DEVOTED to Literature, the Arts, Sciences, Agricultural, Education, &c. &c. The first number was issued in January last.

A Monthly Journal principally literary and miscellaneous, embellished with beautiful and meritorious engravings, designed to furnish the heads of families, as well as the youth of both sexes, with a variety of entertaining and instructive information, which will not merely possess the negative quality of not deing injurious, but in which the positive ore of being really useful will alone be found; giving a healthy tone of feeling to their minds, and becoming instrumental, it is hoped, in rendering them more happy in themselves and in their families—more useful in the various relations of life which they sustain—better members of society at large, and preparing them for a state where all is absolute perfection. One particular feature of this New Monthly publication will be an entire freedom from all sectarian spirit, and a careful avoidance of political and controversial subjects in its pages—suitable for all, and proper to be read at all times. All the important movements and events of the times will receive attention, and the news of the month carefully gleaned and chronicled!

A Great Dyspepsia curer, Prepared from ENNET, or the fourth Stomach of the Ox, ther directions of Baron Liebig, the great hysiological Chemist, by J. S. Houghton, D. No.11, North Eighth Street, Phila linbis, Pa.

M. D., No. 11, North Eighth Street, Phila' delphia, Pa.
This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaudice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own agent, the Gastrie Juice.

Fig. Half a spoonful of this Fluid, infused in water, will digest or dissolve, Fice Pounds of Roast Beef in about two hours, out of the stomach.

in water, will digest or dissolve, Free Pounds of Roast Beef in about two hours, out of the stomach.

DIGESTION.

Digestion is Chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the stomach and intenstines. Without it there will be no digestion,—no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half dead, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue.

Persin and Rennet.—Pepsin is the chief element, or great Digesting Principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after de th, and sometimes causes the stomach to digest itself, or est itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called Rennet, the effect of which has long been the special wonder of the dairy. The curding of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that, 'One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food.' Diseased stomachs produce no good Gastric Juice Rennet or Pepsin. To show that this want may be perfectly supplied, we quote the following

SCIENTIFIC EVIDENCE!

Baron Lientg, in Lis celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analogous to the Gastric Juice, may be readily prepared from the nucous membrane of the stomach of the Call, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Perieria, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35 states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Wells, New York, page 35 states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint finding every thing the transportant of all had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Grabath, author of the famous works on "vegetable Diet," says: "it is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp. 321-2): "The discovery of PEPSIN to ms a new era in the chemical history of Di gestion. From recent experiments we kn ow that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunglison of the Jefferson Colvention of the Jefferson Colvention of the Jefferson Colventical discovery in the result work on Hu-

sin, as it is in the natural Gastric Julice itself."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr Beaumont, on the Gastric Julice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as the natural digestions."

atural digestions."
As a DYSPEPSIA CURER, Dr Houghton's As a DYSPENSIA CURER, Dr Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and dispeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limit of this advertisement—but authenticate certificates have been of more than two hundred Remrkable Cures, in Philadelphia, New York, and Boston alone. These were nearly-all desperate cases, and the cures were not only rapid and wonderful, but permanent.

Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instent Relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent. Purity of Blood and Vigor of Body, follow at once. It is particularly excellent in cases of Nausea Yomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low. cold state of the Blood, Heavitess, Lowress of Spirits, Despondency, Emanciation, Weakes, tendency to Insanity, Suicide, &c.

IS WORSDELLS VEGETABLE RESTORATIVE PILLS, they have succeeded in curing some of the worst cases, of disease ever recorded, and are daily 'accomplishin the restoration of persons after having tried in vain to obtain relief from any other source. One of the Proprietors is a regular physician of extensive experience, who devotes his time exclusively to their preparation. For FEVER & AGUE, they have nevery et failed. At least one thousand cases in the neighborhood of Philadelphia, have been cured since the first of Sept. last. In Dyspepsia, Rheumatism, Liver Complaint, Scrotula, for Worms, and all other diseases of children, they are unequalled by anything ever prepared for the purpose, while for the various diseases of Females there is no medicine can compare with them. There is more of them sold—they are in greater demand than any other pill—and when once introduced in a family, they need no other medicine. Each box containing Fidy Pills, renders them the cheapest, while they are decidedly the best, as well as the mildest in action, of any now in the market.

The Editor of the "City Item," thus

Col. Forney of the Pennsylvanian, says:

Worsdell's Pills.—This excellent family, medicine is daily winning new triamphs over disease, and consequently in the high road to public favor. In the removal of the every day ills that flesh is heir to, we know of no better compound. We heard the other day of a desperate case of serofulous erruptions of the head and face being enirely cured by them.

Du Solle of the "Times," says:

The great popularity of Worsdell's Vegetable Pills, is attributed to the just merit which they really possess. They have been quietly gaining the fame they now have, by the force of their own virtues. The means usually employed to give celat to new remedies have not been adopted by the proprietors. They have been content to let their medicine speak for itself. It is now doing it in every section of the country.

They are for sale by most of the Store Keepers throughout the Country, and in quantities at reasonable rates, at the Laboratory No 70, North Eighth Street.
