ad falled.

These Bitters are worthy the attention o valids. Possessing great virtues in the scriftcation of diseases of the Liver and I's er glauds, exercising the most searching owers in weakness and affections of the di

powers in weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant.

Read and be Convinced.

The Hon. Charles D. Hineline, Editor of the "Camden Democrat," the best paper in West Jersey, says, July 21—

"Hoofland's Graman Bitters,"—"We have seen many flatering notices of this medicine, and the source from which they came, induced us to make finquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep retreshing.

"If this medicine were more generally resed, we are satisfied there would be less sickness, as from the stomach, liver and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed to give a trial—it will then recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit."

[From the "Boston Bee."]

The editor said, Dec. 22d—

"Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspeysia, Chronic or Nervous Debblity, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stom achs with safety, under any circumstances. We are speaking from experience and to the afflicted we advise ther use."

Judge M. M. Noah, a gettdeman with gre their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted,"

MORE EVIDENCE. The "Philadelphia Saturday Gazette," the best family newspaper published in the Uni-ted States, the editor says of

DR. HOOFLAND'S GERMAN BITTERS.

"It is seldom that we recommend what are termed Patont Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostruins of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of inschif, but of a medicine long established, universally prized, and which has met the hearty approval of the Faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regulor Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

A LADY SAVED,

A LADY SAVED,

Dr. S. A. Pearson. Dear Sir—About a year ago I was attacked with a severe inflamation of the Lungs, which threatened every symptom of a speedy Consumption. I called upon one of the most eminent physicians of Philadelphis. who pronounced me incurable. My husband then procured for me six bottles of your Pulmonic Expectorant, which I had heard highly recommended—and before I had taken the last of the sixth bottle my lungs were well, my cough and other symptoms of Consumption entirely cured. I am now enjoying fine health and becoming quite fleshy.

A WONDERFUL CURE.

Hunterdon County, N. J.,
Dr. S. A. Pearson, Dear Sir—About a year ago I became averely affilieted with a pain in my
breat and side, an extremely bad cough, spitting of
blood, debility, night sweats, and other symptoms
of confirmed consumption. I became so much reduced that I was unable to attend to my ordinary
business. I mile application to a physician, who
examined my chest, and gave it as his decided opinion that my lungs were seriously affected. I
then applied to another, who was of the same opinion, and after having prescribed advised me to
return to my friends.

Previous to this I had for a long time been laboring under all the symptoms usually found with
persons laboring under disease of the lurgs, and
it was thought by all who knew me that I was fast
vearing away with decay.

At the time I applied to the physiciana I was
laboring under a severe attack of spitting blood,
with pain in my breast and side. Their prescriptions failed to relieve the pain, and all their skill
could not arrest the discharge of blood from my
lungs. This being my condition, I was induced
to make a trial of your valuable Pulmonic Expectorant, by the use or which I was immediately relieved of all those unpleasant symptoms, and am
now so far restored to health, that I am able to
attend to all my ordinary business, and expose
myself as much as it is prusent for any one to do.
I would therefore condiently recommend every
person who is laboring under disease of the lungs
and breast, or who are afflicted with colds or with
coughs, to mske trial of your most valuable preparation. I would further add that after having
made use of your Expectorant for a few weeks, I
becamed so flesy that persons with whom I was
acquainted hardly knew me. I still remain in good
health at this time, March, 1846.

Your truly,

Yours truly, JOSEPH HOGLAND.
