Their power over the above diseases is not excelled, if equalled, by any other reparation in the United States, as the cures attest, in many cases after skilful physiciane had infled.

These Bitters are wortby the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lasser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant.

The Hon. Charles D. Hineline, Editor of the "Camden Democrat," the best paper in West Jersey, says, July 21:—

"Hooplands Graman Bitterias."—"We have seen many flatering notices of this medicine, and the source from which they came, induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and streighness the nerves, bringing them into a state of repose, making sleep refreshing.

"If his medicine were more generally 2sed, we are satisfied there would be less sickness, as from the stomach, live and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed to give a trial—it will then recommend itself. It should, in fact, be in 'every family. No other medicine can produce such evidences of merit."

[From the "Boston Bee."]

The editor said, Dec. 22d—
"Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspeysia, Chronic or Nervous Debblity, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says be has himself received an effectual and permanent cure of Liver Complaint, Jaundice, Dyspeysia, Chronic or Nervous Debblity, is deserve their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

A LADY SAVED,

Dr. S. A. Pearson. Dear Sir—About a year ago I was attacked with a severe information of the Lungs, which threatened every symptom of a speedy Consumption. I called upon one of the most eminent physicians of Philadelphia, who pronounced me incurable. My husband then procured for me six bottles of your Pulmonic Expectorant, which I had heard highly recommended—and before I had taken the last of the sixth bottle my lungs were well, my cough and other symptoms of Consumption entirely cured. I am now enjoying fine health and becoming quite fleshy.
