The System of the Control of the Contr

style, for which Mr. Greeley is widely celebrated.

A more authentic, instructive, and amusing Book of Travels has probably never been issued from the American press. The vast amount of information which it contains is presented in such a lively and off hand manner, that the perusal of the volume becomes as interesting as a novel.

Whoever would obtain a fresh, daguerreotype view of the present state of England, should not fail to make himself acquainted with its contents. Even the discussion of the driest topics, which it sometimes takes up, is enlivened with such frequent flashes of humor, and pervaded with such genial and sparkling vivacity, that no one who commences the volume can lay it down without finishing its perusal.

We confidently anticipate a very extensive circulation for this work throughout the United States. The name of Horace Greeley, which is as widely known as that of any other American citizen, will excite a general curiosity to learn the results of his European experience. We are certain no one can be disappointed in this admirable recital of his foreign adventures.

### @. Elummolis ESSENCE OF COFFEE.

A BOUT two years ago a new discovery was made in Europe, consisting of a substitute for the ordinary store coffee, called Essence of Coffee, which has gone into general use with astonishing rapidity, not only among the poorer classes, who at once dispensed with the use of the celebrated Chickory Coffee, but is now in general use in the wealthiest families and the first hotels, and is highly recommended by the medical facility.

wealthiest families and the first hotels, and is highly recommended by the medical factify. It is extracted from pure, wholesome vegetables, and excels all similar preparations that have ever been offered to the public, either in this country or in Europe. It is perior quality has already been attested to in the cities by some of the most distinguished of the cleray and other highly respectable citizens. Coffee made from this essence according to the prescription obtains a more delicious and pleasant favor than the common store coffee, and is certainly more wholesome, especially for persons in delicate health, which will be admitted by every physician who will take the pains to test the nature and properties of this essence. One paper costing only 12½ cts., is equal to four pounds of store coffee, will be bright and clear without the application of any other ingredient to clarify or settle it. The public are therefore invited to give this essence at least a trial before they condemn it. A respectable merchant of Luzerne county in writing of it says:

"My customers have been using of the above Essence for some months past with general satisfaction; and I do not hesitate to recommend it to the public.

from impurities of the blood.

In the extraordinary cure of Mr. Brooks, people who visat him, hold up their hands in astonishment, that any medicine could have arrested ats disease—then go a way resolved to recommend Dr Cullen's Indian Vegetable Panacea to every one they hear of who has need of a

So with Christiana Sands—her cuze of Scrofulous sore throat was quite as extraordinary as Mr. Brooks', when we reflect that from the disease her tea or coffee would frequently pass out of her ears, when attempting to drink, [See her certificate.]

The people are beginning to understand, too that the various Syrups of Sarraparilla are little better than molasses, and that it is madness to throw away money on articles which, under the most favorable circumstances, do not produce any impression on the system until several galons have been swallowed. Thus hope, [:o necessary, an ally to medicine.] springs up at the outset, and the patient is cured before any other preparation could have made the slightest impression upon the disease!

In fact, the twelve ounce bottles of Dr. Culler's Panaces, compared with the pint and quart bottles of other purifiers, are valuable about in the proportion of gold to copper. Those who woule prefer a peany to a half eagle, on accoun of its size, would make a poor selection to sat the least.

Sarsaparilla a good purifier! Dr. Cullen's Panacea contains its extract in its most concentrated form. Added to this are other extracts, more active and powerful, and which effect in combination with the Sarsaparilla, what the latter article, or combined with the most powerful poisons, cannot alone accomplish.

It has cured where everything else had failed and this in a multitude of cases—not in Europe or in the moon, (where so many great cures
