

Fall Management of Grape Vines

The month of November, after the loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen off, is the best time to Speeches for the Times, By Has just received from Philadelphia, and is now loaves have fallen of the Speeches for th prune vines . There is no diffrence of JAMES W. WALL. With a Sketch of opinion at all on this point, with expers. his Personal and Political History.

opinion at all on this point, with expersenced grape growers, and it must be done in the fall to succeed well in grape culture.

The principle should be fully understood, the fruit of next year is to grow from canes of this season's growth. Not one person in four who has grape vines on his premises seem to understand this im pertant fact. They have read about it in the agricultural papers, but they paid little attention to it, and seldom or never acted upon it in pruning their vines.

In Personal and Political History.

A pamphiet, style and size same as above, Published to day. Prize 22 et al.

This work shown why he is persecuted by the enemies and knowed by the freends of the United States. This work shown why he is persecuted by the enemies and knowed by the freends of the United States. This work shown why he is persecuted by the call the specific state. Let them Severy, there it he State of New Jersey, to the Senate of the United States. This work shown why he is persecuted by the supplied through the powers and all other works published by us are desired by the commissions begins and though the channel of the interest of the sample of the state.

A pamphiet, style and size and set day Prize ats.

The Aministration sent Mr. Wall the Port Lafayette the State of New York papers and trial the powers for in this hour of greatest danger and trial the prize from the first and at all times.

These and all other works published by us are designed to commission begins and though the set of the United States. This

the next fruiting season, and cut out all New York, Augn-t 10, 1-64, the old wood, provided you have new wood enough that grows out near the base of the vine. If the new wood consists of laterals (that is, the side canes or shoots of old wood,) you should simply leave enough of these laierals to bear a fair crop next year, and but back all the rest Lake Eric. It has been leased by the Pennsylvania Railroad to one eye. The true system is to cut back every other shoet, so that the new wood of next year may be produced from the eyes left upon the canes thus cut back. This is the renewal system, which is practised as well upon the side spurs and ranes as on those that grow from the base of the vine.

It matters not how you train your vines,

It matters not how you train your vines, whether to trellis, stakes, or otherwise, this renewed system must be adopted in pruning, because no cane, shoot or spur ever bears fruit but one season.

A correspondent says : The month of November is also the time to gather cuttings to set in the following Spring. Let them be of well matured Fall & Winter Goods. wood of this year's growth "(but older wood will) cut them from twelve the eighteen inches long, with from two to four eyes, according to the length of points, and THE subscriber has just returned from the Cities with another large and select assortment of if you have but a few they may be kept SPRING AND SUMMER GOODS. safely in the cellar, packed in a box in layers with sand or garden mould spread among them compactly, so as to exclude air. The sand or mould should contain just enough moisture to prevent the cuttings from drying. Sand is reccommended by horticulturists; but I find that soil off my gardent does just as well as sand, and I simply lay my cuttings upon the surface of the soil in layers, and cover. surface of the soil in layers, and cover them with earth (having too many to put National Foundry.

Fall Feed for Cows.

When the grass has been bitten by the frost several times, it losses its sweetness and its substance. There may be enough in bulk, but the animals do not like it as well, bulk, but the animals do not like it as well, and it does not make as much milk or fatness. The pasture feed must be gradually supplemented by fodder. And we can well afford to go to the trouble and expense of it, for butter sell at very remunerative prices. Corn stalks not yet dry will be eaten up clean, and a few thrown out morning and night are not onthrown out morning and night are not only relished, but have a direct and marked 110 effect on the milk product. Sweet apples especialy, fed in reasonable quantities, are good ; but do not let the cows have the run of the orchard. Pumpkins are firstrate, a few at a time, twice a day with all the seeds removed. Cabbage leaves, beat and turnip and carrot tops, and such like garden refuse, are excellent.

garden refuse, are excellent.

A little dry hay may also be given to advantage, feeding out only what will, be eaten up clean. A few pints of bran or corn meal, or a few ears of soft corn, or some oil meal may be fed daily. Yet the chane from simple pasutrage to this extra feed should be made gradually. All acknowledge the importance of this carefulness in spring, when passing from dry ness in spring, when passing from dry feed to grass. There should be similar STOVE AND TIN-WARE SHOP. feed to grass. There should be similar care exercised in the fall, or the yield of milk will fall off. Cows or sheep that are in good flesh, not to say fat, at the begin ning of cold weather are half wintered Just now it is that feed tells best. The fresh bracing air gives an appatite, the annoyance of heat and flies does not wear off the hold of the does not wear off the does not be added to be does not wear off t the flesh ; animals can feed all day and sleep all night, and the weather is not cold enough to make it necessary to consume much of the food or fat, to keep up the enimal heat,

American Agriculturist

THE high price paid for cotton piching is bringing the white women of Tennessess and Arkansas into the fields.

THE Cape Cod Advertiser says that the Bay fleet had done quite a successful mackerel business during the season, and the shore fleet has done well.

THE milk combination at Boston has broken down, and there is plenty of it to be had at eight cents a quart, instead of ten, which the milkmen tried to charge.

by the Rev. Dr. Bowling.

Mrs. Bartholonew. 33 West Forty-fifth street, came
to my rooms with a tumor on her liver. She was low
spirited, skin sallow, tongue coated, howels costive, no
appetite and fast sinking into the grave. The said
tumor had been ransitig over fourtien years. I gave
her Syrap, Toole and Fills, and told her to take them
just as the directions were printed. She came lack to
my rooms, 32 flond street in two weeks, somewhat
better; her tongue had begun to cican a little around
the edges, her skin whiter and her eyes brighter, and
the tumor discharging very offensive matter, much
faster than it had ever done before. She kept graduality unproving, and in shout two months she came to
my rooms very much frightened, saving that he tumor
had nearly stopped running, and was healing up, and
that every doctor fad told her that if it ever freaded it
would cause her death. I told her that it if ever heads it
would cause her death. I told her that the disease has
all left her system and nature would heal the ulcer up.
They are now healed, and have been for about a year,
and she is as hearify and tolopust a woman as you, will
mid in a days walk. She is girl for any one to call on

her, and takes great pains to visit any one thas the hears has anything like her cose, and tries to gethem to come and see me. The next case is Miss Serf field, from Stamford, Coma Mrs, Barthelomore set her field, from Stamford, Coma Mrs, Barthelomore set her field, from Stamford, Coma Mrs, Barthelomore set her fact that how to see me, and she has been ever since at her house. When she first came to my reome, she was parely emacisted with a distressing cough, spitting large quantities of blood. I camined her lungs with the respirometer, and in all my practice mover found only with one level so for gone and the other lung so sound. I could not give made encouragement. I thought she would die; but to my satoreshment the Pulmonic Syrap, Seaweed Stonic, and Mandrake Pilis all seemed to go right to work, the lung is all braied over, leaving a cavity as large on a goose egg; good appetite, fine shirts, and has gained anyme their type pounds in weight. Ehe has some cough yet, which I do no not think will loave for before June. I should think will large gates, particularly Miss Sented or any of them who lave been carred by my medicines. They are numerous in New York, but the above tures all differ from each other; and if my modicines are doing what I represent they are, they should have too credit and the afficted know where and how they are he cared.

Dr. J. H. Schenck can be found at his principal office, No. 39 North 6th Street, Philadelphia, every Saturday from 2 A. M., until 3 P. M., to give advice, free of charge; but for a thorough camination be charge; three dollars Price of the Pulmonic Syrup and Sea, weed Ponic cach \$125 per bottle, or 36 the half dozo, Mandrake Pilis Scents per box, and for sale by all Druggists and Dealers.

June 11, 1-64.—1 y.

TO ALL

INVALIDS IRON IN THE BLOOD.

It is well known to the medical profession the tites is the Vital Principle or Life Element of the black. This is derived citiedly from the food we ent; but if the food is not preperly digested, or if from any cause what ever, the becausery quantity of from to not taken into the circulation, or becomes reduced, the whole system suffers. The bad shoot will arritate to heart, will clied up the lungs, will obstruct the live since will send its discase producing elements to all posts of the statem, and every one will suffer in whatever organ may be predisposed to discase.

TRON AS A MEDICINE

is well known and arknowledged by all meaning men. The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at one with the Blood. This point, says by the Hayes, Massach use its State Chemist, has been attained in the Peruvian Syrup, by combination in a way before unknown. THE PERIVIN STRUP

is a Protected solution of the Protexide of Iron a New Discovery in Medicine that Strikes at the Root of Dis-case by supplying the Mood with its Vital Principle or Life Element—from. THE PEARLVIN STREP

Cures Dyapopala, Liver Complaint, Oropsy Feres and Ague, Loss of Emergay, Low Spirits. THE PERUTIAN STRUP Infuses strongth tigor and now life into the system, and builds upon "From Constitution.
