BEST AMERICAN AUTHORS, and the cream of the domestic and foreign news; the whole well spicet with wit and humor. Each paper is

BEAUTIFULLY ILLUSTRATED

With numerous accurate engravings, by emment arists, of notable objects, current events in all pasts of the world, and of men and manners, altogether making a paper entirely original in its design, in this country. Its pages contain views of every populous city in the known world, of all buildings of note in the eastern or western hemispheres, of all the principal ships and steamers of the navy and merchant service, with face and accurate portraits of every noted character in the world, both male and female. Sketches of beautiful scenery, taken from hife, will also be given, with numerous specimens from the anieval kingdom, the birds of the air, and the fish of the sea. It is printed on the finest paper, and with a font of beautiful brevier type, of the most modern style, manufactured expressly ror it, presenting in its mechanical execution an elegant specimen of art. It contains fifteen hundred and sixty-four square inches and sixty-four columns of reading matter and illustrations—a mammoth weekly paper of sixteen octavo pages. It forms

#### @. IIImmmelles ESSENCE OF COFFEE.

A BOUT two years ago a new discovery was made in Europe, consisting of a substitute for the ordinary stere coffee, called Essence of Coffee, which has gone into general use with astonishing rapidity, not only among the poorer classes, who at once dispensed with the use of the celebrated Chickory Coffee, but is now in general use in the wealthiest families and the first hotels, and is highly recommended by the medical faculty.

weatness tamines and the rist notes, and is highly recommended by the medical faculty.

It is extracted from pure, wholesome vegetables, and excels all similar preparations that have ever been offered to the public, either in this country or in Europe. Its superior quality has already been attested to in the cities by some of the most distinguished of the clerzy and other highly respectable citizens. Coffee made from this essence according to the prescription obtains a more delicious and pleasant favor than the common store coffee, and is certainly more wholesome, especially for persons in delicate health, which will be admitted by every physician who will take the pains to test the nature and properties of this essence.

One paper costing only 12½ ns., is equal to four pounds of store coffee, will be bright and clear without the application of any other ingredient to clarify or settle it. The public are therefore invited to give this essence at least a trial before they condemn it. A respectable merchant of Luzerne county in writing of it says:

"My customers have been using of the above Essence for some months past with general satisfaction; and I do not hesitate to recommend it to the public."

cases in every shape and form, and malformations of the generative system, BY WM. YOUNG, M. D.

The time has now arrived, that persons suffering from secret disease, need no more become the victims of quackery, as by the prescriptions contained in this book any one may curr himself, without hindrance to business, or the knowledge of the most intimate friend, and with one tenth the usual expense. In addition to the general routine of private disease, it fully explains the cause of manhood's early decline, with observations on marriage—besides many other derangements which it would not be proper to enumerate in the public prints.

Any person sending twenty five cents, enclosed in a letter, will receive one copy of this book, by mail, or five copies will be sent for one dollar. Address, Dr. W. Young, No. 752 Spruce street, Philadelphia. Post paid.

Dr. Guillon's PANACEA.

The afflicted are invited to call and see Milsane Brooks, Jr., at the corner of Third and Wilcox streets, and Miss Christiana Sands, Beach street below Sprace street, on the Schuyl.

I These two persons have been snatched from the very jews of the deattoyer. through the genery of that most potent of all medicines, DR. CULLEN'S ANDIAN VEGETABLE

Old Sores and Ulours, Mercurial Diseases, and all other affestions, extaneous or otherwise, arising from impurities of the blood.

In the extraordinary cure of Mr. Brooks, people who yiet him, hold up their hands in astonishment, that any medicine could have arrested an disease—then go away resolved to recommend Dr Cullen's Indian Vegetable Panacea to every one they hear of who has need of a purifying medicine.

So with Christiana Sands—her cure of Scrofulous sore threat was quite as extraordinary as Mr. Brooks', when we reflect that from the disease her tea or coffee would frequently pass out of her ears, when attempting—to drink, [See her cettificate.]

The people are beginning to understand, too that the various Syrups of Sarraperilla are little better than molasses, and that it is madness to throw away money on articles which, under the most favorable circumstances, do not produce any impression on the system unit several galons have been awallowed. One bottle of Dr. Cullen's Panacea seldom fails to produce conviction in the minds of patients that a radical cure is certain.

Thus hope, I is necessary, an ally to medicine.] springs up at the orivet, and the patient so cured before any other preparation could have made the slightest impression upon the disease!

In fact, the twolve ounce bottles of Dr. Cullen's Panacea, compared with the pint and quart bottles of other purifiers, are valuable about in the proportion of gold to copper. Those who woule prefer a peany to a half eagle, on accoun of its size, would make a poor selection to sat the least.

Sarsaparilla a good purifier! Dr. Cullen's Panacea contains its extract in its most concer-

of its size, would make a poor selection to sat the least.

Sarssparilla a good puriner! Dr. Coffen's Panacea contains its oxtract in its most concentrated form. Added to this are other extracts, more active and powerful, and which effect in combination with the Barsaparilla, what the latter article, or combined with the most powerful poisons, cannot alone accomplish.

It has cured where everything else had failed and this in a multitude of cases—not in Europe or in the moon, (where so many great cures have been performed.) but in Philadelphia and other pafts of the union. And be it distinctly understood that we do not obtain our extracts by tholing 400 gallons down to one," it being known to every druggist's apprentice that boiling destroys the essential virtues of medicinal plants and roots.

PROF. CLEVELAND, of Bowdoin oldere, and form find them perfectly reliable, and to my friends, and it gives me satisfaction to state in its favor that no medicine of have ever known has proved so emuently successful in curing diseases of the throat and lungs."

REV. DR, OSGOOD

Writes—"That he considers 'Cherry Pectoral' the best medicine for Pulmonary Affections ever given to the public,' and states that "his daughter after being obliged to keep the room four months with a severe settled cough accompanied by raising of blood, night sweats, and the attendant symptoms of Consumption, commenced the use of the 'Churary Pectoral,' and had completely recovered."

EX—CHANUELLOR KINO, f New ork says. "I have been a great sufferer with Bronchetis, and hay for the use of the 'Churary Pectonal' may have continued to be so for many years to come, but that has cured me and I am happy to bear testimony to its effect."

From such testimony we ask the public to judge for themselves.

Baron Liesic, in Lis celebrated work on a simal Chemistry, say se: "An Artificial Dissive Fluid analago us to the Gastric Juice, may be readily prepared from the nucous gmembrane of the stomach of the Calf, which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35 states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observe hat "a diminution of the due quantity or he Gastric Juice, is a prominent and all-preailing cause of Dyspepsia," and he state, that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to tained from the stomach of living animals which proved completely successful."

Dr. Graham, author of the famous work on "Vegetable Diet," says: "it is a remarkable fact in physiology, that the stomach of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of antificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila... 1846, pp. 321-21: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."
