Thirty-second Congress—First Session.

WASHINGTON, Dec. 4, 1851.

SENATE.—The Senate met at the usual hour. Mr. Clemens gave notice of a joint resolution conferring on Major General Winfield Scott, the brevet rank of Lieutenant General.

Mr. Gwin introduced a bill directing that the duties collected in California, after the treaty of Guadalupe Hidalgo, and up to the admission of the State into the Union, be paid to California.

He also introduced a bill directing a survey of the public lands of California; and a bill establishing a branch mint in California.

Mr. Foote introduced his joint resolution expressive of sympathy for Smith O'Brien, Meagher, and the other Irish exiles.

Mr. Underwood introduced his joint resolution making land-warrants assignable.

Mr. Fish gave notice of his intention to introduce a bill establishing a branch mint of the United States in New York.

Mr. Foote introduced the joint resolution which he gave notice on Tuesday, declaring of the compromise measures of the last Congress to be a definite settlement of the Slavery question.

He said he expected to leave Washington on the 20th of this month, and asked as a favor of the Senate, that this resolution might be taken up now and made the special order of the day for Monday next.

The Chair—It requires the unanimous consent of the Senate.

Mr. Chase—I object.

Mr. Foote—Does the senator object to taking up the resolution now for the purpose of making it the special order for Monday.

Mr. Chase—I do object to taking it up even for that purpose. I object to having the resolution take precedence of other important business already introduced.

Mr. Foote—I am glad the opposition comes from the quarter it does. I hope it will be continued.

Mr. Chase—It will undoubtedly be continued.

The Chair—The resolution must lie over.

Mr. Gwin introduced a resolution calling for a copy of a despatch from Mr. Niles, late Charge d'Affaires of the United States to Sardinia, on the subject of a ship canal to unite the waters of the Atlantic and Pacific oceans.

The resolution was laid over.

Mr. Chase introduced a bill granting to the State of Ohio all the unsold lands remaining in that State, and asked that it might be printed.

Mr. Foote, by way of returning good for evil, advocated the motion to print, and it was agreed to.

Mr. Foote then renewed his motion to take up the resolution concerning the compromise measures, with the view of making it the order of the day, for Monday next. He understood no objection would now be made to it.

No objection being made, the resolution was taken up, and then postponed to, and made the special order for Monday.

GODEY'S LADY'S BOOK FOR 1852.

INCREASE OF READING MATTER.

THE LADY'S BOOK for the ensuing year will present many novel features suited to the advancing demands of the public taste.

It has ever been the object of the publisher to TAKE THE LEAD among the popular magazines of this country; and the hosts of initiators who have been constantly following—"toiling after him in vain!"—are sufficient to attest his brilliant success.

The promise with which every new idea is presented is sufficient reason for his not being very explicit and exact in his promises of what is yet to come. He does not wish to lay out plans for others to follow. It is sufficient, however, to say that all the existing popular features of the Lady's Book will be retained, and other new ones particularly attractive in a Lady's Book and Family Magazine, will be introduced.

To the Magazines alone we must look for the effusions of the master-minds of Literature. It is useless to publish a list of names—suffice it to say, that we have published articles, and have others to publish from ALL THE BEST AMERICAN WRITERS—MALE AND FEMALE!

Godey's Lady's Book for January, 1852, will contain in addition to the most beautiful and numerous engravings—three of which are colored—an additional quantity of reading by American authors. There is no question about the fact that tens of thousands of notices that we have from the cotemporary press will establish it, that it is

The most Magnificent Periodical in the World! The publisher will give 12 Nos for 1852, that the London Arts Union would be proud of, and their price is \$10 a year.

It must be observed that the Lady's Book caters to the taste of the American ladies. It furnishes them with everything that can interest a lady—and among others is the following—

GODEY'S RELIABLE FASHION PLATES MONTHLY, with full descriptions—besides chit-chat upon the Fashions every month giving full explanations of everything new in the Fashionable World.

OUR MODEL COTTAGES. This is a department peculiarly our own, and the beauty and utility of our models has everywhere been acknowledged.

We have undoubtedly receipts, Model Cottages, Model Cottage Furniture, Patterns for Window Curtains, Crochet Work, Knitting, Netting, Patchwork, Crochet Flower Work, Lace Collar Work, Children's and Infants' Clothes, caps, chemises—in fine, everything that can interest a Lady, will find its appropriate place in her own Book.

TERMS—CASH IN ADVANCE: 1 copy one year, \$3. 2 copies one year, \$5. 1 copy two years, \$5. 5 copies one year, \$10. 1 copy five years, \$10. 10 copies one year, \$20, and an extra copy to the person sending the club of ten.

L. A. GODEY, 113 Chestnut street, Philadelphia. Godey's Lady's Book and Arthur's Home Gazette, or the Star of the North one year \$4.
