#### Col. Ligler

Has appointed next Monday, August 11th, as the sime when it will be convenient for him to meet and address his fellow citizons of Columbia in this place. A mass meeting will accordingly be held here on that day to give the Democratic candidate for Governor a fitting reception, and hear bis views of public policy. Every Democratic voter who can attend should do so, and every Whig is invited.

The meeting will no doubt be a very large one, considering the limited notice which can be circulated. So let every Dem ocrat bring his neighbor along, and let there be a grand rally.

The following are Col. Bigler's appointments for the month :--

#### ..... Whig Logic

Charley Cook of the Danzille Whig has an intelligent correspondent who defends Senator Frailey from our rebuko in this senator reality from our reduce in this wise: "The people of Montour are grateful to Mr., Frailey—the people of Columbia were ungrateful to you, ergo it is right to give Mr. Frailey a horse for his devotion to the Montour interest." That chap is a dangerous logician, and if he must write for Whig papers had better go at the business of puffing pumpkins and squashes, for at that he might make his "tarnal fortin." But that he might make his vianta form." Dut a Whia's a whig, and we only ask that the high intelligence which delights in such classical and logical articles shall not attempt to ridicule us by praising us for having more manliness and decency than generally, in these degenerate days, falls to the lot of editors in a small village. It is very unkind for such intelligence to commond us, and we shall have to study out some strong de-fence if we are threatened with the like infliction again.

#### Cattawissa Railroad.

To show with what confidence we may rely upon the completion of the tailioad connection between this region and Philadelphia wo will just mention an incident in the late railroad meeting at Cattawissa. Col Paxton stated that before long the books for subscribing stock would be circulated but subscriptions would then be only asked to be paid when the first locomotive from the Schuylkill or the Lehigti should run to the senty is if or the Lehight should run to the bank of the Susquehanns, and then only in ten equal monthly payments of \$5 each. The following is the distance between the saveral noints upon the line.

Stock, Mutual, and Mixed. 1. Stock Companies are those that insure for a specific premium, paid annually in ad-vance. A long series of experiments has enabled the managers of these Companies to fix a rate of insurance which will ordina-rily enable them to declare a reasonable di-vidend upon the Capital invested. The Wyoming, Lycoming, Lazeric, Mon-roe, Northampton, &c, are strictly mutual. 3. Mixed Companies are those that insure for a specific advance premium, without any further liability to the insured. At the

REV. ASSEMBLY OF DIVINES. With Proofs thereof out of the Scriptures, in words at benth. For 100, \$3. Extracts from opinions of the Press. Sacred Scenes and Characters—By the Rev. J. T. Headley. This work may be very properly considered a companion to the "Sacred Mountains," by the same author, the object is to illustrate and "render more life-like?" the sacred writings. It is not the author's design to supersede the Bible. But his wish is excite a solicitude to obtain, and to become initmately acquainted and per-fectly familiar with its history, doctrines and laws; to know its truth to imbibe its spirit, feel its power, and pattake of its salvation; in a word, to prize in sorre measure as it descrees, this treasure which is indeed be-yond price. We predict for it a circulation far beyond any of the author's former works. *The News, Jan. Th. Rambles and Skatches*—By Rev. J. T. Head-fey. We predict for it a negations, or found those autiengiations nor fully re-alized, than in the persoal of the work be-fore us, and we know it will be hailed with gratitection by the many achineers of his merited author. His "Napoleon and his Marshals" was, perhaps, as popular and found at least as many enthushasic readers as any book that can be mentioned. Wo think the Rambles and Sketches are dee-ined to be as popular at least as any of his previously publiched works. There is not a dull chapter in the vork, filed as it is with "an infinite variety." Thé author has am-ple room and verge enough for the employ-utent of his fine talonts to great advantage, and most accessfully has he accomplished the task. The biographical sketch of the enther is fibresting and "well comsidered," and dots much to the value of the book, which fargot up in a very noat did attractive sive by the publisher. *See Porluan Trans-seript, Dec. 10ft.* Ir.
