patient constantly gains strength and vigor-a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stom-achs with safety, under any circumstances. We are speaking from experience and to the afflicted we advise their use." Judge M. M. Noah, a gerdeman with great scientific and and litterary attainments, said in his "New York Workly Messenger," January 6, 1850. "Dr. Hoofand's German Bittera.-Here is a preparation which the leading presses in the Union appear to be unanimous in re-commending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern umes, the late Dr Christopher Wil-helm Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical wri-ters Germany has ever produced. He was emphatically the euemy of *humbug*, and therefore a medicine of which he was the inventor and endorser may be confidently re-lied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Yer-tigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the storatch, the liver and the intestiones. Nine Philadelphia papers express their conviction of its excellence, and sev-eral ot the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jack-son's) preparation, but in recommending the article to all afflicted." to the present proprietor's (Dr. C. son's) preparation, but in recommendation article to all afflicted."
