Advertising
But few fully understand the advantage to every trade of judicious advertising. But the few who understand are reaping a harvest of fortune. To advertise a business or commodity, is to universalize one's sign-board, placing it before the entire community, instead of keeping it swinging and rusting in some nock over his shop-door, leaving the public as obtivious of his whereabouts as they would be of the location of a needle in a hay mow. Look about the city and see who the liberal advertisers are, and to what fortune and eminence they have risen thereby, from small beginnings.—The public will not patronize what it knows nothing about —why should it? The wise need no counsel—let their example teach others.

Or the Secret History of the Court of Lewis XVI.

This work is the sequel to Dumas' celebrated work "The Memoirs of a Physician," by Alexander Dumas, subtor of "The
Iron Mask," "Count of Monto Cristo," &c.
Translated from the French by Thom: Williams. Esq., with beautifully illustrated Covers and Pottraits. Complete in two large
octavo volumes. Price 50 cents a volume.

This novel is founded on the ce brated
incident of the diamond necklace which
Cardinal Cohan purchased, as he s poosed,
for Maria Antoniette, but which fell into the
hands of a female sharper, who personated
the Queen, and so dooped the poor cardinal.
Dumas always writes with spirit. The present is better than most novels now-a-days,
and we recommend it as an agreeable companion for a railroad car, or a rainy aftertoon.
