<sup>1</sup> 'Indian Difficulties in Minesota. CINCENNATI, May 24.—By the receipt of St. Paul's (Minesota) papers of the 13th inst., we learn that the old hared is again displaying itself between the Sioux and Chippewa tibes of Indians, notwithstanding the-treaty of peace made last winter. A party of the Chippewas have been barbarously murdered by some of the Sioux, and a large aber of the latter, armed and painted, have also taken the war path, and directed their march against the Chippewas. The Governor, who has great influence with all the tribes, greatly regrets this movement of the red men, and will do all in his power to check the shedding of each other's blood.

### Foreign News.

The very important foreign news brought by the steamship Baltic may be summoned up as follows :-Rumor says that the King of Naples

dead-and if the report should prove true, he will not be lamented by his people. The Queen Isabella of Spain has had the

misfortune to break her leg. Whether her people will lament for her the telegraph aith not.

-A little boy, aged about three DROWNED. years, son of Joseph L. Langton, of Gran-ville townsuip, Mifflin county, fell into the spring near the farm house on Wednesday morning while the family was at breakfas and was drowned. Some fish had been put in the spring the day previous, and it is sup posed curiosity to see them led him to visit it -Lewistown Gazette.

SUICIPE.—On Saturday morning last, an inkrown white man, thought to be about 70 years of age, was found suspended by the neck in the barn of Mr. Charles Wright, near the old inclined plane. It is supposed that he had been hanging from the Thursday afternoon previous, as on that day he took breaktast and dinner at the inp of Messee breaktast and dinner at the inn uf Messrs Whitehill & McMinn. THE TURKISH COSTUME .- A lady made her appearance in Chesnut street, on Saturday afternoon, for the first time, with this new style of dress. The news immediately spread from Third to Dock street, and the fashionable world became excited. The crowd rushed to and fro, in their anxiety to get a peep at her, and we waited some time to note the appearance of the Marshal's Po-lice, to make arrest, but were disappointed. The weather was unfavorable for p ding, the wind rather high, and the promena ding, the wind rather high, and the manne in which the silk fluttered about the poor lady's pipe-stems, reflected but little for he modesty and less for her physical proportions .- Pennsylvanian.

THE SALT LAKE .- Lieut. Gunnison, Topographical, Engineers, who has bee employed for a long time past in the survey of the Great Basin, in which the Salt Lake is situated, speaks of the Lake as an object of the greatest curiosity. The water is about one third salt, yielding that amount on boild ing. Its density is considerably greater that that of the Dead Sea.—One can hardly ge his whole body below the surface. In a sitting position, the head and remain above water, such is the strength of the brine, and on coming to the shore the body is covered over with an incrustation of salt, in fine crystals .- The most surprising thing about it is the fact, that during the summer season the Lake throws on shore abundance of salt, when in the winter sea son it throws up glouber salt in large quan tities The reason of this is left to the sci entific to judge, and also what becomes o the enormous amount of fresh water poure into it by three or tour large rivers-Jordan Bear and Weber-as there is no visible out let. EFFECT OF A POLITICAL ORATION .- 'I want some man to go down into our district and make a speech,' said a good honest farmer,' as he bid good morning to a couple of young lawyers, who flourish in the vicinity of the nge-'Can't you go down ?'
