AGRICULTURAL.

PROTECTION FOR TREES AND PLANTS.

Fruit and ornamental trees planted this fall, are benefited by a mound of earth a foot high, thrown up around the trunk, Let this earth be brought to the tree from another quarter, not taken off from the extremities of the roots, and so exposing them as is too often done. Such a mound will keep the trees steady against the wind and protect the trunks from the inroads of mice Curing as these vermin are, they don't know enough to ascend a bank of fresh earth in search of green fodder. For pear trees, subject as they are to frozen sapblight, we would suggest the additional defence of a light board set up against the south side of the trunks. A hay-band, wound on loosely, answers a good purpose. Dwarf pears need special care in winter, if the ground continues bare. Their roots need a covering of manure or a mound of earth.

As to the cherry trees, do the best you can, and even then expect some injury and loss in the northern States. For the splitting of the trunk, so common, the protection recommended for the pear tree is worthy of trial.

Grape vines not perfectly hardy should be laid on the ground and fastened there, and and then covered with litter or a few inches of soil. So of tender roses and shrubs; they may be bundled up in straw or covered with matting or evergreen boughs, but they are generally safe if bent to the ground and covered with a little earth.

IN-AND IN BREEDING.

There is probably no greater folly that the common stock raiser can be guilty of than breeding from animals close akin.—The results are in almost all cases unfortunate, and tend to the degradation of his stock. This is true of horses and neat cattle especially, of sheep essentially, of swine in a less degree, but still noticeable; and in the case of fowls and pigeons, the evil results are more quickly seen than in any other classes, perhaps. In-and-in breeding, where most carefully conducted, has produced very favorable results; but this was under the direction of men who gave their lives, with severe, assiduous study of animals and their points, their differences of constitution and temperament, of form, size, &c.; and who were also possessed of an intuition as to which animals would cross well. In those herds, too, where in-and-in breeding has been successfully practiced, it must be remembered that the relative number of males and females approached much nearer a natural standard than is ever profitable in economic stock raising. If any one wishes to see how quickly he can run down a superior flock or herd, let him undertake to imitate Bakewell on a small scale.

HOG COLERA.

The Petersburg *Intelligencer* says the following recipe, now for the first time made public, may be replied upon as a specific for the hog colera. It has been fully tried and tested, on the hogs of a gentleman of Amherst, Va. The remedy was given in all the varied stages of the disease, and uniformly cured in every case.

RECIPE—Beat up an ounce of asafœtida and add, say, to one ounce of whiskey or other kinds of spirits, and give the hog two tablespoonsful. It produces an immediate relief, and speedy and permanent cure. The effect which this drench had on the hogs spoken of was to cause them to vomit the most digusting and loathsome mass of matter conceivable from the stomach, when a moderate reaction took place, and the hogs were soon entirely cured.

TO WARM UP COLD BEEFSTEAKS.—Put a fine minced onion in a stewpan, add half a dozen cloves and as many peppercorns pour on a coffee-cup of boiling water and add three tablespoons butter. Let it simmer ten minutes. Then cut up the meat in pieces an inch square, and let it in this gravy about five mintes. Three large tomatoes stewed with the onion improves this.

☞ Jones, while lately engaged in splitting wood, struck a false blow, causing the stick to fly up. It struck him on the jaw and knocked out a front tooth.—"Ah," said Bill, meeting him soon after, "you have had a dental operation performed, I see." "Yes," replied the sufferer, "*ax-identul.*"

☞ Babies resemble wheat in many repects. Firstly, neither are good for much till they arrive at maturity; secondly, both are *bred* in the house, and are also the *flower* of the family; thirdly, both have to be *crauded*; fourthly, both are generally well *thrushed* before they are done with.

VEAL FORCEMENT BALLS.—Chop cold veal fine, add one-quarter as much salt pork chopped also. Season with salt, pepper, and sweet herbs. Make into balls and fry brown.

PLAIN STEAMED PUDDING.—One quart buttermilk, one heaping teaspoon soda, a little salt, flour to make a stiff batter Steam one hour and a half. Liquid sauce.

FLUID EXTRACT BUCHU

HELMBOLD'S

FLUID EXTRACT BUCHU,

A positive and Specific Remedy for diseases of the Bladder, Kidneys, Gravel and Dropsical Swellings.

This Medicine increases the powers of digestion, and excites the absorbents into healthy action, by which the watery or calcareous depositions, and all unnatural enlargements are reduced, as well as pain and inflammation, and is good for men, women and children.

H

HELMBOLD'S EXTRACT BUCHU,

For weakness arising from Excesses, Habits of Dissipation, Early Indiscretion, attended with the following Symptoms:

Indisposition to Exertion,	Loss of Power,
Loss of Memory,	Difficulty of Breathing,
Weak Nerves,	Trembling,
Horror of Disease,	Wakefulness,
Dimness of Vision,	Pain in the Back,
Hot Hands,	Flushing of the Body,
Dryness of the Skin,	Eruptions of the Face,
Universal Lassitude,	Pallid Countenance,

These symptoms, if allowed to go on (which this Medicine invariably removes), soon follow—

FATUITY, EPILEPTIC FITS, &c.,

in one of which the patient may expire. Who can say they are not frequently followed by those "direful diseases,"

INSANITY AND CONSUMPTION?

Many are aware of the cause of their suffering, but none will confess. The records of the insane asylums and the melancholy deaths by consumption bear ample witness to the truth of the assertion.

The Constitution, once affected by organic weakness, requires the aid of medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT OF BUCHU invariably does. A trial will convince the most sceptical.

E

In many affections peculiar to Females, the EXTRACT BUCHU is unequaled by any other remedy, and for all complaints incident to the sex, or in the

DECLINE OR CHANGE OF LIFE,

USE HELMBOLD'S EXTRACT BUCHU

For all affections and diseases of these organs, whether EXISTING IN MALE OR FEMALE.

From whatever cause originating, and no matter how long standing. Diseases of these organs require the aid of a diuretic.

BLOOD! BLOOD! BLOOD!

Helmbold's

HIGHLY CONCENTRATED COMPOUND

FLUID EXTRACT SARSAPARILLA,

For purifying the Blood, removing all chronic constitutional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly Eruptions of the Skin,

AND BEAUTIFYING THE COMPLEXION.

NOT A FEW

of the worst disorders that inflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA. It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy that could be relied on has long been sought for, and now, for the first time the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has its virtues surpassing any thing they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla added to a pint of water is equal to the Lisbon Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

O

HELMBOLD'S ROSE WASH,

An excellent Lotion for diseases arising from habits of dissipation, used in connection with the Extracts Buchu and Sarsaparilla, in such diseases as recommended. Evidence of the most responsible and reliable character will accompany the medicines. Also explicit directions for use, *with hundreds of thousands* living witnesses, and upwards of 50,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent Physicians, Clergymen, Statesmen, &c. The Proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as Standard Preparations, and do not need to be propped up by certificates.

The Science of Medicine, like the Doric Column, should stand simple, pure, majestic, having Fact for its basis, Induction for its pillar, and Truth alone for its Capital.

L

My Extract Sarsaparilla is a Blood Purifier; my Extract Buchu is a Diuretic, and will act as such in all cases.

Both are prepared on purely scientific principles—concentrated—and are the most active measures of either that can be made. A ready and conclusive test will be a comparison of their properties with those set forth in the following works:

NEW SKIRT FOR 865-6.

The Great Invention of the Age in

HOOP SKIRTS

J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double SPRING SKIRT

This Invention consists of Duplex (or two) Elliptic Pure Refined Steel Springs, ingeniously Braided tightly and firmly together, edge to edge making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the Single Springs, and consequently preserve their perfect and beautiful shape more than twice as long as any Single Spring Skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For children Misses and Young Ladies they are superior to all others.

The Hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering which is used on a single Steel Hoop Skirts. The three bottom rods on every Skirt are also double Steel, and twice or double covered to prevent from wearing off the rods when dragging down stairs, stone steps, &c., which they are constantly subject to when in use.

All are made of the best and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical skirt ever made.
