A PAPER FOR YOUR FAMILY.
New Series-New Features-New Type.
THE HOME JOURNAL.
PUBLISHED WEEKLY IN THE CITY OF NEW-YORK, AT TWO DOLLARS A YEAR.

ON the first of January next, commencing a New Series of this copious, comprehensive, and elegantly printed Family Newspaper, which is now acknowledged to be the indispensable drawing room gazette of the country. A home is hardly complete without it. We think we may safely venture to say, that the Home Journal, which is the Chronicle of all that interests all classes of Society, and of the intelligence which most enlivens an American Home. New-York is the great centre, and here, at the fountain head of novelty, incident, literature, and foreign news, the Home Journal is printed and published. Its editors, (Geo. P. Morris and N. P. Willis,) devote their entire time, skill and experience, to the task of giving, each week, every thing worth knowing. They particularly keep an eye on all the whims and novelties of New-York society, presenting sketches of the Belles of our time, and careful notices of the distinguished public characters. In addition to this, the utmost pains are taken, by translations from French journals, and by foreign correspondence, to prepare such reports to the fashionable Gossip of Paris, as will exceedingly interest and amuse. We present our readers, the facts and outlines of all news. In our literary department, we aim at sketches and readable criticism, and in our condensations of the feigned productions of the vast repertory of England, we aim to avoid the tinsel and the bombast, and transfer to our columns the pick of English information and brilliancy, while we endeavor to select with a true sense of pure morals, true wit and genuine humor. In addition to the above, we propose to give the course of the coming volume, and entirely new features, which we think will interest all readers, we trust to make the number of the Home Journal, eagerly looked for, and more carefully preserved than ever. We have also new correspondents in London and Paris, who will send us much that could never reach us through foreign journals. As a New Year's Present from a Gentleman, a Lady, or a Friend, the Home Journal is one, of which the remembrance is renewed every week, and it is unsurpassed as a gift in good taste.

TERMS.—For one copy, \$2; for three copies, \$5; or for one copy for three years, \$5—always in advance. No subscription without delay. Address MORRIS & WILLIS, Editors & Proprietors, 107 Fulton-street N. Y.

ANOTHER SCIENTIFIC WONDER
PEPSIN!
THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE.

A Great Dyspepsia Cure, Prepared from the secretion of the stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., No. 11, North Eighth Street, Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own agent, the Gastric Juice.

Half a spoonful of this Fluid, infused in water, will digest or dissolve, Five Points of Beef in about two hours, out of the stomach.

DIGESTION.
Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the stomach and intestines. Without it there will be no digestion,—no conversion of food into nourishment, and no nutrition of the body; but, rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half digested, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Peppermint and Peppermint are the chief elements, or great Digesting Principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses actual power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice. Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

SCIENTIFIC EVIDENCE!
BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Graham, in his valuable writings on the "Physiology of Digestion," observes that "the diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding that all new remedies failed, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomach of animals, macerated in water, imparts to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon, in a great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1849, pp. 321-2.) "The discovery of PEPsin to us a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Duglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments, obtained from the living human stomach, and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as the natural digestions."

As a DYSPEPSIA CURE, Dr. Houghton's preparation of Pepsin is the most reliable, most efficacious, and the most agreeable. It is a true and permanent remedy, and is supposed to be on the verge of giving the details of cases in the limit of this advertisement. More than two hundred certificates have been received from Philadelphia, New York, and Boston, &c. These were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to bilious disorder, Liver Complaint, Fever, and Ague, or badly treated Fevers, and Ague, and the various forms of Nervous, and other diseases, arising from Indigestion, and a low state of the system. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.—There is no form of Old Stomach Complaint, which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make the effects permanent. Purify the Blood and Vigor of Body, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Headaches, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Price, ONE DOLLAR per bottle. One bottle will often effect a lasting cure.

PEPSIN IN POWDERS.
For convenience of sending to all parts of the country, the Digestive Matter of the Pepsin is put up in the form of Powders, with directions to be dissolved in water, and taken by the patient. These powders contain just the same matter as the bottles, but twice the quantity for the same price, and will be sent by mail, Free of Postage, for One Dollar sent (not sent) to Dr. J. S. Houghton, No. 11 North Eighth Street Philadelphia, Pa.

Six packages for five dollars. Every package and bottle bears the written signature of J. S. HOUGHTON, M. D., Sole Proprietor.

Sold by agents in every town in the United States, and by respectable dealers in Medicines generally. Agents for Bloomsburg, JOHN R. MOYER, E. P. LUTZ.

WINDSOR AND COMMON CHAIR
made to order of any desirable style at the cheap manufacture of B. HAGENBUCH, Bloomsburg, May 16th 1850.

THE DAGUERREAN JOURNAL.
Devoted to the Daguerrean and Photogenic Art, Also, Embracing the Sciences, Art and Literature.

The first number of this Journal, consisting of 32 octavo pages, commencing the 1st of November, 1850; and, after that date, will be published on the 1st and 15th of each month.

The principal object will be to aid the Daguerrean Artist, to obtain all useful and desirable information at as early a period as may be practicable.

It is designed, not only to show the artist the most approved plan of conducting his operations, but at the same time, to lead all to a thorough investigation of an art, which has since its discovery been deservedly held in high estimation, and to show the importance of its being conducted with the utmost care and skill.

Most Artists have long been groping their way in the dark, occasioned by a want of a reliable medium, through which they could receive the desired information.

We shall endeavor to make this a Journal worthy of the confidence of our Subscribers; possessing Merit, Practical as well as Theoretical Knowledge, interesting alike to the Artist and person of cultivated taste. An opportunity will here be found of interchanging views, best calculated to aid in the rising progress of Art.

The Journal will also embrace the Sciences, Art and Literature. It will readily be seen that we shall endeavor to present as many various articles in making its pages a source of valuable interest.

That this Journal may be within the reach of all, we have fixed upon the low price of THREE DOLLARS a year, in advance, and adopt the principle of the newspaper press; admit a small number of advertisements, from Daguerrean Stock Dealers, Manufacturers, and Artists, which will be of great interest to its readers; particularly those at a distance from the market. Heretofore such information has been quite limited.

To the citizens of Columbia county.
Read what others say of the virtues of Dr. Keeler's Cordial & Carminative.

For the speedy cure of Diarrhoea, Dysentery, Cholera Infantum, Cholera Morbus, all summer complaints, Cholera, Flatulency, and all derangements of the stomach and bowels, &c. See testifying, &c.

Thousands die annually with diseases of the stomach and bowels from neglect. Among the numerous remedies both public and private, recommended for the above diseases, none are equal to the Cordial. Years of experience and trials made with it in hundreds of cases, superadded to the voluntary testimony from physicians and others, gives it a character not to be exceeded by those cherishing the welfare of themselves and children. Speedily subduing the pain and inflammation, tendency, allaying irritability of the stomach, and constraining unhealthy evacuations, its operation is prompt and effectual.

That it will cure, and has cured, the worst form of disease of the stomach and bowels read the following evidence.

Philadelphia, June 1, 1849.

Dr. J. N. Keeler—I received your Cordial this morning asking for information as to the distribution I made of the package of Cordial you put into my possession while in command of the U. S. States transport during the Mexican war. According to your direction a part was distributed in Vera Cruz, the other part was used by my men and others.

For the use of my men and others I kept a bottle, believing I should have use for it, as I had on board frequently from one to three hundred persons, and that many were leaving Mexico would be on the sick list.

Such was the fact, for Dysentery and Diarrhoea were constantly prevalent; I used the Cordial freely, and in not a single instance did I recollect of its having failed to cure. My own crew would often be attacked with Dysentery, Dysentery, &c., peculiar to nearly all after getting on shore and eating fruit and vegetables; in all such cases the Cordial did not fail to cure speedily.

When in New Orleans, a friend informed me of a Philadelphia gentleman, S. Churchman Esq., who was sick with the Dysentery, and despaired of by his doctor. I mentioned having a bottle or so of your Cordial I sent it to him, and in a few days I had the pleasure of seeing him well, I can give you many names and testimonials of the efficacy of your Cordial if necessary. I have given it to one ship master of this port, in particular Capt. Whipple, ship Monongahela, and he informed me he would not be without it. I think it is the safest and best medicine I have ever known to be used in affections of the stomach and bowels.
