season for tomatoes is now at hand, and almost every one appreciates their value. Passing by a garden a few day ago which, in most respects, resented evidence of careful and intelligent culture, we were sorry to observe that the growing tomatoes were wholly neglected. The vines were large, and spread all over the ground; but there was but a small show of fruit.—And because there may be many such gardens, where the tomatoes are neglected, we say to our readers: Be sure and provide some kind of support for your tomato plants, it matters but little how the support is made, provided it keeps the fruit from the ground, and exposed to the light and air. And, besides, if you would have large fruit of the best quality, cut or pinch off the laterales when a sufficient number of flowers are set.

A CHEAP AND DELIGHTFUL PUDDING.—Take 4 tablespoons of flour, which mix gradually into a quart of milk; add the yolks, well beaten, of 4 eggs, reserving the whites of the same until a moment before placing in the oven; grease your dish and pour in the above mixture, and bake in a quick oven about 15 or 20 minutes. Eat any kind of sauce you choose.

"These are the sweets of matrimony," as the man said when his wife threw the sugar bowl at his head.

UP DE GRAFF'S
EYE AND EAR INFIRMARY,
(On the Square, Three Doors from Steele's Store)
WILKESBARRE, PA.

THIS INSTUTION is now opened and furnished in the most costly style. Reception, Private and Operating Rooms are large, convenient and well adapted. The Surgical apartment contains the finest collection of instruments in this country, and thus his faculties will enable him to meet any and all emergencies in practice. He will operate upon all the various forms of BLINDNESS, Cataract, Occlusion of the Pupil, Cross Eyes, Closure of the Tear Ducts, Inversion of the Eyelids, Pterygium, &c., &c. And will treat all forms of Sores, Eye Granulated Lids, Opacities of the Cornea, and Scrofulous diseases of the Eye together with all the diseases to which the Eye is subject.

DEAFNESS.—Will treat all the diseases common to the organ. Discharges from the Ear, Noises in the Ear Catarrh, difficulty of hearing, total Deafness even where the Drum is destroyed. Will insert an artificial one answering nearly all the purposes of the natural.

DISEASES OF THE THROAT.—All diseases common to the Throat and Nose will be treated

GENERAL SURGERY.—He will operate upon Club feet, Hair Lip, Cleft Pallate, Tumors, Cancers, Enlarged Tonsils, &c. Plastic operations by healing new flesh into deformed parts, and General Surgery of whatever character it may present.

HERNIA (or RUPTURE).—He will perform "Labius operation for the radical (complete) cure of Hernia, this is unquestionably a perfect cure, and is done with little or no pain. Out of many hundred operated upoun Boston there has been no failures, it having met the perfect approbation of all who have submitted to it.

ARTIFICAL EYES.—Will insert artificial Eyes giving them the motion and expression of the natural.—They are inserted with the least pain.

HEMORRHOIDS, (Piles.)—This troublesome disease is readily cured. Those suffering from it will do well to call.

Dr. Up De Graff visits Wilkes-Barre with a view of building up a permanent Institute for the treatment of the Eye, Ear and General Surgery. The experience of more than a quarter of a century in Hospital and general practice, he hopes, will be a sufficient guarantee to those who may be disposed to employ him.

May 14, 1864.—tf.

TO THE PUBLIC.

The undersigned would inform his friends and the public generally, that he is prepared to treat successfully the following diseases:—

Rheumatism, Bronchetis, St. Anthony's Dance, Loss of Sight, and all blood diseases, with Dispepsia &c.

Satisfaction will be given or no pay required.

His remedies are purely vegetable free from any taint or poison, and safe and pleasant.

GEORGE YOST.

Bloomsburg, April 9, 1864.

Lackawanna & Bloomsburg Railroad

ON AND AFTER JAN. 11, 1864, PASSENGER TRAINS WILL RUN AS FOLLOWS:

BLOOMSBURG SKYLIGHT,
Picture Gallery.

THE undersigned informs the citizens of Bloomsburg and neighborhood that he has taken the large room at the Exchange Block, extending over Barney Stubner Bakery, and the Bookstore where he has put in a large skylight. It is only by Skylight that good pictures can be taken especially groups where each person can be taken; let us well as separate.

He has gone to considerable expense to make his establishment first class one, and he therefore solicits a liberal patronage to enable him, to constantly introduce the mode s improvements of the art.

☞ Country produce taken in Exchange for pictures

HENRY ROSENSTOCK

Bloomsburg, —'64.] [Nov. 6 '63

AN INTERESTING HISTORY
OF
DR. SCHENCK'S OWN CASE,
WHILE LABORING UNDER CONSUMPTION,
And how his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System in curing that disease, and the
GREAT SUCCESS ATTENDING IT!

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption; by a course of his "Pulmonic Syrup." The likeness, although it does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognise both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

New York, Wednesday, March 30, 1864.

TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parrish, then of this city, entered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripened the matter on my lungs, and I would spit of more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me, for me to see if their friends had the disease. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Every year are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the cavity also very much hepatized and complete adhesion of its pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, both of which, by so doing, they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, elongation of the uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may harm it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good digestion is the secret. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food, and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tubes. Get the stomach prepared to digest food, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood.—When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it plenty of nourishing food, it will make new blood, which will take the place of that which is diseased.

Schenck's Pulmonic syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Seaweed Tonic dissolves the mucus in the stomach, and it is carried off by the aid of the Mandrake Pills, the Pulmonic Syrup is made into blood.—This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I can eat my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that is no matter; remove the cause and it will stop itself. Schenck's Seaweed creates a good appetite in about nine days, when there is no thing disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and the stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low spirited, dreary, feeling stupid, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eatin fire heavy, I would recommend one bottle of SCHENCK'S SEAWEED TONIC, and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys uniform health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become healthy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 200 pounds. I will conclude by recalling three cases I have made in New York, and which are all different, and which any one who feels any interest in the matter to visit them.

First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my room, 32 Bond street, and wished me to see his wife. He said I could do no good; that he had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption, and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed, her cough was very severe, the spit-box was half full of thick pus. Take 150. legs swollen very much; and worse than all, she had chronic diarrhœa. Her bowels had been moved twelve times that day. I told her she had lungs enough to be cured, but that this diarrhœa had been long standing, and her stomach was in such an ulcerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she would not be in the condition she was if she could eat, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the tonic and Syrup freely. That was on Tuesday, and by the next Sunday the diarrhœa was carried off, her appetite had returned and she got up in bed and eat her dinner. She is now well, and gave me a long certificate, certified to by the Rev. Dr. Bowling.

Mrs. Bartholomew, 83 West Forty-fifth street, came to my rooms with a tumor on her liver. She was low spirited, sham sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup, Tonic and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had begun to clean a little around the edges, her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the sleer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a days walk. She is glad for any one to call on her, and takes great pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next One is Miss Pearsall, from Stamford, Conn. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goose egg; good appetite, fine spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do on not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Penfield, or any of them who have been cured by my medicines. They are numerous in New York, but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they may be cured.

Dr. J. H. Schenck can be found at his principal office, No. 38 North 6th Street, Philadelphia, every Saturday, from 8 A. M., until 5 P. M., to give advice, free of charge; but for a thorough examination he charges three dollars. Price of the Pulmonic Syrup and Seaweed Tonic each $1.25 per bottle, or $2.50 the half dozen. Mandrake Pills 25 cents per box, and for sale by all Druggists and Dealers.

June 11, 1863.—1 y.

IMPORTANT
TO ALL
INVALIDS.
IRON IN THE BLOOD.

It is well known to the medical profession that IRON is the Vital Principle or Life Element of the blood.—This is derived chiefly from the food we eat; but if the food is not properly digested, or if from any cause whatever the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will obstruct the liver and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease.

The great value of

IRON AS A MEDICINE

is well known and acknowledged by all medical men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This desideratum, says Dr. Hayes, Massachusette State Chemist, has been attained in the Peruvian Syrup, by combination in a way before unknown.

THE PERUVIAN SYRUP

is a Protected solution of the Protoxide of Iron a New Discovery in Medicine that Strikes at the Root of Disease by supplying the blood with its Vital Principle or Life Element—Iron.

THE PERUVIAN SYRUP

Cures Dyspepsia, Liver Complaint, Dropsy Fever and Ague, Loss of Energy, Low Spirits.

THE PERUVIAN SYRUP

Infuses strength, vigor and new life into the system, and builds up an "Iron Constitution.

THE PERUVIAN SYRUP

Cures Chronic Diarrhœa, Scrofula, Boils, Scurvy, Loss of Constitutional Vigor.

THE PERUVIAN SYRUP

Cures Nervous Affections, Female Complaints, and all diseases of the Kidneys and Bladder.

THE PERUVIAN SYRUP

Is a specific for all diseases originating in a bad state of the blood, or accompanied by Debility or a Low State of the System.

Pamphlets containing certificates of cures and recommendations from some of the most eminent Physicians Clergymen, and others, will be sent Free to any address.

We select a few of the names to show the character of the testimonials.

BLANKS! BLANKS!!
Of every description, for sale at this office

LOWELL'S Commercial College
Binghamton

THIS INSTITUTION is under the sole management and direction of Prof. D. W. LOWELL, so long Principal of the

BINGHAMTON COMMERCIAL COLLEGE.

The course of Instruction embraces all the requisites of a thorough practical business education, and has been lately extended by the introduction of an Actual Business Course, in which the Student engages in the regular routine of business transactions, exemplified and familiarized by means of a store, (in which the *actual business* of buying and selling goods is carried on by each Student,) and Business Offices, viz: Banks of Issue and Deposit, Rail-Reading and Steam-Boating Post Office, Telegraph, &c., &c.

The Proprietor has spared no time or expense in making this Course the most thorough and complete of any ever presented to the public, and feels fully assured that after having been himself engaged in actual business, and having had many years' experience at teaching the Science of Accounts, and being aided by a full and efficient corps of teachers, he will be enabled to make thorough and successful graduates of all who may place themselves under his charge.

PENMANSHIP

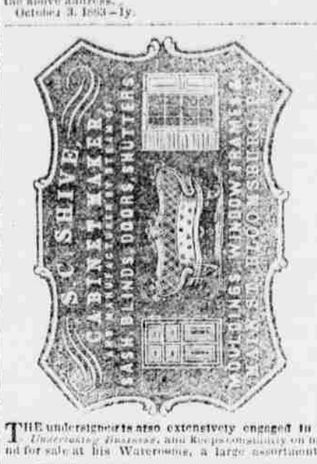
In this essential branch of a business education no College offers better facilities to the Learner. The Spencerian system will be taught in all its varieties by the most skillful masters of the art. Specimens of Writing from this Institution have received the highest encomiums from the press.

For general information, terms, &c., address for College Monthly, which will be mailed free; *for specimens of Penmanship*, enclose two three cent stamps.

Address D. W. LOWELL, Principal.
Lowell's Commercial College, Binghamton, N. Y.

P. S.—One of Ritter & Duncan's No. 1 highly finished fine, perfect point, spill spring Gold Pens, with holder and case, warranted for one year and to suit, will be sent, free of charge to any one who will remit $3.50 to the above address.

October 3, 1863—1y.



THE undersigned is also extensively engaged in the *Undertaking Business*, and keeps constantly on hand and for sale at his Warerooms, a large assortment of

FINISHED COFFINS,

By which he is enabled to fill orders on presentation. Also—Keeps a good Horse and Hearse, and will at all times be ready to attend Funerals.

SIMON C. SHIVE.

Bloomsburg, January 20, 1859

EVANS & WATSON—
SALAMANDER SAFES, RESPECTFULLY
MOVED to No. 16 *South Fourth Street, Philadelphia*, have on hand a large assortment of Fire and Burglar-proof Salamander Safes, Iron doors, Iron shutters for banks and stores, iron shutters for sash, all makes of locks equal to any made in the United States.

Five Safes in one fire. All came out right; with certificates in good condition.

The Salamander Safes of Philadelphia against the world.

EVANS & WATSON.

Have had the surest demonstration in the following certificate that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them as rendering an unlooked for security against the terrific element.

Philadelphia April 12, 1856.

Messrs Evans & Watson: Gentlemen—It affords us the highest satisfaction to state to you, that in trusting to the very protective qualities of five of the Salamander Safes which we purchased of you some five month since we saved a large portion of jewelry, and all our books, &c., exposed to the conflagration, fire in Ranstead place on the morning of the 19th inst.

When we reflect that these safes were located in the fourth story of the building we occupied and that they fell subsequently into a heap of burning ruins, where the vast concentration of the heat caused the brass plates to melt, we cannot but regard the preservation of their valuable contents as a most convincing proof of the great security afforded by your safes.

We shall take great pleasure in recommending them to men of business as a sure reliance against fire.

GEORGE W. SIMMONS & BRO., *Jewellers*

☞ They have since purchased six large Safes.

IMPORTANT TO FEMALES
DR. CHEESEMAN'S FEMALE REGULATING PILLS
PROCLAMATION.
TO THE LADIES!
BOTH MARRIED AND SINGLE.
Oldest Regulator for Females.

DR. CHEESEMAN'S FEMALE PILLS

Will immediately relieve, without pain, all disturbances of the periodic discharges, whether arising from relaxation or suppression. They act like a charm in removing the pains that accompany difficult or immoderate menstruation, and are the only safe and reliable remedy for Pimples, Sick Headache, Pains in the Loins, Back and Sides, Palpitation of the Heart, Nervous Tremors, Hysterics, Spasms, Broken Sleep, and other unpleasant and dangerous effects of an unnatural condition of the sexual functions. In the worst cases of Fluor Albus or Whites, they will in a few days cure.

DR. CHEESEMAN'S FEMALE PILLS.

Have been used over a Quarter of a Century. They are offered as the only safe means of removing interrupted menstruation, but La lace must bear in mind that there is one condition of the female system in which the Pills cannot be taken without producing a peculiar result. The condition referred to is Pregnancy—the result Miscarriage. Such is the irresistible tendency of the medicine to restore the sexual functions to a normal condition, that even the reproductive power of nature cannot resist it. They cannot do harm in any other way.

DR. CHEESEMAN'S FEMALE PILLS.

Are the only Medicine that Married and Single Ladies have relied upon for many years or can rely upon now. Beware of Imitations! These Pills form the Finest Preparation ever put forward, with immediate and Persistent success. DON'T BE DECEIVED. Take this advertisement to your Druggist, and tell him that you want the best and most reliable Female Medicine in the world, which is confined to

DR. CHEESMAN'S FEMALE PILLS!!!

HOSTETTER'S
CELEBRATED
STOMACH BITTERS.

A pure and powerful Tonic, corrective and alterative of wonderful efficacy in disease of the

STOMACH, LIVER AND BOWELS.

Cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Consumption, Colic, Intermittent Fevers, Cramps and Spasms, and all complaints of either Sex, arising from Bodily Weakness whether inherent in the system or produced by special causes.

Nutmeg that is not wholesome, genial and restorative in its nature enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind, no deadly botanical element; no fiery excitant; but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.

It is well to be forewarned against disease, and, so far as the human system can be protected by human means against maladies engendered by an insalubrious atmosphere, impure water and other external causes, HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with *Fever and Ague*, it has been found infallible as a preventive and irresistible as a remedy and thousands who resort to it under apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being pulled with quinine for months in vain, are in fifty instances out of a hundred, made perfect whole and sound, after one bottle of this vegetable alkaloid, are not unfrequently restored to health within a few days by the use of HOSTETTER'S BITTERS.

The weak stomach is rapidly invigorated and the appetite restored by this agreeable Tonic, and hence it works wonders in cases of Dyspepsia and in less prolonged forms of indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also speedily relieves the Constipation superinduced by irregularity of the digestive and secretive organs.

Persons of feeble habit, liable to *Nervous Attacks, Dizziness of Spirits and Fits of Laugher*, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

The agony of Bilious Colic is immediately assuaged by a single dose of the stimulant, and by one seasonably resorting to it, the return of the complaint may be prevented.

As a general Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional weakness, premature decay and debility and decrepitude arising from old age, it exercises the electric influence in the convalescent stages of all diseases it operates as a delightful restorant. When the powers of nature are prostrated, it operates to reinforce and reestablish them. Last, but not last, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stimulants of the day.

No family medicine has been so universally, and it may be truly added, *deservedly* popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.
