

Cultivating Corn.

The old fashioned mode with industrious and thrifty farmers, was formerly to hot three times,-the hoeing being regarded as the most important part of the cultivating process,-stirring with horsecultivator being then in little repute.— For weakness arising from Excesses, Habits of Disalp The relative importance of each has now become reversed. Hoeing by hand extends only a few inches from the plants, and is of small moment compared to keeping all the intermediate space clean and mellow. Farmers who keep their land clear from the seeds of weeds, find it scarcely necessary to hand hoe it at all, but obtain the most satisfactory results by they are not frequently followed by those "directal diskeeping the surface stirred throughout the season by horse labor. If corn is planted in hills three feet apart, the roots need en- melancholy deaths by consumption bear ample witness to ter but a foot and a half each way to meet each other. Each square has a surface of nine superficial feet. If the hoeing loosens or cleans one square foot of soil about each hill, then it performs only one-ninth as much good as the horse cultivating-and only one thirty sixth if the hoed portion in only six inches square.

One of the best farmers with whom we are accquainted cultivates his corn once a week, from the time it first makes its appearance till it has become to large for the horse to pass-the soil being rather strong and heavy, the crust is kept constantly broken, and the crop is usually about 70 bushels per acre. This treatment also prevents the too common evil of a profusion of weeds among the plants, towards the latter part of the season.

### Hilling Potatoes.

A diversity of opinion exists on this subject, but if cultivators would look at the results, they would be doubtless become satisfied as to its propriety and the best time to perform the work.

Potatoes when planted, should not be buried so deep as to prevent the young shoots from readily reaching the surface. Yet some depth is required in order that the youg tubers may form in the soil, and not on very near the sarface, when they become green and bitter by exposure to light. Plant, therefore, in rather deep furrows, and cover moderately. In cultivating, the soil will work into the furrows and somewhat deepen the covering. The young tubers will form and grow without disturbance. If the earth is now hilled much, new and latter tubers will form higher or above the first, producing too many, and irregular in size. The best way is to leave the soil nearly flat to till the middle or latter part of summer, cure of Scrafula, Scald Head, Salt Ehebm, Palns and when the potatoes begin to assume considerable size, and to protude towards the and all scaly Eruptions of the Skin. surface. Now is the time for hillingwhich is, in effect, nothing more than mulching the roots to protect them from light, and to prevent them from becoming green.

We recommend cultivators to try this treatment, the present being a proper time for the first part of the process, namely the continuance of the flat cultivation

#### Cleansed Weight of a Heavy Fleece.

The ram "Young Gold Drop," bought of Edwin Hammond & Son last Septem ber, by Messrs. Isaac V. Baker, Jr., and E. W. Harrigan of Comstock's Landing. N. Y., was shorn the day his fleece was of one year's growth, and the fluece was taken to a neighboring factory and cleansed. The certificate below will give the figures. The owners are awaiting with some anxiety the report from the Canandaigua fleeces that were to be cleansed, as they are of the opinion that their ram will stand near the head if not quite

FORT ANN WOOLEN MILLS, May 29th, '65. We certify that we cleansed the fleece brought us by Messrs. Baker and Harrigan, shorn from "Young Gold Drop," weighing in gross 234 pounds, which on being paoperly cleansed weighed seven (7)

SAMUEL LAMB & CO.

BLACK LEG IN CALVES .- Blacksmith Bill writes to the Prairie Farmer that the following method of treatment for Black Leg, which he got from an Ohio farmer, has proved very successful to bim : "Take beef brine and vinegar, (cider vinegar preferred) equal parts, and boil together, and rub on the legs, breast and back while hot with woolen cloths. B. B says he has not lost a case in five or six years. He fails to state how many applications are necessary, but farmers can use their own judgement. It is at any rate a harmless medicine."

An English farmer recently remarked that "he fed his land before it was hungry, rested it before it was weary, and weeded Helmbold's Drug and Chemical Warehouse it before it was foul." Seldem, if ever, was so much agricultural wisdom condensed into a single sentence.

Sound Advice-If you would relish your food, labor for it; it you would enjoy your raiment, pay for it before you wear it; if you would sleep soundly, take a clean conscience to bed with you.

> BLOOD! BLOOD! BLOOD! Helmbold's

FLUID EXTRACT SARSAPARILLA. For purifying the Blood, removing all chronic constitu-tional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, AND BEAUTIPYING THE COMPLEXION

NOT A FEW of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the dis-coveries that have been made to purge it out, none can equal in offect HELMBOLD'S COMPOUND EXTRACT OF SAR-SAPARILLA. It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy that could be relied on has long been sought for, and now, for the first time the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it

has its virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarenparilla added to a pint of water is equal to the Liebon Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparills, or the decection as usually made.

HELMBOLD'S ROSE WASH,

An excellent Lotion for diseases arising from habits of dissipation, used in connection with the Extracts Buchu and Sarasparilla, in such diseases a: recommended. Evi-dence of the most responsible and reliable character will accompany the medicines. Also explicit directions for use, with hundreds of thousands living witnesses, and up-wards of 23,000 unsolicited certificates and recommenda-tory letters, many of which are from the highest sources, including emioant Physicians, Clergymen, Statesmen, &c. The Proprietor has never recorded to their publication in the newspapers; he does not do this from the fact that his articles rank as England Preparation, and do not need rticles rank as Standard Preparations, and do not nece to be propped up by certificates.

The Selence of Medicine, like the Dorfe Column, should

stand simple, pure, majestic, having Fact for its basis Induction for its pillar, and Truth alone for its Capital.

My Extract Sarasparilla is a Blood Purifier ; my Extract Duchu is a Diuretic, and will not as such in all cases.

Both are prepared on purely scientific principles on secue—and are the most active measures of either that can be made. A ready and conclusive test will be a com parison of their properties with those set forth in the following works;

See Dispensatory of the United States. See Professor DEWHES' valuable works on the Practic See remarks made by the celebrated Dr. PHYSIC, Phila. TO THE APPLICTED! FROM DR J BRYAN. CONSULTING PHYSICIAN.

No 442 Browthery, New York. Medical treatment, te be successful, must be adapted to each particular case, and the a tual condition of the patient at the time, and regulated from time to time, as the expenses of the case require. Modicine acts more potently on some persons than on others and it should be administered with a view to assist nature and not to force it

All who are afflicted with Chroni: Difficulties any kind, and have failed to obtain permanent bencfit from the treatment of their family physician, are
solicited to give me a statement of their condition, and
I will advise them, free of charge, what treatment is
necessary to ensure recovery; the time required, and
the strength

To all such I will pay speedy affection, and give every case my serious consideration.

Advice who at medicine is sellous sufficient; therefore when addressing me, embose one dollar in your letter, for which I will give my candid opinion and advice, and such medicine as I can afford for the same by return of mail; and will also state upon what terms I will undertake the case.

My professional attention is given more particularly to the following diseases, which I make specialities of my profession; and I can treat them as well at a distance as if called upon personality.

All Chronic and Complicated Affections of the System (and all diseases required.) the System, (and all diseases peculi-

ar to to Females ) Dyspepsia and Liver Complaints. Chronic Readachs Piles and Fistula, chronic and Inflammatory Rheuma-tism. Neuralgia, and Nervous Diseases general Debit ity. Scrofnia, caseers and Tumors. Chronic and In-flamatory Disease of the Eyes and Ears, Catarrh, Sem-inal Weakness. Impotence, Urethral and Vaginat Dis-charges, Sexual and Urinary Diseases generally.

charges, Sexual and Orinary Diseases generally. Consumption, Broughitis, and Lung Diseases generally.

A treatise on this subject, libertrating the various stages and most rational mode of treatment, will be sent to any one, jost-paid, on the receipt of a postage stamp.

My treatment for Consumption and Bronchial affections has been attended with great success. I do not follow the beater track of the past ages, but attack the disease upon principles that have a sound scientifically and I have restrict thousands by simple remedies, that have been given over by other physicians as incurable. Under the ordinary treatment the patients always die, under my treatment there is some hope. Afflicted, give me a consultation. I use no remedies that are burtful, is any case. My metto is: "Nature has provided, for every disease, remedies in the plants of the fields and trees of the forest;" and I use no minerals under any circumstances.

My address is as follows:

"J. BRYAN, M. D., Box 5679,
