Two Weeks Later from California!! Arrival of the Steamship Alabama at

SAN FRANCISCO IN ASHES!! The Hotels and Custom Houses burned—Ship-ping and millions of Property destroyed. New Orleans, June 17th, 1851.

From the steamship Alabama arrived we have our advices. She brings the lamentable and astonishing intelligence that the city of Sanfrancisco has been almost entirely destroyed by one of the most destructive con flagrations in this or any other land. The particulars of this terrible disaster are too long to be transmitted by telegraph immediately and the facts must be very priefly sta-

Property to the amount of fifteen million of dollars is believed to have been destroyed. Among the outldings destroyed are the custom-house, Union, Parker's, and the offices of the steamship company. The fire spread to the shipping, consuming a large number of vessels lying at the wharves. It was discovered in Clay street and ran through one dozen blocks, quickly spreading to other parts of the city, a great part of which including Centre and Eldorado streets, are completely guited. The utmost consterna-tion prevailed during the fire and thousands-were left out of house, some having lost their all. Measures were about being adopted for the relief and shelter of the sufferers

It is feared a number of lives have been lost. Busines was entirely lost sight of. San Francisco presents a sorrowing and heartsickening picture. The exertions made in arresting the flames were on the whole of little avail, and so extensive were the labors of the fire department that but little was provided by their efforts. The consternation of the inhabitants was very great, and of course every thing was in confusion. The number of persons rendered houseless by this calamity is beyond calculation, at present. The news from the mines continues to be of a cheering character. New discoveries were daily being made, and, and the prospects of the miners were highly favora-

ble.
The quartz crushing machines were reap ing rich rewards in some instances the aver age per man was from 30 to 50 dollars per day. Lynch law is still in force and several new examples have been made.

From Philadelphia

June 17th.—Yesterday evening a rowdy party from here went on a moonlight excur-sion on a steamboat to Red Bank: A disgraceful riot took place there; a number of persons, including women and children were injured, several individuals were stabbed and some of them badly wounded. Some of them were subjected to shameful treat-Some ment. A large number of the rioters were arrested and 16 of them locked up at Woodbury jail. The Jersey people were outrage-ously used by the rowdies, and a party of women grossly abused. The captain of a German Volunteer Co. is reported to have been shot and dangerously injured. Re-ports were in circulation to day of two or ports were in circulation to day of two or three deaths. A bar keeper, by the name of Dover, it was rumored, died this morning of n juries at the meelee. There was another story that a man living at Woodbury Wilkesbarre, was shockingly cut in the fight and could not survive it. A stage driver stated to a gentleman that a citizen of Woodbury, when the coach left this morning was lying in a dying condition surrounded by his family.
