"Dr. Hoofland's German Bitters.—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription farnished by one o: the most celebrated physicians of modern times, the late Dr. Christopher Wilhelm Hoofland, Professor to the University of Jena, Private Physician to the King of Prussia, and one of the gravetes medical writers Germany has ever produced. He was emphatically the enemy of humbug, and the fore a medicine of which; he was the inventor and endorser may be confidently reclied on. He specially recomm rended it in Liver Complaint, Dyspepsia, D shilty, Vertigd, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia payer 5 express their conviction of its excellence, and several ot the editors speak of its effect warrant val, not only in calling the axiention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."
