FLUID EXTRACT BUCHU. A positive and Specific Remedy for diseases of the

Bladder, Kidners, Gravel and Dropelusi Swellings This Medicine increases the powers of digestion, and excites the absorbents into healthy action, by which the watery or calcureous depositions, and all unnatural enlargements are reduced, as well as pain and inflammation, and is good for men, women and children.

Weak Nerves, Horrer of Disease, Dimness of Vision, Hot Hands, Dryness of the 5kin, Pain to the Back. Flushing of the Body, Eruptions of the Face, Universal Lassitude. Pallid Countenance.

These symptoms, if allowed to go on (which this Medi-sine invariably removes), soon follow— FATUITY, EPILEPTIC FITS, &c., in one of which the patient may expire. Who can say they are not frequently followed by those "direful dis-

ENEANITY AND CONSUMPTION? Many are aware of the cause of their suffering, but none will confess. The records of the insine asylums and the melancholy destits by consumption bear supple witness to the truth of the assertion.

The Constitution, once affected by organic weakness, requires the aid of medicine to strengthen and invigerate the system, which HELMBOLD'S EXTRACT OF BUCHU tovariably does. A trial will convince the most sceptical.

In many affections poculiar to Females, the Extract Become is unequaled by any other remedy, and for all semplaints incident to the sex, or in the DECLINE OR CHANGE OF LIFE. 13" Set Evaprous above.

FLUID EXTRACT SARSAPARILLA, For purifying the Blood, removing all chronic constitu-tional diseases arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scroftla, Scald Head, Salt libram, Pains and Swellings of the Bones, Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly Eruptions of the Skin,

AND BEAUTIFEINS THE COMPLEXION. NOT A FEW

of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect Helmbolo's Compound Extract of Sar-saranilla. It cleanes and renovates the Blood, instills the vigor of health into the system, and purges out the bumors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy that could be relied on has long been sought for, and now, for the first time the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has its virtues surpassing anything they have ever taken. Two tablespoonsful of the Extract of Sarsaparilla added to a pint of water is equal to the Lisbon Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparills, or the accortion as usually made.

HELMBOLD'S ROSE WASH, An excellent Lotion for diseases arising from habits of dissipation, used in connection with the Extracts Buchu and Sarsaparilla, in such diseases as recommended. Evidence of the most responsible and reliable character will accompany the medicines. Also explicit directions for use, with hundrais of thousands living witnesses, and upwards of 35,000 unsolicited certificates and recommenda-tory letters, many of which are from the highest sources, including ominent Physicians, Clergymen, Statesmen, &c. The Proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as Standard Preparations, and do not need

to be propped up by certificates.

The Science of Medicine, like the Dorio Column, should stand simple, pure, majestic, having Fact for its basis, Induction for its piller, and Truth alone for its Capital.

My Extract Sarsaparilla is a Blood Purifier ; my Extract Bucha is a Diuretic, and will act as such in all cases.

Both are prepared on purely scientific principles—in sucuo-and are the most active measures of either that can be made. A ready and conclusive test will be a com-parison of their properties with those set forth in the fol-lowing works:
