

Sears' New Monthly Family Visitor, For the Home Circle. Fifty cents per annum, in advance, including a large engraving of the City of New York, which sells alone for Fifty Cents.

DEVOTED to Literature, the Arts, Sciences, Agricultural, Educational, &c. &c. The first number was issued in January last. A Monthly Journal principally literary and miscellaneous, embellished with beautiful and meritorious engravings, designed to furnish the heads of families, as well as the youth of both sexes with a source of entertaining and instructive information, which will not merely possess the negative quality of not being injurious, but in which the positive one of being really useful will alone be found; giving a healthy tone of feeling to their minds, and becoming instrumental, as it is hoped, in rendering them more happy in themselves and in their families—more useful in the various relations of life which they sustain—better members of society at large, and preparing them for a state where all is absolute perfection. One particular feature of this New Monthly publication will be an entire freedom from all sectarian spirit, and a careful avoidance of political and controversial subjects in its pages—an upholder of the moral and political principles for all, and proper to be read at all times.

All the important movements and events of the times will receive attention, and the news of the month carefully gleaned and chronicled. Our object is to introduce it extensively among all classes, and secure for it a large circulation and field of usefulness. It will be furnished at the low price of FIFTY CENTS PER ANNUM, IN ADVANCE. Any person sending two subscriptions and one dollar, shall be entitled to the Visitor one year gratis. Six copies, one year, \$2.00. Twenty copies, one year, 6.00. And hold, subject to the order of the person sending the twenty names, one volume of our \$2.50 or \$3.00 publications, to be forwarded at his expense or risk of the person, though a member of a club, removing during the year, may change the direction of his number to any other place. All payments for the "Visitor" must be made to the publisher. They may be sent by mail at his expense or risk of the sender, retaining a memorandum of the description of money, date of mailing, &c. &c. Notes of all solvent banks taken at par. Postmasters are authorized by law to frank letters and remittances. Specimens copies will be cheerfully furnished to all persons wishing to examine. All letters must be post-paid, carefully sealed, and legibly addressed to ROBERT SEARS, publisher, No. 128, Nassau Street, N. Y.

To Publishers of Newspapers, throughout the United States. Newspapers copying the above advertisement, (including this notice,) and giving it two insertions, shall receive a copy of Sears' Pictorial Family Annual, containing 400 pages octavo, and illustrated with 212 Engravings, designed as a valuable and cheap present for parents and teachers to place in the hands of young people; or the PICTORIAL HISTORY OF THE REVOLUTION, a handsome octavo volume of more than 400 pages, with an account of the early history of the country, the Constitution of the United States, and a chronological index; illustrated with several hundred engravings.

BOOTS & SHOES. AT THE LOWEST PRICES. AUGUSTUS WILSON Respectfully announces to his friends and the public that he has taken the Boot and Shoe Store lately kept by Warren Russell, where he has always on hand and makes to order all kinds of Boots and Shoes at the following prices: Men's fine calf or morocco boots, \$14 50 do kip or cow hide, 3 25 do calf shoes, 2 00 do cow hide, 1 75 do miners', nailed, 2 25 Ladies' gaiters, 1 62 Lace boots, 1 62 Thick soled slippers, 1 37 Pumped, 1 00 Jersey Linde, 1 25 A 50 Boys', youths' and children's shoes in proportion. He manufactures his work of the best of stock, and is determined to sell it as low as others can their Yankee or city work. Call and see for yourselves. Shop on Main st., next door below Hartman's Store. Bloomsburg, April 1st, 1851.

BLOOMSBURG ACADEMY. A HIGH SCHOOL. For Young Ladies and Gentlemen. J. E. BRADLEY, Principal. A sufficient number of competent Assistants will, at all times be employed. The ensuing Summer Session will commence on MONDAY the 14th day of April next, and will continue 16 weeks. TERMS. The academic year consists of 44 weeks. The price of tuition per quarter is as follows: For Reading, Penmanship, Grammar, Arithmetic, Book-keeping by single entry, Geography, History, &c. \$3 25 For French and Algebra, Geometry, Surveying, Mensuration, Book-keeping by double entry, General History, Natural History, Physiology, Philosophy, other English branches, and Drawing. \$4 50 For Latin, Greek, German, & French, 5 75 Good boardings may be obtained in private families from \$1 50 to \$2 00 per week. REFERENCES.—Col. Joseph Paxton, Hon. Stephen Baily, Hon. Geo. Mack, Michael Brobst, Esq., John M. Reynolds, Esq., and the Citizens of Bloomsburg. After this Winter Session the French Language will be taught in this School. Bloomsburg, March 20, 1851.

A Valuable New Work. AMERICAN HISTORY, comprising sketches of the Indian Tribes; a description of American Antiquities, with an inquiry into their origin and the origin of the Indian tribes; History of the United States, with appendices containing a connection with European History; a History of the present British provinces; a History of Mexico; and a History of Texas brought down to the time of its admission into the American Union. By Marcus Wilson. Published by J. H. Newman & Co., 199 Broadway New York. One large octavo volume. Price \$2.00. The above valuable and interesting work for sale by Thomas Ellis, Agent, Bloomsburg, January 23, 1851—6m. R. W. WEAVER, ATTORNEY-AT-LAW BLOOMSBURG, COLUMBIA CO., PA. OFFICE—On the East side of Main Street three squares below Market. PORTFOLIOS. BLANK BOOKS, DAY BOOKS, LEDGERS, &c. For sale at the Bloomsburg Book Store by JOSEPH SWARTZ.

ANOTHER SCIENTIFIC WONDER PEPSIN! THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE. A Great Dyspepsia Curer, Prepared from RENNET, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, D. D., No. 11, North Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility. Curing after Nature's own method, by Nature's own agent, the Gastric Juice. Half a Spoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. DIGESTION. Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the stomach and intestines. Without it there will be no digestion, no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half digested, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue. PEPsin and RENNET.—Pepsin is the chief element, or great Digesting Principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, and hence Pepsin. To show that this want may be perfectly supplied, we quote the following: SCIENTIFIC EVIDENCE! BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analogous to the Gastric Juice, may be readily prepared from the nucleus membrane of the stomach of the Calf, in which various kinds of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach." Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 25, states the same fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira. Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "the fluid the property of dissolving various kinds of food is a prominent and all-pervading cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, procured the Gastric Juice, obtained from the stomach of living animals, which proved completely successful." Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the water the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process." Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp. 21, 22) is a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself. Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as the natural digestions." As a DYSPEPSIA CURE, Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limit of this advertisement, but authentic certificates have been of more than two hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent. It is a great Nervous Antidote, and particularly useful for tendency to bilious disorders, Liver Complaint, Fever and Ague, or badly treated Fevers and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive organs, after a long sickness. It is also, for excess in eating, and the too free use of ardent spirits. It most certainly Health with Intemperance. OLD STOMACH COMPLAINTS.—There is no form of Old Stomach Complaints which it does not succeed to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent. Purity of the Gastric Juice, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, cold state of the Blood, Heaviness, Loss of Spirit, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c. Price, ONE DOLLAR per bottle. One bottle will often effect a lasting cure. Sent by Mail Free of Postage. For convenience of sending to all parts of the country, the Digestive Matter of the Pepsin is put up in the form of Powders, with directions to be dissolved in water or syrup, by the patient. These powders contain just the same matter as the bottles, but twice the quantity for the same price, and will be sent by mail, Free of Postage, for One Dollar sent (post-paid) to Dr. J. S. Houghton, No. 11 North Eighth Street Philadelphia, Pa. Six packages or five dollars. Every package and bottle bears the written signature of J. S. HOUGHTON, M. D., Sole Proprietor. Sold by agents in every town in the United States, and by respectable dealers in Medicines generally. Agents for Bloomsburg, JOHN R. MOYER, E. P. LUTZ. Novels, School Books, Blank Books, Ledgers, Day books and Journals; Gift Books, Keaspeaks &c., for sale at the Bloomsburg Book Store by JOSEPH SWARTZ.

PEPsin and RENNET.—Pepsin is the chief element, or great Digesting Principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called rennet, the effect of which has long been the special wonder of the dairy. The curdling of milk is the first process of digestion. Rennet possesses astonishing power. The stomach of a calf will curdle nearly one thousand times its own weight of milk. Baron Liebig states that "One part of Pepsin dissolved in sixty thousand parts of water, will digest meat and other food." Diseased stomachs produce no good Gastric Juice, and hence Pepsin. To show that this want may be perfectly supplied, we quote the following: SCIENTIFIC EVIDENCE! BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid analogous to the Gastric Juice, may be readily prepared from the nucleus membrane of the stomach of the Calf, in which various kinds of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach." Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 25, states the same fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira. Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "the fluid the property of dissolving various kinds of food is a prominent and all-pervading cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, procured the Gastric Juice, obtained from the stomach of living animals, which proved completely successful." Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the water the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process." Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp. 21, 22) is a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself. Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as the natural digestions." As a DYSPEPSIA CURE, Dr. Houghton's preparation of Pepsin has produced the most marvellous effects, curing cases of Debility, Emaciation, Nervous Decline, and dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limit of this advertisement, but authentic certificates have been of more than two hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent. It is a great Nervous Antidote, and particularly useful for tendency to bilious disorders, Liver Complaint, Fever and Ague, or badly treated Fevers and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive organs, after a long sickness. It is also, for excess in eating, and the too free use of ardent spirits. It most certainly Health with Intemperance. OLD STOMACH COMPLAINTS.—There is no form of Old Stomach Complaints which it does not succeed to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent. Purity of the Gastric Juice, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, cold state of the Blood, Heaviness, Loss of Spirit, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c. Price, ONE DOLLAR per bottle. One bottle will often effect a lasting cure. Sent by Mail Free of Postage. For convenience of sending to all parts of the country, the Digestive Matter of the Pepsin is put up in the form of Powders, with directions to be dissolved in water or syrup, by the patient. These powders contain just the same matter as the bottles, but twice the quantity for the same price, and will be sent by mail, Free of Postage, for One Dollar sent (post-paid) to Dr. J. S. Houghton, No. 11 North Eighth Street Philadelphia, Pa. Six packages or five dollars. Every package and bottle bears the written signature of J. S. HOUGHTON, M. D., Sole Proprietor. Sold by agents in every town in the United States, and by respectable dealers in Medicines generally. Agents for Bloomsburg, JOHN R. MOYER, E. P. LUTZ. Novels, School Books, Blank Books, Ledgers, Day books and Journals; Gift Books, Keaspeaks &c., for sale at the Bloomsburg Book Store by JOSEPH SWARTZ.

Another Scientific Wonder Pepsin! The True Digestive Fluid, or Gastric Juice. A Great Dyspepsia Curer, Prepared from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, D. D., No. 11, North Eighth Street, Philadelphia, Pa. This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility. Curing after Nature's own method, by Nature's own agent, the Gastric Juice. Half a Spoonful of this Fluid, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. DIGESTION. Digestion is chiefly performed in the stomach by the aid of a fluid which freely exudes from the inner coat of that organ, when in a state of health, called the Gastric Juice. This fluid is the Great solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the stomach and intestines. Without it there will be no digestion, no conversion of food into blood, and no nutrition of the body; but rather a foul, torpid, painful, and destructive condition of the whole digestive apparatus. A weak, half digested, or injured stomach produces no good Gastric Juice, and hence the disease, distress and debility which ensue. PEPsin and RENNET.—Pepsin is the chief element, or great Digesting Principle of the Gastric Juice. It is found in great abundance in the solid parts of the human stomach after death, and sometimes causes the stomach to digest itself, or eat itself up. It is also found in the stomach of animals, as the ox, calf, &c. It is the material used by farmers in making cheese, called rennet, the effect of which has long been the special wonder of the dairy. GREAT COUGH REMEDY! VAYER'S CHERRY PECTORAL. For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, ASTHMA, WHOOPING COUGH AND CONSUMPTION. In offering to the community this justly celebrated remedy for diseases of the throat and lungs, it is not our wish to trifle with the lives or health of the afflicted, but fairly to lay before them the opinions of distinguished men & of some of the most eminent physicians, from which they can judge for themselves. We sincerely pledge ourselves to make no wild assertions or false statements of its efficacy, nor will we hold out any hope to suffering humanity which we do not feel we can justify.

Many proofs are here given, and we solicit an inquiry from the public into all we publish, feeling assured they will find them perfectly reliable, and the medicine worthy their best confidence and patronage. PROF. CLEVELAND, of Bowdoin College, Maine, writes:—"I have witnessed the effects of your 'CHERRY PECTORAL' in my own family and that of my friends, and it gives me satisfaction to state in its favor that I have never known it fail to produce successful in curing diseases of the throat and lungs." REV. DR. OSGOOD writes:—"That he considers 'Cherry Pectoral' the best medicine for Pulmonary Affection, ever given to the public," and states that "his daughter after being obliged to keep the room for four months with a severe settled cough accompanied by raising of blood, night sweats, and the most distressing symptoms of Consumption, commenced the use of the 'Cherry Pectoral,' and had completely recovered."

EX-CHANCELLOR KING, of New York says, "I have been a great sufferer with Bronchitis, and but for the use of the 'Cherry Pectoral' might have continued to be so for many years to come, but that has cured me and I am happy to bear testimony to its efficacy." FROM THIS TESTIMONY we ask the public to judge for themselves. HEAR THE PATIENT, Dr. Ayer—Dear Sir: For two years I was afflicted with a very severe cough, accompanied by spitting of blood and profuse night sweats. The advice of several physicians I was induced to use your 'Cherry Pectoral,' and continued to do so till I considered myself cured, and ascribe the effect to your preparation. JAMES RANDALL, Hamden St., Springfield, Nov. 27, 1848. This day appeared before me James Randall, and pronounced the above statement true in every respect. ROMENZO NORTON, Justice. THE LUMBERY THAT CURES. Dr. Ayer; I have been long afflicted with Asthma which grew yearly worse until last autumn, it brought on a cough which confined me in my chamber; and began to assume the alarming symptoms of consumption. I had tried the best advice and the best medicine to no purpose, until I used your 'Cherry Pectoral,' which cured me, and you may well believe me. Gratefully yours, J. D. PHELPS.

If there is any value in the judgment of the wise, who speak from experience, here is a medicine worthy of the public confidence. Prepared by Dr. C. Ayer, Lowell, Mass., Sold by E. P
