THE publishers of Sartain's Magazine announce that they have completed such arrangements for the forthcoming volume as shall make it decidedly superior to all for er issues. The Editorial Department will continue

mer issues.

The Editorial Department will continue under the control of Prof. JOHN S. HART of Philadelphia, Mrs. C. M. KIRKLAND of New York, Who, besides the constant contributions from their own pens, will continue to secure for it that unrivalled array of writers which has given to this Magazine such a superiority over all its competitors.

The proprietors are now making an arrangement which, when completed, will secure for the work a series of articles on subject, and of style and character entirely different from the usual magazine productions. They will "recommend themselves to the reading public for their brilliancy of style, as well as for propriety of the subject chosen. But in no department of the Magazine will there be such marked improvements as in the embellishments for 1851.

In this respect the proprietors possess a a peculiar advantage. Mr. JOHN SAR-TAIN, Mezzotinto Engraver, being one of the proprietors, gives the best fruits of his own skill every month to the Magazine, bevides superintending and directing the other embellishments. To carry into effect more fully their views on this point, the proprietors have during the last season sent Mr. SAMUEL SARTAIN, son of the former, and himself distinguished as artist, on a special mission to Europe, to secure for the Magazine some of the choicest artistical talent in London and on the continent During the year 1851, Mr. John Sartain himself also proposes to visit Europe to carry through the plans already projected, and to make still more extended engagements. The particulars of these arrangements will be given from time to time.

Dear Sir—I am now prepared to recommend your cordial from having used it with success in several instances, and I am now trying your Sarsaparilla Panaeca in a case of protracted debility, attended with cough, apparently produced in the young lady by her outgrowing her strength, to use a common phrase. Yours,

From the Upland Union.

We are as little disposed as most persons to encourage appeals to law or medicine, but with all the legerdemain of the first, and the ignorance and quakery of the last, appeal must occasionally be made to both. The excessive heat and the accompaning productions of the season are already producing Diarrhea, Dysentery and holera Infantum, complaints which if not promptly relieved produce great debility and frequent death. From a knowledge of its beneficial effects, we refer to Dr. Keeler's Cordial and Creminative," advertised in this paper. Dr. Keeler is a physician of intelligence, skill, and large practice, and if the remedies and commendations of medical authority are to be depended on the adove named article will be found useful in the complaints referred to.

Also Dr. Keeler's Sarsaparilla, a medicine of great efficacy in freeing the system from all discasses arising from impurities of the blood. In chronic diseases of the chest, stomach, liver and skin it is of great benefit. Females suffering with nervous debility loss of appetite, controlled to complain referred to.

For sale also by J. R. MOYER, Bloomstorg; Chalfant & Hughes, and Dr. J. A. Moore, Draville; E. Franciscus, Jersey Shore; and by Druggists and Merchants throughout the County and State.
