This is a truly wonderful remedy for Indigention, Dyspepsia, Jaudice, Liver Complaint, Consupation, and Debility, Curing
after Nature's own method, by Nature's own
agent, the Gastric Juice.

Half a spoonful of this Fluid, infused
in water, will digest or dissolve, Fice Pounds
of Rost Beef in about two hours, out of the

Digestion is Chiefly performed in the stomach by the aid of a fluid which freely exades from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great solvent of the Food, the Purifying, Preserving, and Simulating Agent of the stomach and intensines. Without it there will be no digestion,—no conversion of food into blood, and no nu.

sing Agent of the stomach and intensures. Without it there will be no digestion,—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastrie Juice, and hence the disease, distress and debility which ensue.

Pepsin Abd Rennet.—Pepsin is the chief element. or great Digesting Principle of the Gastrie Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by flarmers in making cheese, called Rennet, "the effect of which has long been the special wonder of the dairy. The curding of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, "One part of Pepsin dissolved in sixty thousand parts of water, will digest ment and other food." Diseased stomachs produce no good Gastric Juice Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

SCIENTIFIC EVIDENCE!

BARON LIEBIC, in Lis celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analagous to the Gastric Juice, may be readily prepared from the nucous membrane of the stomach of the Call; in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35. states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a distinguished professor of medicine in London, who was severely afflicted with this complaint finding every thing else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Graham, author of the famous works of "Vevertable Diet." says: "tit is a remark."

which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "it is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the propenty of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Philia., 1846, pp. 321-2): "The discovery of PEPSIN fo ms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunglison of the Jefferson Col-

sin, as it is in the natural castric since re-eelf."

Professor Dunglison of the Jefferson Col-lege, Philadelphia, in his great work on Hu-man Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living hu-man stomach and from animals are well known: "In all cases," he says, "digestion occurred as perfectly in the artificial as the natural digestions."

As a DYSPEPSIA CURER, Dr Houghton's negnatation of Pepsin has produced the

As a DYSPEPSIA CURER, Dr Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation. Nervous Decline, and dispeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases for the limit of this adventisement—but authenticate certificates have been of more than two hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to billious disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINS.—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent. Purity of Blood and Vigor of Body, follow at once. It is particularly excellent in cases of Nausea Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold-state of the Blood, Heavices, Lowces of Spirits, Despondency, Emanciation, Weakes, tendency to Insanity, Suicide, &c.

At least one thousand cases in the neighborhood of Philadelphia, have been cured since the first of Sept., last. In Dyspepsia, Rheumatism, Liver Complaint, Scrofula, for Worms, and all other diseases of children, they are unequalled by anything ever prepared for the purpose, while for the various diseases of Fermales there is no medicine can compare with them. There is more of them sold—they are in greater demand than any other pill—and when once introduced in a family, they need no other medicine. Each box containing Fifty Pills, renders them the cheapest, while they are decidedly the best, as well as the mildest in action, of any now in the market.

Dr. Swayne—Dear Sir—Being severely afficted with a violent cold and cough, which settled upon my lungs attended with great debility, soreness in my side, that I could scarcely breathe, spitting of blood, no apetite, could get no rest at night, owing to the severity of my cough, would spit as much as a pint of blood at a time. This mournful state of things continued until I almost despaired of being cured, having tried physicians and numerous things without relief; but having heard of the great virues of your Compound Syrup of Wild Cherry, and its being approved of by physicians of the first eminence, I concluded to make a trial of it, and am happy to state that three bottles performed a perfect cure; my sleep is now undisturbed and sweet, and I firmly believe that to your medicine I am indebted for this great cure.

The Hon. Charles D. Hineline, Editor of the "Camden Democrat," the best paper in West Jersey, eavs, July 21:—

"Hoofland's Greman Bitters."—"We have seen many flattering notices of this incellcine, and the source from which they came, induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and stregthens the nerves, bringing them into a state of repose, making sleep retreshing.

The editor said, Dec. 22d—

"Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspeysia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says be has himself received an effectuel and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stom achs with safety, under any circumstances. We are speaking from experience and to the afflicted we advise their use."

great scientific and and literary attainments, said in his "New York Weekly Messenger," January 6, 1850.

"Dr Hoofland's German Bitters.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one o: the most celebrated physicians of modern tunes, the late Dr Christopher Wilhelm Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and the efore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

The afflicted are invited to call and see Mr. Isaac Brooks, Jr., at the corner of Third and Wilcox streets, and Miss Christiana Sands, Beach street below Sprace street, on the Schuyl kill. These two persons have been snatched from the very jaws of the destroyer, through the agency of that most potent of all medicines, DR. CULLEN'S INDIAN YEGETABLE PANACEA.

DR. CULLEN'S INDIAN VEGETABLE PANACEA.

Dr Cullen's Panacea is the only cartain cure for Scrofula or King's Evil, Tetter, Erysipelas, Old Sores and Ulcers, Mercurial Diseases, and all other affestions, cutaneous or otherwise, arising from impurities of the blood.

In the extraordinary cure of Mr. Brooks, people who visit him, hold up their hands in astonishment, that ANY medicine could have arrested any disease—then go away resolved to recommend Dr Cullen's Indian Vegetable Panacea to every one they hear of who has need of a purifying medicine.

So with Christiana Sands—her cuze of Scrofulous sore throat was quite as extraordinary as

GREAT PURIFYER OF THE BLOOD."

Dr. Swayne's Sugar Coated Sarsaparilla and Tar Pills, Act as a gentle purgative, producing a healthy state of the Liver, and Bowels acting as an Alternative, changing that state of costiveness, which is very common to some individuals, and for the irregularities indident to females they are very valuable.

Durlying medicine.

So with Christiana Sands—her cuze of Scrofulous sore throat was quite as extraordinary as Mr. Brooks', when we reflect that from the disease her tea or coffee would frequently pass out of her ears, when attempting to drink, [See her certificate.]

The people are beginning to understand, too, that the various Syrups of Sarsaparilla are little better than molasses, and that it is madness to throw away money on articles which, under the most favorable circumstances, do not produce any impression on the system until several galons have been swallowed. One bottle of Dr. Cullen's Panacea seldom fails to produce conviction in the minds of patients that a radical cure is certain.

Thus hope, [o necessary, an ally to medicine.] springs up at the outset, and the patient is cured before any other preparation could have made the slightest impression upon the disease!

In fact, the twelve conce bottles of Dr. Cullen's Panacea, compared with the pint and quart bottles of the control of the patient of the parise of the control of the parise of t

of its size, would make a poor selection to say the least.

CELEBRATED BITTERS,

Their power over the above diseases is not excelled, if equalled, by any other reparation in the United States, as the cures attest, in many cases after skilful physicians had falled.

MORE EVIDENCE. The "Philadelphia Saturday Gazette," the best family newspaper published in the Uni-ted States, the editor says of

OR HOOFLAND'S GERMAN BITTERS.

"It is seldom that we recommend what we termed Patent Medicines to the confidence and patronage of our readers; and therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostmans of the day, that are noised about for a brief period and then formotion after they have done their guilty race of mischif, but of a medicine long established, universally prized, and which has met the hearty approval of the Faculty itself."

Evidence upon evidence has been rescived (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regulor Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.
