Christopher William Hoofland.

Christopher William Hooftand.

"One of the most renowned physicians one of the greatest benefactors of modern times, was born at Langen Salza, Germany, on the 12th day of august 1762. After a careful scholastic education, he, like his father and grandfather, (two celebrated Doctors.) voluntarily devoted himself to the study of Medicine, at Jena and Gottigen, and in 1783 obtained the degree of Doctor of Medicine, at the latter University. From 1793 to 1801, he officiated as Professor at the University of Jena. In 1801, he was appointed Private Physician to the King of Prussia, Member of the Academy of Science, and upon the establishment of the near College at Berlin, Professor and Court Physician by the Ministry of the Interior. His characteristic protoundness and deep penetration enabled him to combine the theoretical and practical; to udite old and new systews; produce in common the practical and useful, and thus draw therefrom the results and necessary applicable means.

therefrom the results and necessary applicable means.

"It was Dr. H. principally, who exposed and destroyed the 'Brown's System,' which, notwithstanding the brilliant exterior, could not conceal its many imperfections, brought to light by Hoofland's noble impartiality, sound truths, and deep penetration. Independent of his practical usefulness as Physician and Professor of the healing art, he has earned uddying fame for his superior knowledge in Materia Medica, as well as for his manifold works on Medical jurisprudence. Among these may be mentioned his world renowned 'Makrobeolik, or the art of profens, ing life,' 'System of practical healing art,' 'Ideas of Pathogenic,' Journal of practical Medicine,' &c. 'He has besides all this gained eternal fame and praise from suffering humanity for the 'siscovery and combination of several it allibbe medicinals, among which is the far ramed and justly celebrated compound, known as

OPINIONS OF THE PHILADELPHIA
PRESS.

The German "Illustrated News" says:
"Our editor and others of this office have
used the German Bitter, and can recommend
it with confidence to our readers. As prepared by Dr. Jackson, it fully equals if not surpasses in its effects upon diseased Liver and
Stomach, the fullest expectation of the distinguished physician.

The Cuty Ren, October 16th says:
Joy for the Invalid.—How many of our
readers are afflicted with diseased liver,
stomach or nerves? Many, no doubt.
They are to be pitted, yet to all there is a
cure. Dr. Hoofland's German Bitters has already cured hundreds; and that it will cure,
no one who once uses it will dout, if they
use it as directed. It has established for
itself an undying fame, which few have
done out of the vast number that has been
thrown before the puble. It is one of the
most perfect preparations in use, and, as a
German cantempory has gaid, that as prepared by Dr. Jackson, it fully equals, if not
surpasses, in effects the fullest representaone of the distinguished physician who

first compounded it. As a spurious article is now before the public, we would caution all against using any but that signed C. M. Jackson and sold by him at 120 Arch street. The "Camden Democrat," the best paper in West Jersey, says, July 21.

"We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits. From inquiry we west persuaded to use it, and must say we found it spectife in its action upon disseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really suggrising. It calms and strengthens the nerves bringing them into a state of repose, making sleep refreshing.

If this medicine was more generally used, we are satisfied there would be less sickness, as from the stormack, liver and nervous system the great majority of seal and imaginary diseases emanate. Have them in a healthy condition, you can bid definite to epidemics generally. This extraordinary medicine we would advisent friends who are at all indisposed to give a trial—it will then recommend itself.—It should, in fact, be in every family." No other medicine can produce such evidences of merit.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of rhe lives of those who are innocently deceived.

Look well at the marks of the genuing.

They have the written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious.

Wordelin's Pills.—This excellent family medicine is daily winning new triumpha over disease, and consequently in the high road to public favor. In the removal of the every day ills that flesh is heir to, we know of no better compound. We heard the other day of a desperate case of scrofulous eruptions of the head and face being entrely cured by them.

The great popularity of Worsdell's Vegetable Pills, is attributed to the just merit which they really possess. They have been quietly gaining the fame they now have by the force of their own virtues.
