of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the dis-coveries that have been made to purge it out, none can equal in effect HELMHOLD'S COMPOUND EXTRACT OF SAM-SAPABILLA. It cleanees and renovates the Diood, instilla the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy that could be relied on has long been sought for, and now, for the first time the public have one on which they can depend. Our space here does not admit of certificates to show its effects. but the trial of a single bottle will show to the sick that it bas its virtues surpassing anything they have ever taken. Two tablespoonsful of the Extract of Sarsaparilla added to a pint of water is equal to the Liebon Diet Drink, and tile is fully equal to a gallon of the Syrup of Sarseparills, or the decoction as usually made.

HELMBOLD'S ROSE WASH,

An excellent Lotion for diseases arising from habits of dissipation, used in connection with the Extracts Buchu and Sarasparills, in such diseases as recommended. Evi-dence of the most responsible and reliable character will accompany the medicines. Also explicit directions for nee, with hundreds of thousands living witnesses, and op-wards of 50,000 unsolicited certificates and recommenda-tory letters, many of which are from the highest sources, including eminent Physicians, Clergymen, Statesmen, &c. The Proprietor has never resorted to their publication in the newspapers ; he does not do this from the fact that his articles rank as Standard Preparations, and do not need

to be propped up by cortificates. The Science of Medicine, like the Doric Column, should stand simple, pure, majoritc, having Fact for its basis, Induction for its pillar, and Truth slone for its Capital.

My Extract Sarseparilla is a Blood Purifier ; my Extract Bachu is a Diurctic, and will act as such in all cases. Both are prepared on purely scientific principles-in wacko-and are the most active measures of either that can be made. A ready still conclusive test will be a com-parison of their properties with these set forth in the folowing works:
