Ily Medicine in the World

IS WORSDELLS VEGETABLE RESTORATIVE PILLS, they have succeeded, in ouring some of the worst cases, of disease ever recorded, and are daily accomplishin the restoration of persons after having tried in vain to obtain relief from any other source. One of the Proprietors is a regular physician of extensive experience, who devotes his time exclusively to their preperation. For FEVER & AGUE, they have never yet failed. At least one thousand-cases in the neighborhood of Philadelphia, have been cured since the first of Sept, last. In Dyspepsia, Rheumatism, Liver Complaint, Scrotha, for Worms, and all other diseases of children, they are unequalied by anything ever prepared for the purpose, while for the various diseases of Females there is no medicine can compare with them. There is more of them sold—they are in greater demand than any other pill—and when once introduced in a family, they need no other medicine. Each box containing Fifty Pills, renders them the cheapest, while they are decidedly the best, as well as the mildest in action, of any now in the market.

The Editor of the "City Item," thus washes of them:

THE CAUSES AND THE REMEDY! THE CAUSES AND THE REMEDY!

Masy and many a wife endures years of bodly suffering and of mental anguish, prostrate and helpless, embittering her life, that of her husband, and hazarding the future welfare of her children, arising from causes which, if known, would have spared the suffering, the anguish to the wife, and to the husband embarrassements and pecuniary difficulties having their crigin in the mind being weighted down and harassed in consequence of the sickness of the companion of his boson.

How important that the causes should be known to every wife, to every husband, that the dreadful and harawwing consequences to the health and happiness of both may be avoided! Life is too short and health-too precious to admit any portion of the one to be spent without the full enjoyment of the other. SICKLY AND UNHAPPY WIVES,
Extract of a Letter from a Gentleman in Dayton, O.

"Dr. A. M. MAURICKAD—My Dear Sir: The
Married Woman's Private Medical Companion, for
which I enclosed one dollar to your address, came
of gratitode, for myself and wife, to give utterance
to our sincere and heartielt emotions.

"My wife has been perceptibly sinking for some
three years or more, in consequence of by great anguish and suffering some months created the great anguish and suffering some months created and provided in the private of the great anguish and suffering some months or and during

At this time (now about two months) I heard your
book highly spoken of, as containing some matters
reaching my case. On its receipt and perman, I can
not express to you the relief it afforded my distressed
mind and the joy its pages imparted to my wife, on
learning that the great discovery of M. M. Desomeans provided a remedy. I topened a prospect to
me which I little conceived was possible. No poeuniary consideration can ever repay the obligations I am
under to you for having been the means of imparting to us the matters contained in The Married

Competence and Health.

"My Dear Sts. I have you will have the kindness to bear with me in encreach will have the kindness to bear with me in encreach myself and wife; the obligations we feel ourselves under to you in having made known certain matters, contained in your most invaluable "Married Woman" a Private Medical Companion." It has been worth its weight in gold to me. If I express myself rather warmly, you will see that I can not do so too warmly, when I inform you of the extent to which I have, through it, been benefited. I will state my situation when I obtained your book through the merest curiosity I look upon it as one of the most fortunate events of my life. I had been married some ten years, and was the father of seven children. I was long struggling unceasingly, to the end that I might gain a moderate competency, but the results of my utmost exertions at the end left me about where I was at the beginning of each year; and that only, with the most stirted economy, sufficiency with barely the necessaries of life. Finally, this my health; I felt less capable to endure its continuance, while I felt the necessity of perseverance. "This constant, unceasing struggle on my part was imperative, in consequence of the prostrated condition of my wife (with occasional intermission) for six years, much of the time confined to her bed, and of course incapable of taking the charge and management of household affairs. Her condition arose from causes of which I was ignorant. Oh! what would I have given had I the six years to live over again! What would, my wife have given to have been spared the long days and still longer nights prostrate on a bed of sickness!—All of which would have been avoided, had I then seen a copy of "Tite Markies."

To those yet unmarried, but contemplating marriage, or perhaps besisating as to the propriety of incurring the responsibilities attendant upon it, the importance of being possessed of the revelations contained in these pages, so intimately involving their future happiness, can not be appreciated. It is, of course, impracticable to convey more fully the various subjects treated of, as they are of a nature strictly intended for the married, or those contemplating marriage; neither is it necessary, since it is every one's duly to become possessed of knowledge whereby the sufferings to which a wife, a mother, or a sister, may be subject, can be obvisted.

The editor said, Dec. 22d—
"Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspeysia, Chronic or Nervous Deblity, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says be has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience and to the afflicted we advise their use."

Judge M. M. Noah, a gendeman with great scientific and and litterary attainments, said in his "New York Weekly Messenger," January 6, 1850.

"Dr. Hoofland's German Bitters.—Here is a preparation which the leading presses in the Union appear to be uvanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one o: the most celebrated physicians of modern umes, the late Dr Christopher Wilhelm Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of

The "Philadelphia Saturday Gazette," the best family newspaper published in the Uni-ted States, the editor says of

DR. HOOFLAND'S GERMAN BITTERS.

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's Germau Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischif, but of a medicine long established, universally prized, and which has met the hearty approval of the Faculty itself."

Evidence upon "avidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongesi testinony in its favor, is, that there is more of it used in the practice of the regulor Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

A LADY SAVED,

A LADY SAVED,

Dr. S. A. Pearson. Dear Sit—About a year as of I was attacked with a severe inflamation of the Lungs, which threatened every symptom of a speedy Consumption. I called upon one of the most eminent physicians of Philadelphis, who pronounced me incurable. My husband then procured for me six bottles of your Pulmonic Expectorant, which I had heard highly recommended—and before I had taken the last of the sixth bottle my lungs were well, my cough and other symptoms of Consumption entirely cured. I am now enjoying fine health and becoming quite fleshy.

Dr. S. A. Pearson, Duar Sir—About a year ago I became severely afflicted with a pain in my
breat and side, an extremely bad cough, spitting of
blood, debility, night sweats, and other symptoms
of confirmed consumption. I became so much reduced that I was unable to attend to my ordinary
business. I made application to a physician, who
examined my chest, and gave it as his decided opinion that my lungs were seriously affected. I
then applied to another, who was of the same opinion, and after having prescribed advised me to
return to my friends.

Previous to this I had for a long time been laboring under all the symptoms usually found with
persons laboring under disease of ine lungs, and
it was thought by all who knew me that I was fast
wearing away with decay.

At the time I applied to the physicians I was
laboring under a severe attack of spitting blood,
with pala in my breast and side. Their prescriptions failed to relieve the pain, and all their skill
could not arrest the discharge of blood from my
lungs. This being my condition, I was induced
to make a trial of your valuable Pulmonic Expectorant, ay the use or which I was immediately relieved of all those unpleasant symptoms, and am
now so far restored to health, that I am able to
attend to all my ordinary business, and expose
myself as much as it is prudent for any one to do.

I would therefore confidently recommend every
person who is laboring under disease of the lungs
and breast, or who are afflicted with colds or with
coughs, to make trial of your nost valuable praparation. I would further add that after having
made use of your Expectorant for a few weeks, I
